A Whole Life's Work Lewis Richmond, 2005-02-22 What is work truly In its widest sense work is not just a job It is all our purposeful activities Seen in this light work is our whole life Out of this idea Lewis Richmond author of the acclaimed book *Healing Lazarus* brings us a new book that examines the eight important modes of work the Earner the Hobbyist the Creator the Monk the Helper the Parent the Learner and the Elder along with their corresponding eight modes of inner work which are Precepts Vitality Patience Calm Equanimity Giving Humility and Wisdom These inner modes of work are drawn from the author's Buddhist training but in some form they can be found in most spiritual traditions demonstrating the broad recognition throughout history that even when life was short and survival hard our whole life's work has inner as well as outer dimensions Although the Earner's work has been predominant through most of history Richmond argues that to grow spiritually all eight modes of work are necessary It is through these modes that our lives gain purpose and meaning not to mention such vital attributes as spiritual virtue and practice Put simply *A Whole Life's Work* provides its readers a roadmap for a practical as well as spiritual journey that melds outer livelihood with inner life so that as we grow old we can look back and say I did the best I could what I did counted I am satisfied

Biophilosophy Rolf Sattler, 2012-12-06 This book is an introduction to biophilosophy written primarily for the student of biology the practicing biologist and the educated layperson It does not presuppose technical knowledge in biology or philosophy However it requires a willingness to examine the most basic foundations of biology which are so often taken for granted Furthermore it points to the bottomlessness of these foundations the mystery of life the Unnamable I have tried to further the awareness that biological statements are based on philosophical assumptions which are present in our minds even before we enter the laboratory These assumptions which often harbor strong commitments are exposed throughout the book I have tried to show how they influence concrete biological research as well as our personal existence and society Thus emphasis is placed on the connection between biophilosophy and biological research on the one hand and biophilosophy and the human condition on the other
