Nye Bevan And The Mirage Of British Socialism:

Nye Bevan and the Mirage of British Socialism John Campbell,1987 *Aneurin Bevan and the Mirage of British Socialism* John Campbell,1987 **The Formulation of British Defense Policy Towards the Middle East, 1948-56**

David R Devereaux,1990-11-19 **A Green History of the Welfare State** Tony Fitzpatrick,2017-03-16 Environmental problems particularly climate change have become increasingly important to governments and social researchers in recent decades Debates about their implications for social policies and welfare reforms are now moving towards centre stage What has been missing from such debates is an account of the history of the welfare state in relation to environmental issues and green ideas **A Green History of the Welfare State** fills this gap How have the environmental and social policy agendas developed To what extent have welfare systems been informed by the principles of environmental ethics and politics How effective has the welfare state been at addressing environmental problems How might the history of social policies be reimagined With its lively chronological narrative this book provides answers to these questions Through overviews of key periods politicians and reforms the book weaves together a range of subjects into a new kind of historical tapestry including social policy economics party politics government action and legislation and environmental issues This book will be a valuable resource for students and scholars of environmental policy and history social and public policy social history sociology and politics *The Great Alliance* Jim Phillips,1996 Reappraising the character of Britain s most successful Labour government the author provides a study of the Great Alliance between the Labour Party and the trade unions during the post war period It reveals that the failure of Attlee s government to support the demands of the workers for increased wages and work security in favour of the demands of the financial markets undermined the popularity of the Labour Party that had swept them to power in 1945 **The Labour Party, Housing and Urban Transformation** Phil Child,2024-05-16 The Labour Party Housing and Urban Transformation explores how the urban transformation of Britain between 1945 and 1970 was understood politically by the Labour Party Placing the Labour Party at the centre of the discussion the book covers the most extensive period of state led urban change in British history from the end of the Second World War to the decline of high modernism in the late 1960s Taking a particular focus on housing to explore the implementation of modernist ideas to drive a far ranging process of urban transformation in Britain it challenges conventional understandings of Labour s urban legacy and puts political ideas at the heart of twentieth century change Utilising a breadth and range of material including two distinct sets of archival sources published secondary material national legislation and Housing Acts and various case studies Child moves seamlessly between the national picture and its local impacts It also draws from sources which had a crucial influence on political thinking throughout the mid twentieth century to understand how urban transformation represented for Labour a political vision of the future A timely contribution both to urban history and to the history of post war Britain it challenges existing interpretations of modernism connects urban change to the political ideas that drove it and

allows us to comprehend the state of urban Britain today **Attlee's Labour Governments 1945-51** Robert Pearce, 2006-04-07 The Labour governments of 1945-51 are among the most important and controversial in modern British history and have been the focus of extensive research over the last fifteen years In this study Robert Pearce makes the results of this research available in a concise and accessible form whilst encouraging students to formulate their own interpretations He looks at the main political personalities of the period sets their work in the context of Labour history since 1900 and examines their domestic foreign and imperial achievements *Health and Society in Twentieth Century Britain* Helen Jones, 2014-01-14 Few things tell us more of a nation's general well being than the development of the life expectancy of its citizens the rising standards of health that they come to demand and how evenly that improvement is shared throughout society Helen Jones examines the record of twentieth century Britain in these respects She has much heartening progress to record yet stark inequalities remain Her book is thus both a review of and contribution to the current debates over gender class and ethnic inequalities in standards of health in Britain today Peace Movements: International Protest and World Politics Since 1945 April Carter, 2014-09-11 There is a long tradition of opposition to war and organized peace campaigns date from 1815 Since 1945 however modern weapons technology has threatened world wide destruction and has stimulated widespread protests This book sketches in the background of thinking about peace and resistance to war before 1945 and then examines how public opposition to nuclear weapons and testing grew in the 1950s and early 1960s Later chapters cover the major resurgence of nuclear disarmament campaigns in the 1980s The book also looks at how peace protest has spread from its origins in North America and North West Europe to embrace many parts of the world opposition to nuclear testing has indeed been particularly strong in Japan Australia New Zealand and the Pacific islands The period 1945 to 1990 was dominated by the Cold War between the USA and USSR and the role of the Soviet sponsored World Peace Council caused difficulties for independent peace groups in the West During the 1980s the emergence of autonomous peace activity in a number of East European countries and even on a very small scale in the USSR itself transformed the possibilities for East West co operation between citizens to urge disarmament and political change A chapter examines these developments Opposition to all forms of militarism has spread in the last 30 years This book charts the struggles to extend the right to conscientious objection to military service and draft resistance to particular wars for example in Southern Africa and Israel It also looks in some detail at the growing opposition to the war in Vietnam The recent protests against the Gulf War are surveyed briefly in an epilogue **The Labour Party and the Planned Economy, 1931-1951** Richard Toye, 2003 An exploration of Labour's 1931 pledge to create a planned socialist economy and the reasons for its failure to do so In the general election of 1931 the Labour Party campaigned on the slogan Plan or Perish The party's pledge to create a planned socialist economy was a novelty and marked the rejection of the gradualist evolutionary socialism to which Labour had adhered under the leadership of Ramsay MacDonald Although heavily defeated in that election Labour stuck to its

commitment The Attlee government came to power in 1945 determined to plan comprehensively Yet the aspiration to create a fully planned economy was not met This book explores the origins and evolution of the promise in order to explain why it was not fulfilled RICHARD TOYE lectures in history at Homerton College Cambridge
