present Nietzsche's work moves beyond conventional ethics to suggest that a universal morality for all human beings in non-existent perception, reason and experience are not static but change according to an individual's perspective and interpretation. The work further argues that philosophic traditions such as truth, self-consciousness and free will are merely inventions of Western morality and that the will to power is the real driving force of all human behaviour. This volume critiques the belief that actions including domination or injury to the weak can be universally objectionable. Explores themes of religion and master and slave morality. Includes a collection of stunning aphorisms and observations of the human condition. Part of the bestselling Capstone Classics Series edited by Tom Butler Bowdon, this collectible hard back edition of *Beyond Good and Evil* provides an accessible and insightful introduction by leading Nietzsche authority Dr Christopher Janaway. This deluxe volume is perfect for anyone with interest in philosophy, psychology, science, history and literature.

Classics of Philosophy Louis P. Pojman, 2003 *Classics of Philosophy 2e* is the most comprehensive anthology of writings in Western philosophy in print. Spanning 2500 years of thought, it is ideal for introduction to philosophy and history of philosophy courses that are structured chronologically. More than seventy works by forty-two philosophers as well as fragments from the Pre-Socratics are included, offering students and general readers alike an extensive and economical collection of the major works of the Western tradition. This anthology contains the most important writings from Thales to Rawls; seventeen of these are complete works while the others are judiciously abridged so that little of value to the student is lost. Unabridged works include such classics as Plato's *The Apology*, Descartes's *Meditations on First Philosophy*, Leibniz's *The Monadology*, Hume's *An Enquiry Concerning Human Understanding*, Kant's *Foundation for the Metaphysics of Morals*, Mill's *Utilitarianism*, Russell's *A Free Man's Worship*, Sartre's *Existentialism and Humanism*, and Rawls's *Justice as Fairness*. A lucid introduction including a brief biographical sketch accompanies each of the featured philosophers. *Classics of Philosophy 2e* provides an extensive view of the most significant stages of growth in Western philosophy, including its birth with the Pre-Socratics as well as its contemporary developments. The second edition includes new selections by Augustine, Berkeley, Hume, Wollstonecraft, Nagel and Foot.
