Philosophical Political Pro Studies In Contemporary German Social Thought:

Philosophical-political Profiles Jürgen Habermas, 1985 These essays by the contemporary German philosopher and sociologist Jürgen Habermas were written between 1958 and 1979 In them he sketches his impressions as if he were conducting a living dialog of the giants of recent German thought several of whom were his teachers **From Force to Persuasion** Andrew M. Davis, 2024-08-01 At the heart of process relational theology in the tradition of Alfred North Whitehead 1861 1947 and Charles Hartshorne 1897 2000 is the rejection of coercive omnipotence and the embrace of divine persuasion as the patient and uncontrolling means by which God works with a truly self creative world According to Whitehead Plato's conviction that God is a persuasive agency and not a coercive agency constitutes one of the greatest intellectual discoveries in the history of religion According to Hartshorne omnipotence is a theological mistake What is behind these claims Why do process relational philosophers and theologians reject divine omnipotence How have they justified a commitment to divine persuasion and what kind of theoretical and practical implications are involved Featuring contributions from key process relational thinkers this book situates a shift from force to persuasion across multiple thresholds of discourse from philosophy and theology to spirituality and politics to pluralism axiology and apocalypse It aims to reawaken attention to the operations of divine persuasion as ever loving and inherently noncoercive but always at risk in an open and relational universe *Ecclesial Recognition with Hegelian Philosophy, Social Psychology & Continental Political Theory* Timothy T.N. Lim, 2017-07-03 Ecclesial Recognition proffers a framework for churches to accept the legitimacy and authenticity of each other as the Church in the dialogical process towards fuller communion Typically recognition and its reception investigate theologically the sufficiency of creeds as ecumenical statements of unity the agreeability of essential sacramentality of the church and the recognition of its ministries as the churches witness of the gospel This monograph conceives ecclesial recognition as an intersubjective dynamics of inclusion and exclusion amid identity formation and consensus development with insights from Hegelian philosophy group social psychology and the Frankfurt School Axel Honneth's political theory The viability of this interdisciplinary approach is demonstrated from the French Dominican Yves Congar's oeuvre with implications for intra Communion and inter Church relations Dr Lim examines philosophical recognition theory group social psychology and political recognition theory to analyse the non theological impasses confronting the whole ecumenical movement Rev Dr Trevor Hoggard Director English speaking Ministries Methodist Church of New Zealand Lim masterfully argues for the viability of an interdisciplinary approach to ecumenical recognition within communities among churches and in their common pastoral mission Fr and Professor Radu Bordeianu Duquesne University and Orthodox theologian Representative of the Greek Orthodox Metropolis of Pittsburgh and Assistant Priest of Holy Trinity Greek Orthodox Church in Pittsburgh This book makes an important contribution to ecumenical ecclesiology Rev Dr and Professor Sandra Beardsall St Andrew's College Canada and United Church of Canada Ordained

Müller, 2019-05-10

This book poses the question How can we organize society in such a way that our disagreement about facts and norms works to the benefit of everyone In response it makes the argument for polycentric democracy a political arrangement consisting of various political units that enjoy different degrees of independence It is argued that to progress towards justice we first need to change our attitude towards reasonable disagreement Theorists have always viewed reasonable disagreement as nuisance if not as a threat However this work puts forward that the diversity of perspectives which underlie reasonable disagreement should be viewed as a resource to be harvested rather than a threat to be tamed Resting on two key arguments the author proposes the idea of polycentric democracy as the most capable method of making pluralism productive The book explores what such a political order might look like and concludes that only an institutional system which is capable of profiting from diversity such as polycentric democracy might reasonably be expected to generate an overlapping consensus Continuing in the tradition of Karl Popper and Friedrich August von Hayek this book lies at the intersection of philosophy political economy and political theory It will be of great interest to academics and scholars working in philosophy politics and economics

The Legitimacy of the Modern Age Hans Blumenberg, 1985-10-21 In this major work Blumenberg takes issue with Karl L with his well known thesis that the idea of progress is a secularized version of Christian eschatology which promises a dramatic intervention that will consummate the history of the world from outside Instead Blumenberg argues the idea of progress always implies a process at work within history operating through an internal logic that ultimately expresses human choices and is legitimized by human self assertion by man's responsibility for his own fate *Higher Education in Poland*

who have known Habermas only through his theoretical writing to find his later interests in problems of legitimation and communication foreshadowed in this lucid study of the origins nature and evolution of public opinion in democratic societies

Democracy at the Ballpark Thomas David Bunting, 2021-11-01 What is the relationship between sports and politics Often politics are thought to be serious whereas sports are diversionary and apolitical Using baseball as a case study Democracy at the Ballpark challenges this understanding examining politics as they emerge at the ballpark around spectatorship community equality virtue and technology Thomas David Bunting argues that because spectators invest time and meaning in baseball the game has power as a metaphor for understanding and shaping politics The stories people see in baseball mirror how they see the country politics and themselves As a result democracy resides not only in exclusive halls tread by elites but also in a stadium full of average people together under an open sky Democracy at the Ballpark bridges political theory and sport providing a new way of thinking about baseball It also demonstrates the democratic potential of spectatorship and rethinks the role of everyday institutions like sport in shaping our political lives offering an expanded view of democracy

