Philosophy Of Railways The Transcontinental Railway Idea In British North America:

The Philosophy of Railways Andy Albert den Otter,1997 Examines the ideological motivations for building the Canadian railway the contemporary understandings of nationalism and the evolving notion of a transcontinental union

British Businessmen and Canadian Confederation Andrew Smith,2008-07-16 Without pressure from a small but influential group of London financiers Confederation would not have occurred in 1867 if at all These financiers supported the unification of the British North American colonies because they believed it would rescue their under performing investments and keep British North America within the British Empire Race, Nation, and Reform Ideology in Winnipeg, 1880s-1920s Kurt Korneski,2015-06-09 During the late nineteenth and early twentieth centuries a host of journalists ministers medical doctors businessmen lawyers labor leaders politicians and others called for an assault on poverty slums disreputable boarding houses alcoholism prostitution sweatshop conditions inadequate educational facilities and other social evils Although they represented an array of political positions and advocated a range of strategies to deal with what they deemed problems historians have come to term this impulse urban reform or the urban reform movement This book considers the history of reform ideology in Canada It does so by considering four leading reformers living in what might be described as the most Canadian of Canadian cities Winnipeg Manitoba While the book engages in discussions debates surrounding the particular individuals it considers its more general argument is that to understand the history of reform in Canada requires viewing reformers as simultaneously experiencing and responding to two basic phenomena simultaneously It requires understanding them as confronting the polarizing tendencies exploitation and sometimes grinding poverty that was central to the economic order they often unwittingly helped to impose in northern North America It also however requires seeing them as fundamentally shaped by the process and legacy of the dispossession of Aboriginal peoples and the changing nature of Aboriginal settler relations that were also central to the development of Canada Empire's Tracks Manu Karuka,2019-01-29 Empire s Tracks boldly reframes the history of the transcontinental railroad from the perspectives of the Cheyenne Lakota and Pawnee Native American tribes and the Chinese migrants who toiled on its path In this meticulously researched book Manu Karuka situates the railroad within the violent global histories of colonialism and capitalism Through an examination of legislative military and business records Karuka deftly explains the imperial foundations of U S political economy Tracing the shared paths of Indigenous and Asian American histories this multisited interdisciplinary study connects military occupation to exclusionary border policies a linked chain spanning the heart of U S imperialism This highly original and beautifully wrought book unveils how the transcontinental railroad laid the tracks of the U S Empire **The People's Network** Robert MacDougall,2014-01-08 The Bell System dominated telecommunications in the United States and Canada for most of the twentieth century but its monopoly was not inevitable In the decades around 1900 ordinary citizens farmers doctors small town entrepreneurs established tens of thousands of independent telephone systems stringing their

own wires to bring this new technology to the people Managed by opportunists and idealists alike these small businesses were motivated not only by profit but also by the promise of open communication as a weapon against monopoly capital and for protection of regional autonomy As the Bell empire grew independents fought fiercely to retain control of their local networks and companies a struggle with an emerging corporate giant that has been almost entirely forgotten The People s Network reconstructs the story of the telephone s contentious beginnings exploring the interplay of political economy business strategy and social practice in the creation of modern North American telecommunications Drawing from government documents in the United States and Canada independent telephone journals and publications and the archives of regional Bell operating companies and their rivals Robert MacDougall locates the national debates over the meaning use and organization of the telephone industry as a turning point in the history of information networks The competing businesses represented dueling political philosophies regional versus national identity and local versus centralized power Although independent telephone companies did not win their fight with big business they fundamentally changed the way telecommunications were conceived

A World Connecting Emily S. Rosenberg, 2012-10-30 Between 1870 and 1945 advances in communication and transportation simultaneously expanded and shrank the world In five interpretive essays A World Connecting goes beyond nations empires and world wars to capture the era s defining feature the profound and disruptive shift toward an ever more rapidly integrating world

Civilization E.A. Heaman, 2022-08-15 Colonial Canada changed enormously between the 1760s and the 1860s the Conquest and Confederation but the idea of civilization seen to guide those transformations changed still more A cosmopolitan and optimistic theory of history was written into the founding Canadian constitution as a check on state violence only to be reversed and undone over the next century Civilization was hegemony a contradictory theory of unrestrained power and restraints on that power Occupying a middle ground between British and American hegemonies all the different peoples living in Canada felt those contradictions very sharply Both Britain and America came to despair of bending Canada violently to their will and new forms of hegemony

