between rural development and development in general back onto the center stage of theoretical policy and political agendas in the world today. Confronting these issues will require re-engaging with critical theories taking politics seriously and utilizing rigorous and appropriate research methodologies. These are the common messages and implications of the various contributions to this collection in the context of a scholarship that is critical in two senses: questioning prescriptions from mainstream perspectives and interrogating popular conventions in radical thinking. This book focuses on key perspectives, frameworks, and methodologies in agrarian change and peasant studies. The contributors are leading scholars in the field of rural development studies: Henry Bernstein, Terence J. Byres, Saturnino M. Borras Jr., Marc Edelman, Cristóbal Kay, Benedict Kerkvliet, Philip McMichael, Shahra Razavi, Ian Scoones, and Teodor Shanin. This book was previously published as a special issue of the *Journal of Peasant Studies*.

A Marxist Interpretation of Church Leadership Jon-Arild Johannessen, 2023-02-15

A Marxist Interpretation of Church Leadership Romans 13:1-7 is a study of Romans 13:1-7 from a Marxist perspective. Romans 13:1-7 introduce the concept of obedience to civil authorities. As a result, obedience has become an integral part of Western culture and may be the cultural foundation of how capitalism can manage control and direct people. Romans 13:1-7 have persuaded many Christians, including priests, bishops, and other representatives of the Church, to obey Hitler, Mussolini, Franco, and other tyrants and despots. Today, Romans 13:1-7 are used as an argument in support of the death penalty. In this way, Jesus's message of love has become, by means of seven simple verses in Paul's epistles, an argument that is used to support killing people. The purpose of this book is to get to grips with the Pauline impulse from a Marxist perspective. This is an historic impulse that has oppressed and excluded people and created an intolerant version of Christianity. It has also established obedience as a fundamental principle in Western culture and thereby enhanced capitalism.

Quiet Horizon Greg Jemsek, 2011-01-27

Society's trust in its institutions, governments, churches, and corporations in particular has never been lower. At the same time, terrorism is rising faster than the ability of state police forces, intelligence agencies, and militaries to combat it. What do these two phenomena have in common? Ideological thinking. The fabric of societies world-wide is being torn apart by the dogmatic, sabotaging impact of entrenched and extremist beliefs protected by psychologically damaged power brokers. The flawed and prescriptive organizations these power brokers create have a singular intention to replace the possibility of an innovative, collaborative, and free society with a compliant, fearful citizenry unwittingly sacrificing their sovereignty to false utopian promises. This book was written to help people understand how this process works. Only then can action be taken to move society in a more constructive direction. Its author, Greg Jemsek, worked at world headquarters of an international socio-spiritual organization during the 1970s gold rush of new religious movements into the U.S. His involvement led him in short order to being recruited to train with a select group of others in the terrorist tactics necessary to bring about a new world order. Those trainings served as the impetus to escape the organization, believing that doing so would put the cultic thinking embedded in its machinery into his past. To his surprise and distress, he discovered an

alarming reality over the next 35 years ideological thinking is as integral to the success of mainstream organizations as it is to extremist groups Success in todays world is based on 4 trends which left unchecked will undermine a societys capacity to build a constructive world 1 The normalization of narcissism 2 The erosion of authentic relationships through surrogacy 3 The continued commitment to outmoded meta narratives based on puritanical self loathing and frontier era delusions about limitless growth and 4 The continuous confusion between transcendence and transformation a confusion prompting people to substitute emotional excitation for the hard work necessary to advance self knowledge The alternative to ideological living is not easy but is essential if we are to face the complexity characterizing our times As Quiet Horizon points out this requires all of us to find ways to expand personal awareness act in ethically braver ways forge genuine relationships and move beyond our fears individually and collectively Doing so non dogmatically allows all of us to contribute to the creation of an honorable compassionate and just society
