Nietzsche: Untimely Meditations Friedrich Nietzsche,1997-11-06 The four short works in Untimely Meditations were published by Nietzsche between 1873 and 1876 They deal with such broad topics as the relationship between popular and genuine culture strategies for cultural reform the task of philosophy the nature of education and the relationship between art science and life They also include Nietzsche s earliest statement of his own understanding of human selfhood as a process of endlessly becoming who one is As Daniel Breazeale shows in his introduction to this new edition of R J Hollingdale s translation of the essays these four early texts are key documents for understanding the development of Nietzsche s thought and clearly anticipate many of the themes of his later writings Nietzsche himself always cherished his Untimely Meditations and believed that they provide valuable evidence of his becoming and self overcoming and constitute a public pledge concerning his own distinctive task as a philosopher

Nietzsche: Truth and Redemption Ted Sadler,2000-12-01

This challenging new reading of Nietzsche counters the highly misleading interpretation of post modern commentators largely under the influence of Derrida In this powerful critique the author reconstructs Nietzsche s relationship to Schopenhauer and Heidegger and argues that Nietzsche was not as the postmodernists contend a relativist or pluralist but that he cultivated an existential appreciation of the truth

Nietzsche Rüdiger Safranski, 2002 No other modern philosopher has proved as influential as Friedrich Nietzsche 1844 1900 and none is as poorly understood In the first new biography in decades Rüdiger Safranski one of the foremost living Nietzsche scholars re-creates the anguished life of Nietzsche while simultaneously assessing the philosophical implications of his morality religion and art Struggling to break away from the oppressive burdens of the past Nietzsche invented a unique philosophy based on compulsive self-consciousness and constant self-revision As groundbreaking as it will be long-lasting this biography offers a brilliant multifaceted portrait of a towering figure

What a Philosopher Is Laurence Lampert, 2018-01-26 The trajectory of Friedrich Nietzsche's thought has long presented a difficulty for the study of his philosophy How did the young Nietzsche classicist and ardent advocate of Wagner's cultural renewal become the philosopher of Will to Power and the Eternal Return With this book Laurence Lampert answers that question He does so through his trademark technique of close readings of key works in Nietzsche's journey to philosophy *The Birth of Tragedy* Schopenhauer as Educator Richard Wagner in Bayreuth *Human All Too Human* and *Sanctus Januarius* the final book of the 1882 *Gay Science* Relying partly on how Nietzsche himself characterized his books in his many autobiographical guides to the trajectory of his thought Lampert sets each in the context of Nietzsche's writings as a whole and looks at how they individually treat the question of what a philosopher is Indispensable to his conclusions are the workbooks in which Nietzsche first recorded his advances especially the 1881 workbook which shows him gradually gaining insights into the two foundations of his mature thinking The result is the most complete picture we've had yet of the philosopher's development one that gives us a Promethean Nietzsche gaining knowledge even as he was expanding his thought to create new worlds

Truth Theresa Man Ling Lee, 1997-08-28 Considers the contested concept of truth in contemporary politics in light of the postmodernist challenge to Enlightenment ideals and examines the treatment of truth in an unusual lineup of thinkers ranging from Plato and Hobbes to Weber Foucault and Arendt *Nietzsche as Postmodernist* Clayton Koelb, 1990-01-01 This book addresses the quite timely question of the place of Nietzsche's thought with respect to the Western tradition the question whether Nietzsche defines or denies the very notion of philosophy as a tradition **One Hundred Twentieth-Century Philosophers** Stuart Brown, Diane Collinson, Dr Robert Wilkinson, Robert Wilkinson, 2008-02-20 One Hundred Twentieth Century Philosophers offers biographical information and critical analysis of the life work and impact of some of the most significant figures in philosophy this century Taken from the acclaimed Biographical Dictionary of Twentieth Century Philosophers the 100 entries are alphabetically organised from Adorno to Zhang Binglin and cover individuals from both continental and analytic philosophy The entries have an identical four part structure making it easy to compare and contrast information comprising biographical details a bibliography of major works a listing of relevant secondary and critical literature an appraisal of the philosopher's thoughts and achievements A separate glossary provides an introduction to the origins development and main features of major philosophical schools and movements and offers select bibliographies to guide the reader to further research *Nietzsche's Therapy* Michael Ure, 2008-01-01 Nietzsche's Therapy explores the ethics of self cultivation that Nietzsche forged in his middle works *The Political Thought of Václav Havel* Daniel Brennan, 2016-10-05 The book considers Václav Havel's body of writing as a cohesive whole offering a consistent political philosophy This bold claim is backed up through a close examination of Havel's plays letters essays and aphorisms The political philosophy that a close reading of Havel reveals is a liberal one However Havel is not the run of the mill liberal having influences from the field of phenomenology Husserl Heidegger Levinas Patočka and Heidegger which give him a nuanced view of the self Havel sees the self as something always being formed Hence for Havel man has an ability to shake his current state and invite transcendence into his life This agonistic process reveals our responsibility and liberates the self from forces which coerce behaviour
