Philosophy And The Evolution Of Consciousness Owen Barfield's Saving The Appearances:

Philosophy and the Evolution of Consciousness Daniel Smitherman, 2020-02-08 To understand the history of philosophy means understanding the mind and work of individuals thousands of years and miles and cultures distant from the reader Daniel Smitherman presents one way to further that understanding by taking a deep dive into Owen Barfield's seminal work of phenomenology of history *Saving the Appearances* The author then shows how the core ideas of Barfield and the wider field of phenomenology bring intelligibility to an otherwise baffling or misleadingly simple legacy of human thinking across the globe and through the centuries

Philosophy and the Evolution of Consciousness Daniel J. Smitherman, 2001-01-29 The history of philosophy has been studied as if it were a long discussion between participants of differing opinions living in different ages but all in the same world Though Heraclitus and Descartes can no longer respond to new questions or current attacks on their positions nevertheless to the degree that we are all human and all live in the same world such questions and attacks are reasonably fair Until recently In the last 50 years the significance of the qualifier to the degree that has changed radically What if it turns out that as far as living in the same world goes we today actually have very little in common with Heraclitus or even Descartes Then we are attempting to carry on discussions with participants who are not our contemporaries and the world they were speculating about is not the same world we today are speculating about Then the nature of the discussion the history of philosophy takes on a very different character *Philosophy and the Evolution of Consciousness* takes talk of alternative conceptual schemes current in philosophy today and applies it in the very place most likely to warrant the change the history of philosophy itself

Owen Barfield Michael V. Di Fuccia, 2016-10-27 In this book Michael Di Fuccia examines the theological import of Owen Barfield's poetic philosophy He argues that philosophies of immanence fail to account for creativity as is evident in the false shuttling between modernity's active construal and postmodernity's passive construal of subjectivity In both extremes subjectivity actually dissolves divesting one of any creative integrity Di Fuccia shows how in Barfield's scheme the creative subject appears instead to inhabit a middle or medial realm which upholds one's creative integrity It is in this way that Barfield's poetic philosophy gestures toward a theological vision of poesis proper

wherein creativity is envisaged as neither purely passive nor purely active but middle Creativity thus is not immanent but mediated a participation in God s primordial poi sis **Emergent Holistic Consciousness** Stuart P. The Participatory Turn Jorge N. Ferrer, Jacob H. Sherman, 2008-10-23 Can we take seriously religious experience spirituality and mysticism without reducing them to either cultural linguistic by products or simply asserting their validity as a dogmatic fact The contributors to this volume argue that we can and they offer a new way the participatory turn which proposes that individuals and communities have an integral and irreducible role in bringing forth ontologically rich religious worlds They explore the ways this approach weaves together and gives voice to a number of robust trends in contemporary religious scholarship including the renewed study of lived spirituality the postmodern emphasis on embodied and gendered subjectivity the admission of alternate epistemic perspectives the irreducibility of religious pluralism and the pragmatist emphasis on transformation all trends that raise serious challenges to the currently prevalent linguistic paradigm The first part of the book situates the participatory turn in the context of contemporary Religious Studies the second part shows how this approach can be applied to various global traditions ancient and contemporary from Western esotericism to Jewish mysticism Christianity Hinduism Sufism and socially engaged Buddhism
