Literature Greenough White,2015-06-16 Excerpt from Outline of the Philosophy of English Literature Vol 1 In view of the excellent treatises upon English literature that have multiplied of late years until they form by themselves a veritable library the only excuse that the present work can allege for being is that in it the great subject is considered under a somewhat new light To describe the process of mental development to determine the limits and character of literary ages to get at the basal principle of each successive age and trace its derivation from that which preceded it such has been the motive of the work The lives of authors therefore have not been a primary concern yet it is hoped that the personal element in literary history has not been unduly depressed and that the leading characteristics of men of commanding and formative genius have been firmly grasped and forcibly presented It is best to explain at the outset that in prosecuting his endeavor the author has welcomed any light that contemporary history literature or art seemed to afford he has refused to regard any event in the progress of European civilization as not germane to the subject and has selected many facts that may at first sight seem remote from it to illustrate his theme The result may prove to have a reflective value for in laying European history under contribution in order to interpret English literature that literature in its turn may make the course of contemporary history more perspicuous About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The philosophy of English literature* John Ingram Bryan,1930 **Outline of the**

Literature A Course of Lectures Delivered in the Lowell Institute There are in each department of knowledge central facts and germinant principles If we reach these early and well the labors of acquisition are greatly lightened They serve to explain to the mind and to hold for the memory those multitudinous minor facts which otherwise confuse the one and burden the other It is a secret of wise acquisition to learn the most in learning the least and we do this by directing attention at once to leading fruitful facts The ground is thus outlined we know where to look for particulars and these as they come to us by direct search or as incidents of growing information fall at once into their place strengthen our general hold of truth and are themselves securely rolled in and bound up in the compact bundle of knowledge The object of the lectures herewith published is to put the general reader and the student of English Literature into early possession of the leading influences operative in it and thus to enable them to peruse and to study its numerous productions with more insight more pleasure a better mastery of relations and a more ready retention of facts About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Cambridge Introduction*
