Making Of A Nation Ebays On Nineteenth:

The Net Delusion Evgeny Morozov, 2011 Publisher's description The revolution will be Twittered declared journalist Andrew Sullivan after protests erupted in Iran Yet for all the talk about the liberalizing force of the internet regimes in Iran and China are as stable and repressive as ever In fact authoritarian regimes are effectively using the internet to suppress free speech and democracy What's more the latest research shows that greater access to information pacifies a population as much as it incites it to revolution If we in the West are to promote liberal ideals we'll have to do more than fund Facebook In this book blogger and social commentator Evgeny Morozov tackles these issues with relentless energy and analytical savvy Marshalling a compelling set of case studies he shows why we must stop thinking of the internet and social media as instant cures for repression and how in some cases they can even threaten democracy **Book Review Index**, 2006 Every 3rd issue is a quarterly cumulation Modernism on the Nile Alex Dika Seggerman, 2019-08-13 Analyzing the modernist art movement that arose in Cairo and Alexandria from the late nineteenth century through the 1960s Alex Dika Seggerman reveals how the visual arts were part of a multifaceted transnational modernism While the work of diverse major Egyptian artists during this era may have appeared to be secular she argues it reflected the subtle but essential inflection of Islam as a faith history and lived experience in the overarching development of Middle Eastern modernity Challenging typical views of modernism in art history as solely Euro American and expanding the conventional periodization of Islamic art history Seggerman theorizes a constellational modernism for the emerging field of global modernism Rather than seeing modernism in a generalized hyperconnected network she finds that art and artists circulated in distinct constellations that encompassed finite local and transnational relations Such constellations which could engage visual systems both along and beyond the Nile from Los Angeles to Delhi were materialized in visual culture that ranged from oil paintings and sculpture to photography and prints Based on extensive research in Egypt Europe and the United States this richly illustrated book poses a compelling argument for the importance of Muslim networks to global modernism **The Oxford Encyclopedia of American Business, Labor, and Economic History** Melvyn Dubofsky, 2013 As the global economic crisis that developed in the year 2008 makes clear it is essential for educated individuals to understand the history that underlies contemporary economic developments This encyclopedia will offer students and scholars access to information about the concepts institutions organizations events and individuals that have shaped the history of economics business and labor from the origins of what later became the United States in an earlier age of globalization and the expansion of capitalism to the present It will include entries that explore the changing character of capitalism from the seventeenth century to the present that cover the evolution of business practices and organizations over the same time period that describe changes in the labor force as legally free workers replaced a labor force dominated by slaves and indentureds that treat the means by which workers sought to better their lives and that deal with government policies and practices that affected economic activities business

developments and the lives of working people Readers will be able to find readily at hand information about key economic concepts and theories major economists diverse sectors of the economy the history of economic and financial crises major business organizations and their founders labor organizations and their leaders and specific government policies and judicial rulings that have shaped US economic and labor history Readers will also be guided to the best and most recent scholarly works related to the subject covered by the entry Because of the broad chronological span covered by the encyclopedia and the breadth of its subjects it should prove useful to history students economics majors school of business entrants as well as to those studying public policy and administration

Mount Fuji H. Byron Earhart, 2015-07-15 Illustrated with color and black and white images of the mountain and its associated religious practices H Byron Earhart s study utilizes his decades of fieldwork including climbing Fuji with three pilgrimage groups and his research into Japanese and Western sources to offer a comprehensive overview of the evolving imagery of Mount Fuji from ancient times to the present day Included in the book is a link to his twenty eight minute streaming video documentary of Fuji pilgrimage and practice Fuji Sacred Mountain of Japan Beginning with early reflections on the beauty and power associated with the mountain in medieval Japanese literature Earhart examines how these qualities fostered spiritual practices such as Shugendo which established rituals and a temple complex at the mountain as a portal to an ascetic otherworld As a focus of worship the mountain became a source of spiritual insight rebirth and prophecy through the practitioners Kakugyo and Jikigyo whose teachings led to social movements such as Fujido the way of Fuji and to a variety of pilgrimage confraternities making images and replicas of the mountain for use in local rituals Earhart shows how the seventeenth century commodification of Mount Fuji inspired powerful interpretive renderings of the peerless mountain of Japan such as those of the nineteenth century print masters Hiroshige and Hokusai which were largely responsible for creating the international reputation of Mount Fuji In the eighteenth and nineteenth centuries images of Fuji served as an expression of a unique and superior Japanese culture With its distinctive shape firmly embedded in Japanese culture but its ethical ritual and spiritual associations made malleable over time Mount Fuji came to symbolize ultranationalistic ambitions in the 1930s and early 1940s peacetime democracy as early as 1946 and a host of artistic naturalistic and commercial causes even the exotic and erotic in the decades since
