being in equal proportion so that there is a relation of equality and balance between them In connection with this second distinction of the Beautiful we have the historical development of Art and this unfolds the different forms of Art First the work of Art appears in a purely external and direct form the Beautiful being exhibited mainly in material objects The thought or subjective ideal is indeed present but it is in a manner sunk in the material and is often exhibited only as an ornamentation on the form of the object This **Aesthetics and the Philosophy of Art** Peter Lamarque, Stein Haugom Olsen, 2018-09-11
