*The Invention of Modern Science* Isabelle Stengers, 2000 *The Invention of Modern Science* proposes a fruitful way of

going beyond the apparently irreconcilable positions that science is either objective or socially constructed. Instead, suggests Isabelle Stengers, one of the most important and influential philosophers of science in Europe, we might understand the tension between scientific objectivity and belief as a necessary part of science central to the practices invented and reinvented by scientists.

pub desc *Handbook of the History and Philosophy of Mathematical Practice* Bharath Sriraman, 2024-04-26

The purpose of this unique handbook is to examine the transformation of the philosophy of mathematics from its origins in the history of mathematical practice to the present. It aims to synthesize what is known and what has unfolded so far, as well as to explore directions in which the study of the philosophy of mathematics, as evident in increasingly diverse mathematical practices, is headed. Each section offers insights into the origins, debates, methodologies, and newer perspectives that characterize the discipline today. Contributions are written by scholars from mathematics, history, and philosophy, as well as other disciplines that have contributed to the richness of perspectives abundant in the study of philosophy today. They describe various mathematical practices throughout different time periods and contrast them with the development of philosophy.

1941-2024

This book, with its exciting depth and breadth, illuminates us about the history, practice, and the very language of our subject. About the role of abstraction, of proof, and manners of proof. About the interplay of fundamental intuitions. About algebraic thought in contrast to geometric thought. The richness of mathematics and the philosophy encompassing it is splendidly exhibited over the wide range of time these volumes cover, from deep Platonic and Neoplatonic influences to the most current experimental approaches. Enriched as well with vivid biographies and brilliant personal essays written by and about people who play an important role in our tradition, this extraordinary collection of essays is fittingly dedicated to the memory of Chandler Davis, Reuben Hersch, and Yuri Manin.

Barry Mazur, Gerhard Gade, University Professor, Harvard University. This encyclopedic Handbook will be a treat for all those interested in the history and philosophy of mathematics. Whether one is interested in individuals from Pythagoras through Newton and Leibniz to Grothendieck, fields, geometry, algebra, number theory, logic, probability, analysis, viewpoints from Platonism to Intuitionism, or methods, proof, experiment, computer assistance, the reader will find a multitude of chapters that inform and fascinate.

John Stillwell, Emeritus Professor of Mathematics, University of San Francisco. Recipient of the 2005 Chauvenet Prize. Dedicating a volume to the memory of three mathematicians: Chandler Davis, Reuben Hersch, and Yuri Manin.

who went out of their way to show to a broader audience that mathematics is more than what they might think is an excellent initiative Gathering authors coming from many different backgrounds but who are very strict about the essays they write was successfully achieved by the editor in chief The result a great source of potential inspiration Jean Pierre Bourguignon Nicolaas Kuiper Honorary Professor at the Institut des Hautes études Scientifiques An Agenda for Action John G. Bruhn, Howard M. Rebach, 2013-04-17 A companion to the authors Handbook of Clinical Sociology Plenum Press 1991 this pioneering text provides an introduction to this new field covering its development methods and tools and illustrates the applications of sociological concepts to current social problems Drs Bruhn and Rebach present numerous examples to enable practitioners to apply their problem solving skills Key discussions address the values held by clients and practitioners and issues relating to sociological assessment and evaluation This indispensable resource is enhanced by case illustrations annotated bibliographies and a glossary of terms

**Bourdieu and Education** Diane Reay, 2020-04-28 Specially selected by Diane Reay this is a collection of innovative and thought provoking recently published papers that use Bourdieu to put theory into practice in order to understand and analyse educational problems Bourdieu's work is renowned for its focus on inequalities and its centering of social justice The contributions utilise a wide range of diverse concepts in Bourdieu's theoretical tool kit and address educational inequalities across different aspects of the educational system from higher education and parental choice of schooling to teachers professional development and the PE classroom Illuminating key aspects of Bourdieu's scholarship they reveal how good Bourdieu is for thinking with illustrate the merits of reflexivity the move beyond binary ways of reading the social world and demonstrate the significance of power in any analysis of education The chapters in this book were all originally published as articles in Taylor and Francis journals

**Microsociology** Kai-Olaf Maiwald, Inken Suerig, 2019-09-05 This book offers an unprecedented integrative account of the shape of social order on the microsocial level Dealing with the basic dimensions of interaction the authors examine the major factors which influence structure in social interaction by applying various theoretical concepts Although the concept of microsociology is usually associated with symbolic interactionism social psychology the works of George Herbert Mead and Erving Goffman and with qualitative methodologies this book reaches beyond interactionist theories claiming that no single school of thought covers the different dimensions necessary for understanding the basics of microsociology As such the book provides something of a microsociologist's tool kit analyzing an array of theoretical approaches which offer the best conceptual solutions and interpreting them in a way that is independent of their specific theoretical language Such theoretical traditions include systems theory conversation analysis structuralism the theory of knowledge and the philosophy of language Providing a distinct systematic and incremental approach to the subject this book fills an important gap in sociological literature Written in an accessible style and offering new insights into the area of microsociology it will appeal to students and scholars of the social sciences and to those with interests in sociology microsociology interactionism and sociological theory

