Nursing Homes The Family's Journey:

Nursing Homes Peter S. Silin, 2001-05-29 Being the family member of someone in a nursing home is part of a difficult and painful process that begins long before a loved one enters the home. Focusing on the psychological, emotional, and social aspects of that process, *Nursing Homes: The Family's Journey* gives family members important practical advice and emotional support and it explains the intricacies of care and nursing homes. Peter S. Silin approaches his subject with compassion and sensitivity, guiding readers through the entire process. Section one helps caregivers cope with difficult decisions and deal with the emotional issues that arise. Section two describes nursing homes and how they work and it outlines how to choose a home. Section three explains how to prepare for the day a relative moves into a nursing home and suggests ways to help the resident settle in. The fourth section focuses on the family member's role in solving problems, obtaining quality care, and visiting, and it offers advice about how to deal with death and dying. After each chapter are real-life vignettes written by caregivers which help validate and support the reader. In assisting their loved ones through the transition to life in a nursing home, one of the greatest obstacles families face is a dearth of practical information and sympathetic experience. This book will help fill the gap for family members and their infirm relatives as well as for social workers and family therapists. It will also be a valuable tool for nursing home administrators and care staff.

Improvements in health care in the 21st century mean people are living longer but with the paradox that chronic illness is increasingly prevalent Dementia a term used to describe various different brain disorders that involve a loss of brain function that is usually progressive and eventually severe is a condition associated with an ageing population and is becoming increasingly common Worldwide there are approximately 25 million people with dementia expected to rise to 63 million by 2030 and 114 million by 2050 Inevitably people living with dementia will die but their needs at the end of life are not well known This book describes what might be achieved if the values and best practice of both dementia care and palliative care are brought together to achieve quality end of life care for this specific group of patients It explores what is known about the experience of dying with dementia using a narrative approach and develops a model that draws together a person centred approach to care The book examines the possibilities and the challenges faced when trying to improve quality of life for people with dementia and presents examples of good practice from across the world **The Journey's End** Michael D

Connelly,2023-04-04 In the tradition of Atul Gawande s *Being Mortal* this compassionate work helps individuals develop a more accepting view of dying while teaching them what to expect and how to navigate the healthcare system at the end of life In elderhood the health care system has a narrow view of how to provide care It focuses on extending a patient s life at all costs with an over reliance on machines and procedures instead of caring holistically for the person Accordingly many of us will likely spend our final weeks in long term care facilities or an ICU Dying at home peacefully and surrounded by family is almost impossible in our world and our fear of death is a major contributor to this impossibility Fittingly the central idea of this book is that in old age or when facing a terminal diagnosis it is more important to understand your life rather than to extend it While this may seem simple its implications are profound A natural death means accepting that at some point we are old enough or sick enough to die In our cynical and overly clinical age it is difficult to reflect on the meaning of one s life

but that kind of honest introspection is exactly what we need Accordingly The Journey s End seeks to help people manage their healthcare their expectations and their decisions in the final phase of life Remembrances of Our Family's Extraordinary Journeys Maria E. Faith,2021-08-11 This is an autobiographical account of my childhood journeys with my parents 4 older sisters and 2 older brothers My parents immigrated to America in the first quarter of the 1900s with their families they met and were married in Arizona and 3 sisters and 1 brother were born there and I and 1 brother and 1 sister were born in California A large part of the book deals with the struggles of looking for work in various regions in these two states and the resulting uprooting of family to go and temporarily live where work was found There were many sacrifices made to keep family together The other part of the book reveals the personal struggles I had because of moving to Maneadero BC Mexico in 1958 with my mother and attending the local Village School Struggles Yes but soon overcome by the loving friendships developed with the Villagers Shopkeepers Teachers and Students Fun was had but there were a few God sent events that became life changing experiences for me **Journeys** Tito Alquizola,2011-12-08 Sometimes it only takes the actions of a few to make a positive impact on many For Filipino native Tito Alquizola and his friends it began in 1989 with a desire to pray with each other What started as a small group of Filipino emigrants and friends meeting in a humble home soon turned into something much bigger than anyone could have imagined Journeys tells the story of how a small prayer group became a large Catholic devotional organization for the Santo Nio Child Jesus a countrywide devotion in the Philippines Alquizola shares the history of the statue of the Santo Nio which started in the late sixteenth century in the Philippines This image has become a sense of home for Filipinos around the world In addition Alquiziola shares the personal stories of emigrants who in their search for home not only founded an organization but also created a devotional family Their dedication led to the opening of the Santo Nio Shrine at St Paul Church in Tampa Florida and created peace and hope for many An inspiring tale of faith and commitment Journeys seeks to speak to your heart **Ethics, Law, and Aging Review, Volume 9** Marshall B. Kapp, JD, MPH, FCLM,2003-08-15 This volume explores the concept of safety as applied in the long term care context Chapters examine the way in which the quest for safety may work either synergistically or adversely upon other worthy social goals Among the initiatives considered are promoting the decision making autonomy of patients clients and their surrogates enhancing the quality of care and quality of life available to long term care residents and providing fair compensation for injured victims when serious harm occurs Questions addressed that are of concern to legal and ethical theorists social science researchers and patient client advocates include To what extent do litigation and or regulation accomplish the safety and other legitimate objectives of public policy in the long term care arena Do the costs of various approaches outweigh the benefits in promoting safety and other goals How do litigation and regulation compare with alternative approaches to achieving the same goals in terms of an acceptable cost benefit balance *Journey'S End* Victoria Brewster,Julie Saeger Nierenberg,2017-07-20 In Journey s End many and varied collaborators write about death dying and

the end of life We attempt to describe real life issues and circumstances and we discuss ways to proactively deal with them Useful training resource and reference material is also included Death dying and end of life are topics many prefer to avoid This book suggests that we benefit from having frank discussions living life to the fullest and planning for our own journey s end whenever that may be Everyone who is born eventually will die whether or not we want to embrace that fact Though few of us know when we will die we and our family or friends can be well prepared We can have discussions and create written directives for what we want if we are unable to verbally state them ourselves Do we want life support Do we want interventions that may or may not have any benefit to our quality of life if we are in the hospital or in an accident Do we want to be involved in planning our funeral memorial or celebration of life The submissions within are from professionals in the field of death and bereavement support and from laypeople all of whom share stories of dying family members friends clients and patients Julie and Victoria the coauthors of this book also share stories from their personal and professional experiences Journey s End is a broadly comprehensive book about death dying and the end of life

Dementia Joseph Quinn, 2013-10-21 Dementia is a devastating diagnosis for patients Dementia comes in many forms that can be hard to differentiate Arriving at an accurate diagnosis without subjecting an already wary patient to unnecessary tests requires clinical acumen Identifying the correct dementia and determining a probable prognosis allows agreement on appropriate management and care with patients and their carers But how much testing is needed What do the tests tell you What management options are available Dementia provides a progressive approach to help you identify and manage the many forms of this complex and devastating disease Dr Quinn has assembled a team of expert neurologists and gerontologists to provide the foundation knowledge you need to develop the clinical wisdom for effective dementia care Dementia clearly explains the diagnosis investigations and management for Normal pressure hydrocephalus Mild cognitive impairment Alzheimer s disease Vascular dementia Dementia with Lewy bodies Fronto temporal dementia Clinical in approach practical in execution Dementia helps you diagnose and treat your patients more effectively
