Designed for bird enthusiasts, breeders, and researchers, this book serves as an essential resource for understanding these birds' unique characteristics and ecological significance. The book is systematically organized into sections that cover a wide variety of bird species. It begins with an extensive exploration of parrots, including popular species like budgerigars, lovebirds, cockatiels, and macaws. Following this, it delves into native Iranian chicken breeds such as Marandi and Khazak, and other avian species like quails, partridges, ostriches, turkeys, ducks, geese, and pheasants. Each section provides detailed information on the birds' physical traits, habitat preferences, dietary needs, gender determination methods, age estimation techniques, and maintenance principles. This book highlights Iran's rich biodiversity and underscores the global appeal of ornamental birds as pets and breeding species.
