Remapping Gender, Place and Mobility Stine Thidemann Faber, Helene Pristed Nielsen, 2016-03-03 Enhancing our understanding of how people and places are affected by globalization at the level of everyday interactions within Nordic Peripheries this book sheds light on local particularities as well as global confluences by illuminating how gender mobility and belonging contribute to ruptures and or stability in the lives of men and women living in and or moving within these northern localities Crossing disciplinary and geographical boundaries the focus of the book is specifically on how global processes shape and influence the Nordic countries at the social level Denmark Norway Sweden Iceland Finland as well as the Faroe Islands The book starts from the premise that the Nordic peripheries offer an especially powerful lens on peripherality in a globalized and globalizing world because the region as a whole is traditionally perceived as relatively affluent stable and with high levels of social equality Yet as the different

chapters in the book demonstrate with case studies that illuminate diverse gendered processes globalization produces ruptures and new social constellations also at the rims of Nordic societies well beyond the cushioning of comprehensive social welfare regimes By elevating the empirical findings to more general debates about the gendered effects of globalization the book invites the reader to reflect upon not only Nordic particularities but also how insights from this part of the world can be instructive for understanding the nuances and complexities of global confluences at large **Mapping**

Embattled Visions Jan Eckel, Daniel Stahl, 2022-05-02 Die komplexen Wandlungen der Menschenrechte in der jüngsten Zeitgeschichte Nach 1990 gewannen Menschenrechte national wie international ein wohl vorher nie erreichtes Gewicht Immer mehr Akteure begriffen gesellschaftliche Probleme als Menschenrechtsfragen Der Universalanspruch erfuhr weltweite Zustimmung und beförderte eine Vielzahl neuer interventionistischer Praktiken über nationalstaatliche Grenzen hinweg Nicht zuletzt machten zahlreiche wissenschaftliche Disziplinen Menschenrechte in einer vielschichtigen Wechselwirkung mit den gleichzeitigen politischen Veränderungen zum Gegenstand der Forschung Die Phase zukunftsgehem Aufbruch endete jedoch bereits vor der Jahrhundertwende Zugleich sah sich die Idee universal gültiger Rechte heftigen Anfechtungen und Gegenentwürfen ausgesetzt Dieser Band will eine neue empirische Grundlage für das Nachdenken über die jüngste Menschenrechtsgeschichte legen indem zentrale Entwicklungen der letzten drei Jahrzehnte beleuchtet werden Dabei bewegen sich die Beiträge über dichotomische Deutungsangebote von einerseits Triumph und Erfolg andererseits Scheitern und Niedergang hinaus und schärfen den Blick für komplexe Wandlungsprozesse und gegenläufige Entwicklungen Der Band erscheint vollständig in englischer Sprache ____ The complex trajectory of human rights in the history of the past three decades The 1990s saw an extraordinary surge in the significance that various actors attributed to the concept of human rights A growing number of activists and politicians began framing their concerns as human rights

