Making Of Brazil Portuguese Roots 1500 1:

Emigration and the Sea Malyn Newitt, 2015-01-07 Today Portuguese is the seventh most widely spoken language in the world and Brazil is a new economic powerhouse Both phenomena result from the Portuguese Discoveries of the 15th and 16th centuries and the Catholic missions that planted Portuguese communities in every continent Some were part of the Portuguese empire but many survived independently under other rulers with their own Creole languages and indigenized Portuguese culture In the 19th and 20th centuries these were joined by millions of economic migrants who established Portuguese settlements in Europe North America Venezuela and South Africa and in less likely places including Bermuda Guyana and Hawaii Interwoven within this global history of the diaspora are stories of the Portuguese who left mainland Portugal and the islands the lives of the Sephardic Jews the African slaves imported into the Atlantic Islands and Brazil and the Goans who later spread along the imperial highways of Portugal and Britain Much of Portugal's contribution to science and the arts as well as its influence in the modern world can be attributed to the members of these widely scattered Portuguese communities and these are given their due in Newitt's engrossing volume **The Making of Brazil** Norman Pemberton Macdonald, 1996 [The Evolution of the Portuguese Atlantic: Essays in Honour of Ursula Lamb](#) Timothy J. Coates, 2009-09-30 This special issue volume of the Portuguese Studies Review in honor of Ursula Lamb 1914 1996 presents studies by Timothy Coates A J R Russell Wood Ivana Elbl Alberto Vieira Martin Malcolm Elbl Gerardo A Lorenzino C sar Braga Pinto Geraldo Pieroni Jana na Amado Mark Cooper Emerson Ernst Pijning and Kirsten Shultz The studies explore the themes of settlement colonization ethnogenesis banishment and exile the intellectual and political construction of colonial identities cross cultural urbanism and regulation of commerce The volume also includes a bibliography of Ursula Lamb's works *The Struggle for the South Atlantic: The Armada of the Strait, 1581-84* Carla Rahn Phillips, 2017-07-14 This book contains the annotated translation of an account of Spain's Armada of the Strait which traveled to Brazil and the Strait of Magellan under Don Diego Flores de Vald's in 1581-84 Pedro de Rada the official scribe of the armada kept a detailed neutral chronicle of the venture which remained in private hands until 1999 but is now held in the Henry E Huntington Library in San Marino California It is published here for the first time The voyage came at a crucial juncture in global politics when Philip II of Spain had claimed the throne of Portugal and its empire and Francis Drake's daring peacetime raids had challenged the dominance of Spain and Portugal in the Americas [Portuguese Jews and New Christians in Colonial Brazil, 1500-1822](#) Alan P. Marcus, 2024-11-15 The diaspora of Portuguese Jews and New Christians known as Gente da Na o People of the Nation is considered the largest European diaspora of the early modern period Portuguese Jews not only founded the first congregations and synagogues in Brazil Recife and Olinda but when they left Brazil they played an imperative role in establishing the first Jewish communities in Suriname throughout the Caribbean and in North America Portuguese Jews and New Christians and their descendants were deeply involved in the colonial enterprise in Brazil They were among the New

China Goes to Sea Andrew S. Erickson, Lyle J Goldstein, Carnes Lord, 2009-07-01 In modern history China has been primarily a land power dominating smaller states along its massive continental flanks But China's turn toward the sea is now very much a reality as evident in its stunning rise in global shipbuilding markets its vast and expanding merchant marine the wide offshore reach of its energy and minerals exploration companies its growing fishing fleet and indeed its increasingly modern navy Yet for all these achievements there is still profound skepticism regarding China's potential as a genuine maritime power Beijing must still import the most vital subcomponents for its shipyards maritime governance remains severely bureaucratically challenged and the navy evinces at least as of yet little enthusiasm for significant blue water power projection capabilities This volume provides a truly comprehensive assessment of prospects for China's maritime development by situating these important geostrategic phenomena within a larger world historical context China is hardly the only land power in history to attempt transformation by fostering sea power Many continental powers have elected or been impelled to transform themselves into significant maritime powers in order to safeguard their strategic position or advance their interests We examine cases of attempted transformation from the Persian Empire to the Soviet Union and determine the reasons for their success or failure Too many works on China view the nation in isolation Of course China's history and culture are to some extent exceptional but building intellectual fences actually hinders the effort to understand China's current development trajectory Without underestimating the enduring pull of China's past as it relates to threats to the country's internal stability and its landward borders this comparative study provides reason to believe that China has turned the corner on a genuine maritime transformation If that proves indeed to be the case it would be a remarkable if not singular event in the history of the last two millennia
