Hovannisian, 1985 *Miskawayh's Tahdīb al-aḥlāq* Ufuk Topkara, 2022-06-14 This book engages with the work of Miskawayh a formative Islamic Philosopher in the 11th century who is acknowledged as the founder of Islamic Moral Philosophy Miskawayh's The Refinement of Character Tahdīb al-Aḥlāq draws from both ancient

Greek philosophical tradition and Islamic thought highlighting the concepts he integrated into what he argued to be the moral core of Islam. This book pursues a comparative study by analyzing and outlining the inherent philosophical concerns of the Aristotelian concepts of Happiness, Justice, and Friendship, which are then brought into conversation with Miskawayh's own conceptualizations of them. While Tahb al-Alq is deeply influenced by Aristotle's ethics, Miskawayh employs not only a Platonizing interpretation of Aristotelian philosophy but also incorporates traditions of Islamic thought. The study therefore concludes that Miskawayh is merely a transmitter of ancient Greek philosophy as shown by both his critical survey of the material available to him and his own critical contributions. Essentially, Miskawayh attempted to harmonize philosophical and religious concepts of knowledge, demonstrating the interlinking of what are perceived as at times detrimentally incompatible positions. Ufuk Topkara illustrates how Aristotle's Ethics are integrated, modified, and at times adjusted to the broader narrative of Islamic thought, and how Miskawayh's discourse, albeit philosophical in nature, remains religious in its outlook. Providing clear insight into Miskawayh's work, this book is ideal for students and scholars of Islamic Philosophy and Muslim Theology.

Traditional Islamic Ethics: The Concept of Virtue and its Implications for Contemporary Human Rights Irfaan Jaffer, 2021-09-07

Traditional Islamic Ethics: The Concept of Virtue and its Implications for Human Rights concentrates on the subject of Islam and modernity and Islam and human rights, a topic that has become popular and relevant with the rise of globalization and the interest in Islamic extremism and human rights. This book distinguishes itself by operating within the framework of the traditional school of thought or Islamic Traditionalism. In doing so, it draws on Islam's 1400-year-old spiritual and intellectual tradition and its understanding of ethics and virtue along with truth, justice, freedom, and equality. This book argues that Islam's pre-modern approach is indispensable in creating an organic and integral human rights model for Muslims. The first section argues that the current understanding and implementation of international human rights needs to be more flexible and inclusive if it truly aims to be universal in scope; this is because the Universal Declaration and its offshoots are still underpinned by secular liberal principles and therefore are at odds with other cultural traditions. To this end, this section critically explores popular human rights histories and contemporary ethical theories that attempt to justify human rights. The second section of this book provides a general overview on the subject of Islam and Human Rights. After explaining some of the main problems, this section examines various solutions offered by Muslim academics and scholars, focusing on four different types of Muslim responses to modernity and human rights: liberal, progressive, traditional, and fundamentalist. It concludes that there are spaces of convergence between modern liberal ethics and traditional Islamic virtue ethics, while maintaining that there are also fundamental differences and that these differences should be welcomed by human rights theorists and advocates. The book's intended audience is primarily post-graduate students and professional academics in the fields of Human Rights, Ethical Philosophy, and Islamic Studies, modern Islamic thought, Sufism, Islamic theology, Islamic Philosophy, and Traditionalism. It will also appeal to anyone interested in the subject of Islam and modernity.

The author illustrates the importance of Islamic thought within philosophy through the use of many modern examples. He describes and contrasts the three main movements in Islamic philosophy: Peripatetic, Sufi, and Illuminationist, and examines the Persian as well as the Arabic traditions. Wide coverage is given to key aspects of Islamic philosophy including epistemology, ontology, politics, ethics, and philosophy of language, providing readers with a balanced view of the discipline. The second edition has been thoroughly revised and updated throughout, including the addition of two new chapters on recent debates surrounding Islam's need for an enlightenment and on the future of Islamic philosophy. The new edition of *Islamic Philosophy* will continue to be essential reading for students and scholars of the subject as well as anyone wanting to learn more about one of the most significant and influential philosophical traditions in the world today.

Islamic Theology and Extraterrestrial Life Jörg Matthias Determann, Shoaib Ahmed Malik, 2024-02-22 Over the last thirty years, humanity has discovered thousands of planets outside of our solar system. The discovery of extraterrestrial life could be imminent. This book explains how such a discovery might impact Islamic theology. It is the foundational reference on the subject, comprising a variety of different insights from both Sunni and Shi'i positions from different Muslim contexts and with chapters that compare and contrast Islamic perspectives with Christianity. Together, they address some of our biggest questions through an Islamic lens: What makes humans unique in the cosmos? What are the ethics of dealing with other sentient beings? And how universal is salvation? Given the accelerating advances in exoplanet research and astrobiology, the book is at the frontier of science and Islamic thought. Contributors include a range of leading experts from Muslim theologians, scholars of comparative religion, and philosophers to historians, social scientists, and natural scientists. **Key**

Classical Works on Islamic Ethics, 2024-12-09 This book transcends the narrow philosophical concept of ethics confined to the Greek model, demonstrating that Islamic ethics is an interdisciplinary field. It encompasses both theoretical and practical ethics, incorporating disciplines such as Qur'anic and the biography of the Prophet's religion, Islamic jurisprudence, fiqh, Sufism, and philosophy. The book provides analytical readings of a list of Islamic ethical heritage sources covering a period from the 3rd/9th to the 8th/14th century. It emphasises two ideas: first, the richness and diversity of ethical perspectives within Islamic tradition, showcasing multiple approaches including the Greek philosophical narrative and analytical approach belonging to other disciplines beyond philosophy. Second, it challenges the perception of scarcity in ethical sources within Islamic civilization.
