

Specialised Nutrition Europe¹ (SNE) Position on the proposed EU Regulation on Packaging and Packaging Waste

In a nutshell

Specialised Nutrition Europe (SNE) supports FoodDrinkEurope's position 'A circular economy for food and drink packaging'² and welcomes the objectives of the Commission's proposal³. However, some important adaptations are required to **make the proposal's environmental objectives compatible with the specific use and the especially strict safety requirements for foods for vulnerable groups**. Unfortunately, current recycling technologies do not yet enable an adequate supply of high grade recycled plastics and they are not specifically designed to reach consistency of quality among batches for the packaging of foods intended for infants and young children, as well as foods for special medical purposes (FSMP)⁴. SNE therefore recommends **treating foods for vulnerable groups the same way as medicines and medical devices** – which are exempted from the proposal's requirements for recyclability (until 2034 – Art. 6) and for minimum recycled content (indefinitely, Art. 7).

Any foods intended for infants and young children and foods for special medical purposes (FSMP) should also be exempted from the proposal's provisions on re-use and refill (Art. 26) and on deposit and return schemes (Art. 44). Furthermore, especially for Foods for Special Medical Purposes (FSMP), the use of digital labels (e. g. QR code) should be allowed (Art. 11). SNE also recommends promoting the future availability of recycled plastics suitable for foods intended for infants and young children and foods for special medical purposes.

- **Recyclable packaging (Art. 6)**

In order to protect the high quality and safety of foods for vulnerable groups, a lot of effort is being put into preventing the migration of substances into the food. This could be done by applying functional barriers in multi-layer materials, as envisaged by the regulation on plastic materials intended to come into contact with food⁵. While these multi-layer systems help to protect the product and enhance its shelf life (thereby reducing food waste), they might have detrimental effects on the recyclability of the packaging material. To simultaneously enhance recyclability and integrate recycled content, more time is needed to find technical solutions that do not compromise the quality and safety of the products for vulnerable groups.

Nutrition In Europe

Nutrition In Europe:

Prospects for Improving Nutrition in Eastern Europe and Central Asia Claudia Rokx, Rae Galloway, Lynn Brown, 2002 This report presents an overview of critical nutrition issues effecting the Eastern European and Central Asian ECA countries and suggests strategies for improvement The ECA region is diverse in economic political and social structures as are the nutrition problems in the region The report finds that in addition to poverty lack of knowledge about basic nutrition among populations is also a key determinant of malnutrition in the ECA region Nutrition in Europe Leif Hambræus, 1980 Abstract A variety of European specific and general interest topics in nutrition are covered in 14 papers and in 156 abstracts of general nutrition papers The European topics addressed include Europe's potential to assist nutrition research for developing countries collaborative research potentials in agriculture and nutrition for food and nutrition policy and planning and directions in public nutrition education by European countries The general nutrition papers are organized under 11 nutrition oriented categories including nutritional problems of the developing world nutrition policy and planning nutrition education cardiovascular disease clinical nutrition nutritional surveys and various nutrient focused topics fiber lipids minerals protein and vitamins wz Europe and Central Asia - Regional Overview of Food Security and Nutrition 2022 Food and Agriculture Organization of the United Nations, International Fund for Agricultural Development, United Nations Children's Fund, United Nations, United Nations Development Programme, World Food Programme, World Health Organization, World Meteorological Organization, 2023-03-14 This report presents the latest updates related to food security and nutrition in Europe and Central Asia including estimates on the cost and affordability of healthy diets It also explores how governments are supporting the food and agriculture sector and how to repurpose policies and incentives to make healthy diets more affordable and agrifood systems more environmentally sustainable The new estimates confirm that the prevalence of hunger at chronic or severe levels is relatively low in the ECA region through the prevalence of food insecurity at moderate or severe levels can be quite high The region is seeing alarmingly high and rising rates of overweight and obesity The COVID 19 pandemic has added 25.5 million people in the region to the ranks of the moderately or severely food insecure leaving them without access to safe nutritious and adequate food The war in Ukraine has made the situation worse Almost all ECA subregions are experiencing increased costs and reduced affordability of healthy diets because of higher food prices and lower incomes This report contains an in depth analysis of the repurposing of food and agricultural policies to ensure the food systems transformation is better suited to addressing the triple challenge of achieving food security and good nutrition for better health providing livelihoods to farmers and others connected to the sector and reducing the nature and climate footprint of the sector This report also reviews complementing policies within and outside of agrifood systems to assess whether repurposing efforts are impactful in the ECA region *The Rise of Obesity in Europe* Derek J. Oddy, 2016-02-17 Twentieth century Europe went through a dramatic transition from low income populations experiencing

