giving will flow the way impact will be achieved the level of engagement and profile sought the time frame for giving and the underlying purpose of the gift Frumkin's point is that donors must understand strategic giving as the integration of these five critical dimensions to giving Essential reading for donors researchers and anyone involved with the world of philanthropy Strategic Giving provides a new basis for understanding philanthropic effectiveness and a promising new way for philanthropy to achieve the legitimacy that has at times eluded it

for everyone involved in private philanthropy from donors to managers of nonprofits to fund raisers He defines five critical challenges that all donors must address if their philanthropy is to amount to more than indiscriminate charity including being aware of the time frame that guides a gift specifying the intended impact being pursued and recognizing how a donation fits with a donor s own identity and style Acknowledging and understanding these fundamental strategic aspects of giving Frumkin argues will help ensure philanthropy that more effectively achieves its aims and at the same time builds a lasting relationship between donors and the institutions they support As the next generation of donors wrestle with the challenge of effectively distributing what Andrew Carnegie called surplus wealth Frumkin s road map will be an indispensable resource for years to come
