Using Space: Critical Geographies of Drugs and Alcohol

Christopher M. Moreno,Robert Wilton,2014-03-05 The consumption of drugs and alcohol and the pleasures and problems arising from this consumption can be understood as embedded and constitutive elements of social family and recreational life At the same time they are key sites of intervention for a broad array of state and non state actors focused on regulation treatment and recovery This edited volume showcases current research on the complex social and cultural geographies of drugs and alcohol Taking an avowedly critical approach the authors draw from a variety of theoretical traditions to explore the socially and spatially embedded nature of alcohol and drug consumption regulation and treatment and the ways in which these give rise to particular lived experiences while foreclosing on others Together the chapters question taken for granted assumptions about the nature of and motivations for drug and alcohol use and pay direct attention to both the intended and unintended consequences of regulation and treatment initiatives Despite and in part because of this critical stance chapters hold immediate implications for drug and alcohol policy and public health interventions This book was originally published as a special issue of *Social and Cultural Geography* **Index-catalogue of the Library of the Surgeon General's Office,**