**Sense Of: Health, Illness and Disease** ,2021-10-25 Health illness and disease are topics well suited to interdisciplinary inquiry This book brings together scholars from around the world who share an interest in and a commitment to bridging the traditional boundaries of inquiry We hope that this book begins new conversations that will situate health in broader socio cultural contexts and establish connections between health illness and disease and other socio political issues This book is the outcome of the first global conference on Making Sense of Health Illness and Disease held at St Catherine s College Oxford in June 2002 The selected papers pursue a range of topics from the cultural significance of narratives of health illness and disease to healing practices in contemporary society as well as patients illness experiences Researchers and health care practitioners now live in the age of interdisciplinarity which has transformed both health care delivery and research on health The essays in this collection transcend the traditional boundaries of biomedicine and draw attention to the many ways in which health is embedded in socio cultural norms and how these norms in turn shape health practices and health care This volume is of interest not only to researchers but also to those delivering health care Making a Difference College and Graduate Guide Miriam Weinstein,2000 Finally Prestigious scholarships and fellowships for doing good This is the make a difference generation and all over America high school and college students are rolling up their sleeves and devoting their time and energy to causes they believe in And like most students they could use some extra money when heading to college so why not take advantage of the many scholarships available for doing community service Making a Difference Scholarships is a unique guide written especially for caring students The guide lists distinguished scholarships awarded for social service social entrepreneur funds for young people who start their own non profits college based service scholarships and fellowships for studies such as labor peace and the environment While most scholarship guides are filled with obscure small scholarships that very few students are eligible for anyone doing community service anywhere in the U S can try for most making a difference scholarships Many of these scholarships are exceptionally large in the 5 000 to 10 000 range And winners of these awards substantially increase their chances of being admitted to the college of their choice Today s students really deserve honors for their acts of community building and environmental stewardship A wonderful gift for students who care and a great companion guide to Making a Difference College and Graduate Guide Miriam Weinstein has been active in environmental and social causes since her teens She has been publishing the Making a Difference College Guide since 1992 Weinstein is a graduate of the New College of California and lives in San Anselmo California Exploring classroom assessment practices and teacher decision-making Dennis Alonzo,Chris Davison,Chris Ann Harrison,2023-05-25

*Discourse : Event : Practice* Franka Schäfer,2025-10-14 With Discourse Event Practice the author presents a dynamic theoretical program for a discourse theoretically informed sociology of practice oriented toward the concept of the event She outlines the sociological relationship between the concepts of discourse event and practice diagnoses their distorted relationship and explains the dynamization of dichotomous conceptions as the guiding principle of her argumentation

Through a reconstruction of the discourse theoretical foundations the practical theoretical conditions the situation of the method discussion and the starting point of sociological protest research she forms the basis of the research program and marks the question of the association of discourses and practices as a gap which is elucidated using the example of protest research The core of the book is a nuanced examination of the concept of event developed from the influence of Foucault as a primary basis for transformation and translated into a concept of event that ensures a relationship between discourse and practice that overcomes dichotomies within a post structuralist materialism In addition the potential of the program lies in the expansion of practice studies to include an explicit perspective on power and domination illustrated through an analysis of the practices of resistance as exemplified by the Yippie Festival of Life

### **Reconsidering Social Constructionism** Gale Miller,2017-09-29

With the impact of social interactionist and ethnographic methodology twenty five years ago the research agenda in social problems began to shift its focus giving rise to the Social Constructionism movement The present volume and the related shorter text Constructionist Controversies review the substantial contributions made by social constructionist theorists over that period as well as recent debates about the future of the perspective These contributions redefine the purpose and central questions of social problems theory and articulate a research program for analyzing social problems as social constructions A generation of theorists has been trained in the constructionist perspective and has extended it through numerous analyses of diverse aspects of contemporary social life The debates in this volume pose fundamental questions about the major assumptions of the perspective the ways in which it is practiced and the purposes of social problems theory Their point of departure is Ibarra and Kitsuse s essay cutting new theoretical ground in calling for investigating vernacular resources especially rhetorical forms in the social problems process Contributors are forceful proponents both within and outside of the social constructionist community who take a broad array of positions on the current state of social problems theory and on the rhetorical forms that need exploring They also lay down the general lines for diverse and often competing programs for the future development of the constructionist agenda

### **Theism and Atheism in a Post-Secular Age**

Morteza Hashemi,2017-07-05 This book examines the post secular idea of religion for non believers The new form of unbelief which is dubbed as tourist atheism is not based on absolute rejection of religion as a dangerous illusion or mere prejudice

Tourist atheists instead consider religion as a cultural heritage and a way of seeking perfection What are the origins of these new forms of atheism What are the implications of the emergence of a type of atheism which is more open toward religious teachings rituals arts and world views Hashemi argues that public intellectuals must consider that it is a sign of a post secular age in which believers and non believers go beyond mere tolerance and engage in a creative process of co practice and co working
