Baumgartner, 2018-08-14 The role of representation in religion is complex While often perceived as essential it is also associated in many traditions with the liability of idolatry and provokes iconoclasm The essays in this volume examine the nuances of representation in religion and the debate concerning its place across a variety of traditions from the three Abrahamic faiths to those of antiquity and the East This volume consists of presentations made at an international conference held in honor of Moshe Barasch art historian and cultural critic who has done much to elucidate the light which representation and religion shed on each other It pays tribute to Barasch by expanding the base of understanding and insight he has erected It should be of interest to students of religion and of art history **Sons of Sarasvati** Chinya V. Ravishankar, 2018-09-01 Presents rare biographies of traditional Indian scholars during the nineteenth century a critical moment of transition for the Indian intellectual tradition Traditional Indian p itya scholarship has a long and distinguished history but is now practically extinct Its decline is remarkably recent traditional p itya flourished as recently as 150 years ago The decline is also paradoxical having occurred precipitously following a broad and remarkable flowering of the tradition between the fifteenth and eighteenth centuries The important questions this decline poses are the subject of much ongoing work The intellectual history of the period is still under construction and the present book represents a major contribution to the project A notable impediment has been the lack of critical biographies of significant thinkers in this tradition The importance of personal and social context for reconstructing intellectual histories is widely understood In the classical Indian intellectual tradition however authors systematically exclude such context making intellectual biography something of a rarity very rare in English and sparse even in the regional languages This book contains translations from the original Kanna

a of the biographies of Gara apur stri r ka ha stri and Ku igala R ma stri of nineteenth century Mysore all representing the highest echelons of traditional p itya at this critical period of transition Their fields are literature grammar and logic respectively The biographies focus on the personal lives of these scholars and their many contexts These biographies are almost contemporaneous accounts reflecting firsthand knowledge The translations are accompanied by copious footnotes as well as appendices drawn from the relevant primary sources What has been missing in the past forty years of discussion of nineteenth century Indian Orientalism and colonialism are fine textured accounts of the Indian orientalists themselves those who cultivated reproduced and promulgated knowledge of their own textual past Ravishankar s book is a valuable contribution toward that project He has given us a fascinating and unique picture of Indian intellectual life in its pre colonized form Sheldon Pollock Arvind Raghunathan Professor of South Asian Studies Columbia University Indian Philosophy Kewal Krishna Anand,1982 *All-India Oriental Conference, Thirty-ninth Session, 13-15 October 1998, Vadodara* Rajendra I.
