Nationalism Croatianism And Yugoslavism Radic:

Nationalism and Yugoslavia Pieter Troch, 2015-08-18 Created after World War I Yugoslavia was a combination of ethnically religiously and linguistically diverse but connected South Slav peoples Slovenes Croats and Serbs but also Bosnian Muslims Macedonians and Montenegrins in addition to non Slav minorities The Great Powers and the country's intellectual and political elites believed that a coherent identity could be formed in which the different South Slav groups in the state could identify with a single Balkan Yugoslav identity Pieter Troch draws on previously unpublished sources from the domain of education to show how the state's nationalities policy initially allowed for a flexible and inclusive Yugoslav nationhood and how that system was slowly replaced with a more domineering and rigid top down nationalism during the dictatorship of King Alexander I who banned political parties and coded a strongly politicised Yugoslav national identity As Yugoslav society became increasingly split between the pro Yugoslav central regime and anti Yugoslav opposition the seeds were sown for the failure of the Yugoslav idea Nationalism and Yugoslavia provides a valuable new insight into the complexities of pre war Yugoslavia

Nationalism, Myth, and the State in Russia and Serbia Veljko Vujačić, 2015-03-26 This book examines the role of Russian and Serbian nationalism in different modes of dissolution of the Soviet Union and Yugoslavia in 1991 Why did Russia's elites agree to the dissolution of the Soviet Union along the borders of Soviet republics leaving twenty five million Russians outside of Russia Conversely why did Serbia's elite succeed in mobilizing Serbs in Croatia and Bosnia for the nationalist cause Combining a Weberian emphasis on interpretive understanding and counterfactual analysis with theories of nationalism Veljko Vujačić highlights the role of historical legacies national myths collective memories and literary narratives in shaping diametrically opposed attitudes toward the state in Russia and Serbia The emphasis on the unintended consequences of communist nationality policy highlights how these attitudes interacted with institutional factors favoring different outcomes in 1991 The book's postscript examines how this explanation holds up in the light of Russia's annexation of Crimea

The Formation of Croatian National Identity Alex J. Bellamy, 2003 This book assesses the formation of Croatian national identity in the 1990s It develops a novel framework calling into question both primordial and modernist approaches to nationalism and national identity before applying that framework to Croatia In doing so the book provides a new way of thinking about how national identity is formed and why it is so important An explanation is given of how Croatian national identity was formed in the abstract via a historical narrative that traces centuries of yearning for a national state The book shows how the government opposition parties dissident intellectuals and diaspora groups offered alternative accounts of this narrative in order to legitimise contemporary political programmes based on different versions of national identity It then looks at how these debates were manifested in social activities as diverse as football religion economics and language This book attempts to make an important contribution to both the way we study nationalism and national identity and our understanding of post Yugoslav politics and society An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

The Racial Idea in the Independent State of Croatia Nevenko Bartulin, 2013-11-14 This book traces the intellectual origins of race theory in the pro Nazi Ustasha Independent State of Croatia 1941-1945 This race theory was not as historians of the Ustasha state have hitherto argued a product of a practical accommodation to the dominant Nazi racial ideology Contrary to the general historiographical view which has either downplayed or ignored the important place of race not only in Ustasha ideology and politics but more generally in modern Croatian and Yugoslav nationalism this work stresses the significant role that theories of ethnolinguistic origin and racial anthropology played in defining Croat nationhood from the mid nineteenth to the mid twentieth century Upon the basis of older ideological and cultural traditions the Ustasha state constructed an ideal Aryan racial type

Entangled Histories of the Balkans - Volume Two Roumen Daskalov, Diana Mishkova, 2013-11-14 Modern Balkan history has traditionally been studied by national historians in terms of separate national histories taking place within bounded state territories The authors in this volume take a different approach They all seek to treat the modern history of the region from a transnational and relational perspective in terms of shared and connected as well as entangled histories transfers and crossings This goes along with an interest in the way ideas institutions and techniques were selected transferred and adapted to Balkan conditions and how they interacted with those conditions resulting in migrations and hybridization The volume also invites reflection on the interacting entities in the very process of their creation and consecutive transformations rather than taking them as givens Contributors include Diana Mishkova Alexander Vezhenkov Constantin Iordachi Roumen Daskalov Tchavdar Marinov Blagovest Njagulov

