## **Philosophy Of Hegel:**

**Philosophy of Right** G. W. F. Hegel, 2012-03-06 Complete and unabridged this edition of Georg Wilhelm Friedrich Hegel's 1821 classic offers a comprehensive view of the philosopher's influential system In the Philosophy of Right Hegel applies his most important concept the dialectics to law rights morality the family economics and the state The last of Hegel's works to be published in his lifetime this volume combines moral and political philosophy to form a sociologic view dominated by the idea of the state Hegel defines universal right as the synthesis between the thesis of an individual acting in accordance with the law and the occasional conflict of an antithetical desire to follow private convictions The state he declares must permit individuals to satisfy both demands thereby realizing social harmony and prosperity the perfect synthesis Further Hegel renounces his formerly favorable assessment of the French Revolution and rejects the republican form of government suggesting instead an idealized form of a constitutional monarchy in which ultimate power rests with the sovereign

**Hegel's Preface to the Phenomenology of Spirit** Georg Wilhelm Friedrich Hegel, 2005-01-17 This is a new translation with running commentary of what is perhaps the most important short piece of Hegel's writing The Preface to Hegel's first major work the Phenomenology of Spirit lays the groundwork for all his other writing by explaining what is most innovative about Hegel's philosophy This new translation combines readability with maximum precision breaking Hegel's long sentences and simplifying their often complex structure At the same time it is more faithful to the original than any previous translation The heart of the book is the detailed commentary supported by an introductory essay Together they offer a lucid and elegant explanation of the text and elucidate difficult issues in Hegel making his claims and intentions intelligible to the beginner while offering interesting and original insights to the scholar and advanced student The commentary often goes beyond the particular phrase in the text to provide systematic context and explain related topics in Hegel and his predecessors including Kant Spinoza and Aristotle as well as Fichte Schelling Holderlin and others The commentator refrains from playing down as many interpreters do today those aspects of Hegel's thought that are less acceptable in our time and abstains from mixing his own philosophical preferences with his reading of Hegel's text His approach is faithful to the historical Hegel while reconstructing Hegel's ideas within their own context