a greater reckoning with soft power emerged in the wake of those failures E A Heaman shows that the view from colonial Canada matters for intellectual and political history Canada posed serious challenges to the Scottish Enlightenment the Pax Britannica American manifest destiny and the emerging model of the nation state David Hume s theory of history shaped the Canadian imaginary in constitutional documents much thumbled histories and a certain liberal conservative political and financial orientation But as settlers flooded across the continent cosmopolitanism became chauvinism and the idea of civilization was put to accomplishing plunder and predation on a transcontinental scale Case studies show crucial moments of conceptual reversal some broadly representative and some unique to Canada Dissecting the Seven Years War domestic relations the fiscal military state liberal reform social statistics democracy constitutionalism and scholarly history Heaman shows how key British and Canadian public figures grappled with the growing gap between theory and practice By historicizing the concept of civilization this book connects Enlightenment ideals and anti colonialism shown in contest with colonialism in Canada before Confederation

From Wall Street to Bay Street Joe Martin,Chris Kobrak,2018-04-13 The 2008 financial crisis rippled across the globe and triggered a worldwide recession Unlike the American banking system which experienced massive losses takeovers and taxpayer funded bailouts Canada s banking system withstood the crisis relatively well and maintained its liquidity and profitability The divergence in the two banking systems can be traced to their distinct institutional and political histories From Wall Street to Bay Street is the first book for a lay audience to tackle the similarities and differences between the financial systems of Canada and the United States Christopher Kobrak and Joe Martin reveal the different paths each system has taken since the early nineteenth century despite the fact that they both originate from the British system The authors trace the roots of each country s financial systems back to Alexander Hamilton and insightfully argue that while Canada has preserved a Hamiltonian financial tradition the United States has favoured the populist Jacksonian tradition since the 1830s The sporadic and inconsistent fashion in which the American system have changed over time is at odds with the evolutionary path taken by the Canadian system From Wall Street to Bay Street offers a timely and accessible comparison of financial systems that reflects the political and cultural milieus of two of the world s top ten economies

Transforming the Prairies Shannon Stunden Bower,2024-11-01 Transforming the Prairies proposes a new understanding of Canada s Prairie Farm Rehabilitation Administration PFRA complicating common views of the agency as a model of effective government environmental management Between 1935 and 2009 the PFRA promoted agricultural rehabilitation in and beyond the Canadian Prairies with mixed and equivocal results The promotion of strip farming as a soil conservation technique for example left crops susceptible to sawfly infestations The PFRA s involvement in irrigation development in Ghana increased the local population s vulnerability to various illnesses And PFRA infrastructure construction intended to serve the public good failed to account for the interests of affected Indigenous peoples The PFRA is revealed as being a high modernist state agency that produced varied environmental outcomes and that contributed to

consolidating colonialism and racism This investigation affirms the importance of engaging historical perspectives to help ensure that contemporary environmental management efforts support more just and sustainable futures *Civilizing the Wilderness* A.A. den Otter, 2012-04-05 Eleven essays explore the dichotomy of civilizing and wilderness in 1850s Euro British North America **Leviathan 2.0** Charles S. Maier, 2014-04-21 Thomas Hobbes laid the theoretical groundwork of the nation state in *Leviathan* his tough minded treatise of 1651 *Leviathan 2.0* updates this classic account to explain how modern statehood took shape between the mid nineteenth and mid twentieth centuries before it unraveled into the political uncertainty that persists today Modern states were far from immune to the modernizing forces of war technology and ideology From 1845 to 1880 the United States Canada Mexico and Argentina were all reconstituted through territorial violence Europe witnessed the unification of Germany and Italy while Asian nations such as Japan tried to mitigate foreign incursions through state building reforms A global wave of revolution at the turn of the century pushed the modernization process further in China Russia Iran and Ottoman Turkey By the late 1930s with the rise of the Soviet Union and Nazi Germany the momentum of history seemed to shift toward war glorifying totalitarian states But several variants of the modern state survived World War II the welfare states of Western democracies single party socialist governments and governments dominated by the military especially prevalent in Latin America Asia and the Middle East Toward the end of the twentieth century all of these forms stood in growing tension with the transformative influences of globalized capitalism Modern statehood recreated itself in many ways Charles S Maier concludes but finally had to adopt a precarious equilibrium with ever more powerful economic forces **Luther H. Holton** Henry Cornelius Klassen, 2001 From the success of his various business ventures he moved easily into the world of politics Luther Holton was finance minister of the United Province of Canada from 1863 to 1864 leading the battle to reform the finance department and to enhance the province s credit in London England *Creative Subversions* Margot Francis, 2011-12-01 *Creative Subversions* explores how whiteness and Indigeneity are articulated through images of Canadian identity and the contradictory and contested meanings they evoke These benign even kitschy images she argues are haunted by ideas about race masculinity and sexuality that circulated during the formative years of Anglo Canadian nationhood In this richly illustrated book Margot Francis shows how national symbols such as the beaver the railway the wilderness of Banff National Park and ideas about Indianness evoke nostalgic versions of a past that cannot be expelled or assimilated Juxtaposing historical images with material by contemporary artists she investigates how artists are giving these taken for granted symbols new and suggestive meanings **Wet Prairie** Shannon Stunden Bower, 2011-06-29 The Canadian prairies are often envisioned as dry windswept fields however much of southern Manitoba is not arid plain but wet prairie poorly drained land subject to frequent flooding *Wet Prairie* brings to light the complexities of surface water management in Manitoba from early artificial drainage efforts to late twentieth century attempts at watershed management Irregular water flow patterns challenged the checkerboard landscape