Critical Theory and

Public Life John Forester, 1987 Jürgen Habermas's critical communications theory of society has excited widespread interest in recent years. The essays in this book explore the research implications of Habermas's theory for the analysis of modern problems of public life. Spanning the spectrum of the social sciences, the essays relate critical theory to industrial policy under advanced capitalism, education, the mass media, and consumerism; public participation in planning; policy analysis and critical historical studies. John Forester is Associate Professor of City and Regional Planning at Cornell University. *Critical Theory and Public Life* is included in the series *Studies in Contemporary German Social Thought* edited by Thomas McCarthy. The Philosophical Review, 1992

The EU and Nanotechnologies Tanja Ehnert, 2017-08-10 This book investigates the role of law in confronting major societal transformations embodied by the emergence of nanotechnologies. Taking the case of the European Union, it explores who the key decision makers in the regulation of nanotechnologies are and how they take decisions. The questions are explored through two distinct case studies: the food and chemicals sectors. The book charts an incremental retreat of the European Union to its executive powers, including soft law measures such as agencies' guidelines or implementing measures. This, the author argues, results in the Union's fundamental democratic control mechanisms—the EU legislature and the Court of Justice of the EU—being circumvented. The book recommends several immediate proposals to reform EU risk regulation, advocating a greater reliance on the European Parliament and outlining measures to increase the transparency of guidance drafting by EU agencies. This important work provides a timely examination of how emerging technologies pose both regulatory and democratic challenges.

Giorgio Agamben Thanos Zartaloudis, 2010-02-25 This book offers a thorough introduction to and engagement with the jurisprudential, political, and philosophical thought of the influential Italian philosopher Giorgio Agamben. Critically introducing Agamben's work to both a readership in legal theory and in the humanities and social sciences, more generally, Zartaloudis takes up the three main themes of Agamben's recent work: Power in its relation to bio politics, capitalism, social systems, control, and political theory; Law in its relation to philosophy, violence, rights, states of exception, and sovereignty; and Humanity in its relation to theories of ethics, the idea of the human, human rights discourse, and the condition of refugees.

Communication Ethics in Dark Times Ronald C. Arnett, 2012-12-11 Renowned in the disciplines of political theory and philosophy, Hannah Arendt's searing critiques of modernity continue to resonate in other fields of thought decades after she wrote them. In *Communication Ethics in Dark Times*, Hannah Arendt's *Rhetoric of Warning and Hope* author Ronald C. Arnett offers a groundbreaking examination of fifteen of Arendt's major scholarly works, considering the German writer's contributions to the areas of rhetoric and communication ethics for the first time. Arnett focuses on Arendt's use of the phrase "dark times" to describe the mistakes of modernity defined by Arendt as the post-Enlightenment social conditions, discourses, and processes ruled by principles of efficiency, progress, and individual autonomy. These principles, Arendt argues, have led humanity down a path of folly, banality, and hubris. Throughout his interpretive evaluation, Arnett illuminates the implications of Arendt's persistent metaphor of dark times and engages the

question How might communication ethics counter the tenets of dark times and their consequences A compelling study of Hannah Arendt's most noteworthy works and their connections to the fields of rhetoric and communication ethics

Communication Ethics in Dark Times provides an illuminating introduction for students and scholars of communication ethics and rhetoric and a tool with which experts may discover new insights connections and applications to these fields Top Book Award for Philosophy of Communication Ethics by Communication Ethics Division of the National Communication Association 2013

Axel Honneth and the Critical Theory of Recognition Volker Schmitz, 2018-08-04 The critical theory of the Frankfurt School has undergone numerous and at times fundamental changes over the last ninety years Since the late 1960s it has been characterized primarily by Jürgen Habermas's communicative turn and a focus on normative foundations Today that second generation exists side by side with a third generation represented most prominently by Axel Honneth's turn toward recognition ethical life and the normative reconstruction of social institutions This volume brings together critical voices on the state and direction of Frankfurt School theory today by examining Honneth's theory in light of both current challenges and the intellectual and political ambitions that have shaped the tradition from its beginning United in their strong commitment to critical scholarship the authors collected here approach Honneth's work from different backgrounds employ a wide variety of methodologies and write in different genres ranging from the sober scholarly analysis to programmatic and political appeals The collective aim of these reflections is not to reject Honneth's theory but to build upon his work and incorporate his themes of recognition and social freedom into a new project of critical theory that can prove adequate to the political and social crises of our time

Cosmopolitan Government in Europe Owen Parker, 2013-04-26 The invocation of the market has been omnipresent in media discussions of crisis Europe On the one hand the market is presented as that to which EU member states must collectively respond It is the very purpose of a post national government and that which dictates individual and collective identities The expansion of market is that which guarantees and constitutes peace in Europe On the other hand the market is that which government must seek to tame It is the servant of government and ought not be permitted to undermine collective identities and solidarities associated with the juridical imaginary of social contract and sovereign nation state It is from this perspective the expansion of the social institutions of nation state into the post national arena that will constitute a lasting peace in Europe Cosmopolitan Government in Europe uses a Foucauldian lens to consider the ethics of the scholarly and institutional discourses associated with these apparently divergent market and legal cosmopolitan visions of Europe It reflects on attempts to reconcile or move beyond these discourses particularly through the invocation of more pluralist modes of governance but claims that such moves have been largely unsuccessful in both practice and theory It argues that the very ambiguity in the relationship between the ideal subjects that these market and legal visions promote respectively post national entrepreneur and citizen is that which permits a space for resistance and politics Thus the book argues for a pragmatic politics which is cognizant of the violent potential inherent in any cosmopolitan

attempt to govern Europe while recognising the contemporary dangers associated with the dominance of a market cosmopolitan Europe This work is an important and timely intervention in contemporary debates about democratic Europe and its shortcomings and will be of great interest to scholars of international political theory European studies and international political economy
