COMPASSION, CARE AND COURAGE A Nurse's Journey RGN. KHALID SAEED ALI ALQAHTANI, LPN. SAAD AYED AWDHAH, RGN. ABDULRAHEM SALMAN HAMDAN ALMALKI, Nursing is not just a profession its a calling and that calling is made of threads of compassion care and courage Compassion Care and Courage A Nurse s Journey is a document of individual experience and a testament from the rest of us to those who roam hospital and home hallways professing our profession with confident hands tender hearts and unwavering nerves From the prenatal beginning sparks of excitement in childhood to silent will ushering genius called for in the most critical moments the nursing career is paved in profound experience some bright and shining others painful but all fundamentally human We encounter others at some of the most vulnerable points in their lives as nurses We

hear their fears their hopes and sometimes their last words This privilege is sacred Within these pages are tales woven from sweat and sacrifice chapters buoyed by clinical expertise and moments developed out of compassion and perseverance In this episode we look at the history of the profession from the wards lit by the lantern of Florence Nightingale to the telehealth platforms of the 21st century We salute nursing educators researchers frontline responders and the many who are characteristically practicing change agents in boardrooms and policy circles The many chapters in here contribute to different aspects of nursing life be it the ethical dilemmas burnout leading through a crisis or in finding joy through patients and reflection What I d really like to accomplish is not just documenting the journey of one nurse but a message that all nurses out there for what we are and why it goes beyond you or me I invite the different readers nurses students patients and those who just have to be curious to walk this pathway with me I hope you walk away with a greater respect for the quiet strength of nurses the emotional labor that they carry and the bravery of caring deeply in a world that often hurries Let this book be a mirror and a map a mirror for reflection on where we have been and a map for where the heart of nursing needs to go

Person-centred Primary Care Christopher Dowrick,2017-11-27 Primary care grounded in the provision of continuous comprehensive person centred care is of paramount importance in the delivery of accessible and effective health care around the world The central notion of person centred care however relies on often unexamined concepts of self or understandings of what it means to be a person and an agent This cutting edge book explores contemporary pressures on the sense of self for both patient and health professional within a consultation and argues that building new concepts of the self is essential if we are to reinvigorate the central tenets of person centred primary care Contemporary trends such as shared decision making between health professionals and patients and promoting self management assume those involved are able to make their own decisions and take action In practice however medicine often opts for reductionist perspectives of patients as passive mechanical systems and diseases as puzzles At the same time huge political and organisational changes mean time and resources are scarce putting further pressure on consultations This book discusses how we can start to resolve these tensions The first part considers problems posed by the increasing bureaucratisation of primary care the impact of information technology in the consultation the effects of chronic disease on our sense of self and how an emphasis on biology over biography leads to over diagnosis The second part proposes solutions based on a strong ontology of consciousness concepts of creative capacity coherence and engagement and will show how these can enhance the self esteem of patients and doctors and benefit their therapeutic dialogue Combining theoretical perspectives from philosophy sociology and healthcare research with insights drawn from clinical practice this edited volume is suitable for those researching and studying primary healthcare communication and relationships in healthcare and the medical humanities