of the 1872 federal Dominion Lands Act and homesteaders found their agricultural ambitions at odds with local environmental realities. Thus in keeping with liberal principles the provincial government undertook substantial drainage efforts. Flooding and drainage became the subjects of intense and persistent debate among provincial officials, drainage experts and Manitoba residents. New alliances and rivalries emerged amid shifting social, political and environmental contexts with enduring consequences for both the landscapes and people of the wet prairie. This account of an overlooked aspect of Prairie environmental history traces how the biophysical nature of southern Manitoba helped shape both Manitoba society and the provincial state. *American Empire and the Canadian Oil Sands* George A. Gonzalez, 2016-04-08 Throughout the US oil and gas shale are being hydrofracked to produce petroleum and natural gas. Oil or tar sands from Canada is being processed thereby generating large amounts of crude. This book places the unconventional fossil fuels revolution that is taking place in North America within the context of great power politics. *Young Ireland* Christopher Morash, 2023-09-05 This book offers new insights on the integration of Irish diasporic communities into the fledgling democracies of Australia, Canada and the United States to which they offered a significant ideological contribution as they engaged with key debates about nationalism, democracy, citizenship and minority rights. **Dominion** Stephen Bown, 2024-10-22 NATIONAL BESTSELLER Named Best Book of the Year by the Globe and Mail, History Today and The Hill Times. A gripping and eye-opening account of the building of the engineering triumph that created a nation: the Canadian Pacific Railway. The sharp decline of the demand for fur in the late nineteenth century could have spelled economic disaster for the venerable Hudson's Bay Company, but an idea emerged in political and business circles in Ottawa and Montreal to connect the disparate British colonies. With over 3 000 kilometres of track, much of it driven through wildly inhospitable terrain, the Canadian Pacific Railway would be the longest railway in the world and the most difficult to build. Its construction was the defining event of its era and a catalyst for powerful global forces. The times were marked by greed, hubris, blatant empire building, oppression, corruption and theft. They were good for some, hard for most, disastrous for others. The CPR enabled a new country, but it came at a terrible price. In *Dominion*, Stephen R. Bown widens our view of the past to include the adventures and hardships of explorers and surveyors, the resistance of Indigenous peoples and the terrific and horrific work of many thousands of labourers. His portrayal of the powerful forces that were moulding the world during this time provides a revelatory new picture of modern Canada's creation as an independent state. *The Cultural Work of Photography in Canada* Carol Payne, Andrea Kunard, 2011-08-31 *The Cultural Work of Photography in Canada* is an in-depth study on the use of photographic imagery in Canada from the late nineteenth century to the present. This volume of fourteen essays provides a thought-provoking discussion of the role photography has played in representing Canadian identities. In essays that draw on a diversity of photographic forms from the snapshot and advertising image to works of photographic art, contributors present a variety of critical approaches to photography studies, examining themes ranging from photography's part in the formation of

the geographic imaginary to Aboriginal self identity and notions of citizenship The volume explores the work of photographs as tools of self and collective expression while rejecting any claim to a definitive singular telling of photography s history Reflecting the rich interdisciplinarity of contemporary photography studies *The Cultural Work of Photography in Canada* is essential reading for anyone interested in Canadian visual culture Contributors include Sarah Bassnett University of Western Ontario Lynne Bell University of Saskatchewan Jill Delaney Library and Archives Canada Robert Evans Carleton University Sherry Farrell Racette University of Manitoba Blake Fitzpatrick Toronto Metropolitan University Vincent Lavoie Universit du Qu bec Montr al John O Brian University of British Columbia James Opp Carleton University Joan M Schwartz Queen s University Sarah Stacy Library and Archives Canada Jeffrey Thomas Ottawa and Carol Williams Trent University University of Lethbridge
