

Superpowers (6 of the 21)

Empathy (A)

You have amazing powers of perception. You sense needs and emotions, even when no one is saying anything, which makes you a great asset when the team is building a new relationship.

Experimentation (B)

You have a prototyping mindset. You rapidly generate ideas, identify the best, set them in motion, and refine as you go. You have high standards, but aren't afraid to fail, which helps your team take action.

Grit (C)

You are the quiet engine of the team—pushing yourself and the work until it is truly done. You pace yourself, overcoming setbacks and procrastination, and you motivate others to do the same.

Provocation (D)

You often strive for greatness when others might be content with good enough. You push the team outside its comfort zone. The team needs you most when the work lacks originality.

Systems Thinking (E)

You see the forest and the trees—even the underground root system. When the team is navigating a complicated situation, you help them think through the pros and cons of various options.

Vision (F)

You have a kind of crystal ball—you can see a future destination in vivid color. Even if some details about how to get there may be hazy, you keep the team's ambition high throughout the journey.

Making Of A Great Power

Making Of A Great Power:

The Making of Japanese Manchuria, 1904-1932 Yoshihisa Tak Matsusaka, 2020-03-23 In this history of Japanese involvement in northeast China the author argues that Japan's military seizure of Manchuria in September 1931 was founded on three decades of infiltration of the area This incremental empire building and its effect on Japan are the focuses of this book The principal agency in the piecemeal growth of Japanese colonization was the South Manchurian Railway Company and by the mid 1920s Japan had a deeply entrenched presence in Manchuria and exercised a dominant economic and political influence over the area Japanese colonial expansion in Manchuria also loomed large in Japanese politics military policy economic development and foreign relations and deeply influenced many aspects of Japan's interwar history

China's Achilles' Heel Srikanth Thaliyakkattil, 2019-06-24 This book analyses Chinese discourse on Indian attitudes towards the Belt Road Initiative BRI and argues that the Indian discourse is becoming one of the biggest hurdles to China creating its own narrative about China's rise in Asia and beyond In doing so it spans across the themes of the power struggle between China and US China and India the Chinese perception of India China South Asia relations the China US India strategic triangle and the success and failures of BRI The first part of the book focuses on the Chinese thinking behind the launch of the BRI and addresses questions related to the purpose of this initiative and ways in which it will facilitate China's rise as a superpower Subsequently the book addresses how effective or ineffective India's challenge is and how it is negatively affecting China's BRI *The Works of ... J. H. ... With his Funeral Sermon on 2 Tim. iii. 14 by Mr Spademan. To which are prefix'd, Memoirs of the life of the Author, collected by E. Calamy* John Howe, 1832 **Making Global Society**

Barry Buzan, 2023-08-10 Barry Buzan proposes a new approach to making International Relations a truly global discipline that transcends both Eurocentrism and comparative civilisations He narrates the story of humankind as a whole across three eras using its material conditions and social structures to show how global society has evolved Deploying the English School's idea of primary institutions and setting their story across three domains interpolity transnational and interhuman this book conveys a living historical sense of the human story whilst avoiding the overabstraction of many social science grand theories Buzan sharpens the familiar story of three main eras in human history with the novel idea that these eras are separated by turbulent periods of transition This device enables a radical retelling of how modernity emerged from the late 18th century He shows how the concept of global society can build bridges connecting International Relations Global Historical Sociology and Global World History From New Babylon to Eden Bertrand Van Ruymbeke, 2025-10-02 A revealing account of the choices French immigrants faced as they settled in South Carolina Winner of the National Huguenot Society's 2007 Book of the Year award From New Babylon to Eden traces the persecution of Huguenots in France and the eventual immigration of a small bloc of the French Calvinist population to proprietary South Carolina Placing the Carolina migration in the context of the larger Huguenot diaspora Van Ruymbeke proffers an account that challenges accepted history Describing their

settlement as a process of acculturation and creolization rather than simply assimilation he contends that most of these French Calvinists sought to create their own churches but were thwarted by an Anglicized elite eager to dominate Anglo Carolinian society He also reveals that most members of the initial generation were only moderately prosperous and that it was their descendants who acquired the wealth often associated with lowcountry Huguenots A new foreword by Owen Stanwood and preface from the author consider the continuing significance of the book nearly twenty years after its original publication

The Age of Oligarchy Geoffrey Holmes,D. Szechi,2014-07-16 The second volume on early and mid Georgian Britain shows how the country used its expanding wealth its new found social cohesion at home and its international influence abroad to become not only a European but an imperial power As with the first volume every aspect of the period is covered

America's Great-Power Opportunity Ali Wyne,2022-04-07 It has become axiomatic to contend that U S foreign policy must adapt to an era of renewed great power competition The United States went on a quarter century strategic detour after the Cold War the argument goes basking in triumphalism and getting bogged down in the Middle East Now China and Russia are increasingly challenging its influence and undercutting the order it has led since 1945 How should it respond to these two formidable authoritarian powers In this timely intervention Ali Wyne offers the first detailed critique of great power competition as a foreign policy framework warning that it could render the United States defensive and reactive He exhorts Washington to find a middle ground between complacency and consternation selectively contesting Beijing and Moscow but not allowing their decisions to determine its own course Analyzing a resurgent China a disruptive Russia and a deepening Sino Russian entente Wyne explains how the United States can seize the great power opportunity at hand to manage all three of those phenomena confidently while renewing itself at home and abroad Also available as an audiobook