hunger and nutritionally inadequate diets to the recent era of over consumption and growing numbers of overweight and obese people By examining the trends in food history from case studies across Europe this book offers a historical context to explain how and why this transition has occurred and what we can learn in order to try and address the vitally important issues arising from obesity in contemporary Europe **European Nutrition and Health Report 2004** I. Elmadfa, Elisabeth Weichselbaum, 2005-01-01 The European Nutrition and Health Report is the first comprehensive assessment of the present status of nutrition and health in Europe and of the available resources and requirements for compatible and representative data from different countries 13 EU member states and Norway have participated in this project pursuing three main goals Compilation of available nutrient intake and health data Identification of major nutrition and health problems Identification of problems concerning the methods and compatibility of data collection The main topics include food supply and availability energy and nutrient intake in different age groups health indicators and status obesity physical activity and smoking The Appendix offers a detailed publication of national reports and single projects This book provides a solid basis for the planning of future projects in nutrition and health and should be of great interest to all professionals in the fields of nutrition preventive medicine and public health as well as to health policy makers **Food Policy Trends in Europe** H Deelstra, M. Fondu, W Ooghe, R Van Havere, 1991-01-01 This book provides a review of developments in food science and technology that have taken place over the years and have provided solutions to basic problems concerning the availability and quality of food Future trends in food policy are evaluated and the impact of food regulation on trends in nutrition techniques of safety assessment development in analytical techniques and the use of new technologies *EU Food Law Handbook* Bernd Van der Meulen, Bart Wernaart, 2020-09-01 The twenty first century has witnessed a fundamental reform of food law in the European Union to the point where modern EU food law has now come of age This EU Food Law Handbook presents the most significant elements of these legal developments with contributions from a highly qualified international team of academics and practitioners Their analysis is based on a shared vision of the structure and content of EU food law The book takes the perspective of food law embedded within general EU law It highlights the consequences of this combination and provides insights into both substantive and procedural food law Taking the General Food Law as a focal point this handbook systematically analyses and explains the institutional substantive and procedural elements of EU food law Principles are discussed as well as specific rules addressing food as a product the processes related to food and communication about food to consumers through labelling These rules define requirements on subjects like market authorisation for food additives novel foods and genetically modified foods chemical and biological contaminants in food food hygiene tracking tracing withdrawal recall food labelling and claims The powers of public authorities to enforce food law and to deal with incidents are outlined Attention is given to the international context WTO Codex Alimentarius as well as to private standards In addition to the systematic analysis the book includes selected topics such as nutrition and health policy special foods food

import requirements food contact materials intellectual property private food law and animal feed In this new edition existing chapters have been updated to take account of many important developments in legislation and case law Several new topics have been added to the analysis such as the right to food organics and food fraud The EU Food Law Handbook is produced in co operation with the European Institute for Food Law It is relevant for practitioners and academics both with and without a background in law It is ideal for education purposes

Food and Nutrition Policy in Europe Organización Mundial de la Salud Regional Office for Europe,1991

European Nutrition and Health Report 2009 I. Elmadfa,2010-07-01 The main objective of the report at hand was to gather available and authorized data both published and unpublished on the nutrition and health situation in the countries of the European Union EU Whereas the first report released in 2004 included 13 EU member states and Norway the 2009 edition covers 24 EU member states and Norway For the collection of data the researchers concentrated on the following points The description of trends in food supply in the EU focusing also on the different regions the comparison of average daily individual food availability at household level the evaluation of individual food consumption and energy and nutrient intake the description of data on diet related health indicators and status and the analysis of food and nutrition policies in countries of the European Union Throughout the impact of age and gender is emphasized and special attention is being paid to the different regions of the EU The broad scope of the subjects covered and the improved quality of the data collected make the European Nutrition and Health Report 2009 an accurate documentation and sound source of information Providing a basis for the work of the institutions responsible for health and nutrition policy it is especially suitable for use in international comparisons of the nutrition and health situation

Food and Health in Europe ,2002 This booklet summarises a larger forthcoming publication containing an indepth analysis of nutritional health and the concerns regarding the supply and security of food in Europe This summary booklet aimed primarily at policy makers considers the key public health issues of concern and discusses policy options available

Nutrition In Europe Introduction

In the digital age, access to information has become easier than ever before. The ability to download Nutrition In Europe has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Nutrition In Europe has opened up a world of possibilities. Downloading Nutrition In Europe provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Nutrition In Europe has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Nutrition In Europe. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Nutrition In Europe. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Nutrition In Europe, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Nutrition In Europe has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Nutrition In Europe Books

1. Where can I buy Nutrition In Europe books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Nutrition In Europe book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Nutrition In Europe books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Nutrition In Europe audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Nutrition In Europe books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
