twentieth century It aims to look at how publishing companies and their owners and staffs were organised and how their
output responded to the wider social economic and cultural trends of the period It concentrates on the key figures like
William Heinemann Allen Lane Paul Hamlyn and Robert Maxwell but also looks at less well known but often very significant
figures whose contributions were also vital The study reveals a fascinating and dynamic industry that was influential not only
for literary history but also for the history of education and general cultural history at home and abroad Its spread is broad
and it considers not only fiction and trade publishing but also scholarly academic scientific children s technical medical and
professional publishing It reveals a fascinating tale of creative genius individual endeavour personal idiosyncrasy occasional
duplicity and bad behaviour and far sighted vision that over the century made British book publishing the best in the world
and still underlies its role today BLACKWELL S *Children's Software Revue*, 1993 *The School Librarian*, 2001 **The**