issues The universal claim of human rights received unprecedented support and spurred new interventionist practices across national borders Numerous academic disciplines made human rights a subject of research both reflecting on and influencing the emerging human rights policies Yet the moment of enthusiastic new departures waned even before the advent of the new century At the same time and often as a direct consequence of its new prominence critics opposed the idea of universal rights with an unprecedented fierceness This volume breaks new ground in examining important developments that have unfolded in human rights history over the past thirty years In situating these events the volume looks beyond dichotomous interpretations of either triumph and success or failure and decline sharpening our view of complexities and contradictions The volume is published entirely in English *Nationalism and Human Rights* G. Cheng, 2012-02-14 By critically addressing the tension between nationalism and human rights that is presumed in much of the existing literature the essays in this volume confront the question of how we should construe human rights as a normative challenge to the excesses of modernity particularly those associated with the modern nation state or as an adjunct of globalization with its attendant goal of constructing a universal civilization based on neoliberal economic principles and individual liberty **Dog Days** Ivan Franceschini, Nicholas Loubere, 2019-04-05 According to the Chinese zodiac 2018 was the year of the earthly dog In the middle of the long hot and feverish dog days of the summer of 2018 some workers at Shenzhen Jasic Technology took their chances and attempted to form an independent union While this action was met by the harshest repression it also led to extraordinary demonstrations of solidarity from small groups of radical students from all over the country which in turn were immediately and severely suppressed China's year of the dog was also imbued with the spirit of another canine Cerberus the three headed hound of Hades with the ravenous advance of the surveillance state and the increasing securitisation of Chinese society starting from the northwestern region of Xinjiang This Yearbook traces these latest developments in Chinese society through a collection of 50 original essays on labour civil society and human rights in China and beyond penned by leading scholars and practitioners from around the world **Civility in Politics and Education** Deborah Mower, Wade L. Robison, 2013-03-01 This book examines the concept of civility and the conditions of civil disagreement in politics and education Although many assume that civility is merely polite behavior it functions to aid rational discourse Building on this basic assumption the book offers multiple accounts of civility and its contribution to citizenship deliberative democracy and education from Eastern and Western as well as classic and modern perspectives Given that civility is essential to all aspects of public life it is important to address how civility may be taught While much of the book is theoretical contributors also apply theory to practice offering concrete methods for teaching civility at the high school and collegiate levels *Human Rights in China* Eva Pils, 2017-11-10 How can we make sense of human rights in China's authoritarian Party State system Eva Pils offers a nuanced account of this contentious area examining human rights as a set of social practices Drawing on a wide range of resources including years of interaction with Chinese human rights defenders Pils discusses what gives rise to

systematic human rights violations what institutional avenues of protection are available and how social practices of human rights defence have evolved Three central areas are addressed liberty and integrity of the person freedom of thought and expression and inequality and socio economic rights Pils argues that the Party State system is inherently opposed to human rights principles in all these areas and that contributing to a global trend it is becoming more repressive Yet despite authoritarianism s lengthening shadows China s human rights movement has so far proved resourceful and resilient The trajectories discussed here will continue to shape the struggle for human rights in China and beyond its borders

Handbook on Human Rights in China Sarah Biddulph, Joshua Rosenzweig, 2019 This Handbook gives a wide ranging account of the theory and practice of human rights in China viewed against international standards and China s international engagements around human rights The Handbook is organised into the following sections contested meanings international dimensions economic and social rights civil and political rights rights in action and access to justice political dimensions of human rights in Greater China and new frontiers

Suzhou in Transition Beibei Tang, Paul Cheung, 2020-11-11 Through the lens of the city of Suzhou this edited volume presents views on the complex interaction between the central state market agents local governments and individuals who have shaped the development of Chinese cities and urban life Featuring a range of disciplinary perspectives contributors to this volume have all undertaken research in one municipality Suzhou to consider how history and culture have evolved during the modernisation of Chinese cities and the transformation of urban space as well as shifting rural urban relations and urban life during the reform era The volume is underscored by a complex dynamic system consisting of three interlocked mechanisms through which the central and local state interact history and culture social and economic life and administration and governance As such chapters analyse responses both from the state and society as driving forces of local development with an interplay between tradition and heritage on the one hand and China s economic and social development on the other Suzhou in Transition will appeal to students and scholars of Chinese and urban studies as well as urban sociology and geography

The ^A Human Rights Revolution Akira Iriye, Petra Goedde, William I. Hitchcock, 2012-01-05 This volume explores the place of human rights in history providing an alternative framework for understanding the political and legal dilemmas that these conflicts presented with case studies focusing on the 1940s through the present

The Heritage Turn in China Carol Ludwig, Linda Walton, Yi-Wen Wang, 2025-10-01 The Heritage Turn in China The Reinvention Dissemination and Consumption of Heritage focuses on heritage discourse and practice in China today as it has evolved from the heritage turn that can be dated to the 1990s Using a variety of disciplinary approaches to regionally and topically diverse case studies the contributors to this edited volume show how particular versions of the past are selected re invented disseminated and consumed for contemporary purposes These studies explore how the Chinese state utilises heritage not only for tourism entertainment educational and commercial purposes but also as part of broader political strategies on both the national and international stage Together they argue that the Chinese state

deploys modes of heritage governance to construct new modernities while strengthening collective national identity in support of both its political legitimacy and its claim to status as an international superpower The authors also consider ways in which state management of heritage is contested by some stakeholders whose embrace of heritage has a different purpose and meaning