The Croatian National Movement 1966-1972 Ante Čuvalo, 1990

Contested Nationalism Nina Caspersen, 2010-01-01 Only unity saves the Serbs is the famous call for unity in the Serb nationalist doctrine But even though this doctrine was ideologically adhered to by most of the Serb leaders in Croatia and Bosnia disunity characterized Serb politics during the Yugoslav disintegration and war Nationalism was contested and nationalist claims to homogeneity did not reflect the reality of Serb politics This book provides a comprehensive analysis of Serb politics and challenges widespread assumptions regarding the Yugoslav conflict and war It finds that although Slobodan Milosevic played a highly significant role he was not always able to control the local Serb leaders Moreover it adds to the emerging evidence of the lack of importance of popular attitudes hardline dominance was generally based on the control of economic and coercive resources rather than on elites successfully playing the ethnic card It moves beyond an assumption of automatic ethnic outbidding and thus contributes toward a better understanding of intra ethnic rivalry in other cases such as Israel Palestine Northern Ireland Nagorno Karabakh and Rwanda

Breaking the South Slav Dream Kate Hudson, 2003-06-20 This is a revisionist history of the rise and fall of Yugoslavia Assessing the geopolitical and strategic reasons for its creation and dismemberment it is an important corrective to much contemporary theorising about the destruction of the Yugoslav state Kate Hudson draws attention to the role of foreign states whose involvement in Yugoslavia did much to destabilise the region and explains how and why this happened Tracing the state s origins from 1918 through war and the Tito years she explains the distortion of the socialist economy resulting from Yugoslavia s unusual position between the two Cold War blocs and the economic collapse of the 1980s as part of the US drive for a free market She also investigates the true causes and effects of the recent wars in Croatia Bosnia and Kosovo and brings the book up to date with an analysis of Milosevic s downfall and events in Macedonia and Montenegro

Religion and Politics in Interwar Yugoslavia Maria Falina, 2023-01-26 Religion and Politics in Interwar Yugoslavia explores the interaction between religion nationalism and political modernity in the first half of the 20th century taking the case of the Serbian Orthodox Church as an example This book historicizes the widely held assumption that the bond between religion and nationalism in the Balkans is a natural one or that this bond has been historically inevitable It tells a complex story of how East Orthodox Christianity came to be at the core of one version of Serbian nationalism by bringing together the themes of religion nationalism politics state building secularization and modernity Maria Falina reconstructs how the ideological fusion between Serbian nationalism and East Orthodox Christianity was forged The analysis emphasizes ideas and ideologies through a close reading of public discourses and historical narratives while paying attention to individual actors and their personal histories The book argues that the particular political vision of the Serbian Orthodox Church emerged in reaction to and in interaction with the challenges posed by political modernity that were not unique to Yugoslavia These included establishing the modern multinational and multi religious state the fear of secularization and the rise of communism and fascism Religion and Politics in Interwar Yugoslavia makes an important contribution to understanding the history of interwar Yugoslavia 20th century Europe and the ties between religion and nationalism

Bartulin, 2013-07-04 From 1941 to 1945 a small number of Jews were given the rights of Aryan citizens in Croatia by the pro Nazi Ustasha regime This study seeks to explain why these exemptions from Ustasha racial laws came to be how they were justified by the race theory of the time and how the Croats of the Mosaic faith were eventually rejected as racial aliens

The Rise and Fall of Communist Yugoslavism Tomaž Ivešić, 2024-03-05 The Rise and Fall of Communist Yugoslavism Soft Nation Building in Yugoslavia examines how the Communist Party of Yugoslavia incorporated the idea of a Yugoslav nation into its ideology and created the Yugoslav Soft

Nation Building project after the Second World War With an innovative approach of researching three levels of research from above from below and from the viewpoint of interethnic relations the book brings forward an original concept of soft nation building with a focus on the Slovenian Yugoslav dimension Drawing on archival sources from Ljubljana Zagreb Sarajevo and Belgrade the author argues that after the abandonment of the Yugoslav national idea two Yugoslavisms were created in the mid 1960s State based socialist Yugoslavism was propagated by the Party and had no ethnic connotations only a small proportion of the population identified themselves as Yugoslav in national terms The created vacuum was filled by old national identities The book is of interest to specialists and advanced students of cultural and intellectual history studies of nationalism but also history of science and institutions and the history of everyday life The book aims to appeal to scholars of Balkan South East European and Yugoslav history