Russia as a Great Power Jakob Hedenskog,Vilhelm Konnander,Bertil Nygren,Ingmar Oldberg,Christer Pursiainen,2013-07-04 After a period of relative weakness and isolation during most of the 1990s Russia is again appearing as a major security player in world politics This book provides a comprehensive assessment of Russia s current security situation addressing such questions as What kind of player is Russia in the field of security What is the essence of its security policy What are the sources capabilities and priorities of its security policy What are the prospects for the future One important conclusion to emerge is that while Russian foreign policy under Putin has become more pragmatic and responsive to both problems and opportunities the growing lack of checks and balances in domestic politics makes political integration with the West difficult and gives the president great freedom in applying Russia s growing power abroad

Asia-Pacific Secondary States as Kingmakers Richard J. Cook,Maximilian Ohle,Zhaoying Han,2025-05-30 Focusing on the Asia Pacific region Cook Ohle and Han investigate the escalating strategic competition between China and the US They explore the dynamics of key regional secondary states caught in the middle namely Japan South Korea the Philippines and Vietnam emphasising their crucial role as potential kingmakers in the shifting balance of power China and the US are competing to

win influence over these regional linchpins to advance their geopolitical ambitions and ultimately win the strategic competition Elucidating a power of the weak paradox this contribution examines the challenging choices faced by these secondary states as they navigate alignment pressures which influence the trajectory of the great power strategic competition Drawing upon a range of first hand government sources and regional perspectives the authors take the temperature of the China US strategic competition revealing the intricate influencing dynamics and perilous choices linchpins are being pushed to make that will determine the fate of the Asia Pacific This is a timely resource for researchers students scholars and politicians navigating the complex realm of international relations by providing a profound exploration of power struggles strategic choices and the often overlooked role of secondary states

God, Evidences, and Creation: Who God Is and Reasons for Believing David Pratte, 2019-12-25 A study of Bible teaching about the nature of God evidences for God Jesus and the Bible including a careful study of creation vs evolution Topics studied are God's power wisdom love and holiness The providence of God The number of individuals in the Godhead The Deity of Jesus The Holy Spirit and spiritual gifts Fulfilled prophecy miracles and the resurrection The significance of the Bible doctrine of creation The consequences of evolution Humanism compared to the Bible The length of the days of creation

Realism and Idealism in Foreign Policy Decision Making Hayden J. Smith, 2020-12-02 Using a typology of worldviews based on perception of threat and expansionist or isolationist objectives Hayden J Smith examines influences on the foreign policy decision making of individual US Presidents including Richard Nixon Jimmy Carter George W Bush Barack Obama and Donald Trump

The Post-Colonial Security Dilemma Rebecca Strating, 2018-11-20 This book examines the development of Timor Leste's foreign policy since achieving political independence in 2002 It considers the influence of Timor Leste's historical experiences with foreign intervention on how the small new state has pursued security The book argues that efforts to secure the Timorese state have been motivated by a desire to reduce foreign intervention and dependence upon other actors within the international community Timor Leste's desire for real independence characterized by the absence of foreign interference permeates all spheres of its international political cultural and economic relations and foreign policy discourse Securing the state entails projecting a legitimate identity in the international community to protect and guarantee political recognition of sovereign status an imperative that gives rise to Timor Leste's aspirational foreign policy The book examines Timor Leste's key bilateral and multilateral diplomatic relations its engagement with the global normative order and its place within the changing Asia Pacific region

Rethinking Middle Powers in the Asian Century Tanguy Struye de Swielande, Dorothee Vandamme, David Walton, Thomas Wilkins, 2018-09-27 The term middle power is conceptually fragile Some scholars have even

argued for abandoning it This book argues that the concept needs to be analysed more profoundly and that new analytical tools need to be developed to better understand the phenomenon The traditional approach based on Western states is insufficient and has become increasingly irrelevant in a transformed global environment Instead of drawing from a single theory of international relations the contributors have chosen to build upon a wide range of theories in a deliberate demonstration of analytic eclecticism A pluralistic approach provides stronger explanations while remaining analytically and intellectually rigorous Many of the theory contributions are reconsidering how the largely Western bases of such theorising need revising in light of the emerging middle powers many of which are in Asia Presenting a strong argument for studying middle powers this book explores both the theory and empirical applications of the concept by rethinking the definition and characteristics of middle powers using a range of case studies It examines changes in the study of middle powers over the last decade proposing to look at the concept of middle powers in a coherent and inclusive manner Finally it aims to further the discussion on the evolution of the international system and provides sound conclusions about the theoretical usefulness and empirical evolution of middle powers today

Stability and Security in the Baltic Sea Region Olav Fagelund Knudsen, 2013-11-05 The book examines the security puzzles posed by the remaining legacies of dominance and conflict in the Baltic Sea region as governments seek to integrate the three Baltic states in a more stable system of cooperative security

European Union Foreign and Security Policy Roland Dannreuther, 2004-07-31 This book examines the degree to which the European Union has responded as a coherent and strategic actor towards the developmental and security needs of its immediate neighbourhood in the post Cold War era
