*Thinking of Questions* Peter Limm, 2015-09-23 This is not a conventional book It is designed to stimulate and challenge all people who are curious to find out about the world they inhabit and their place within it It does this by suggesting questions and lines of questioning on a wide range of topics The book does not provide answers or model arguments but prompts people to create their own questions and a reading log or journal To this end almost all questions have a list of books or articles to provide a starter for stimulating further reading Once you start you will be hooked Never stop questioning

*Philosophy: The Basics* Nigel Warburton, 2013-08-22 *Philosophy The Basics* gently eases the reader into the world of philosophy Each chapter considers a key area of philosophy explaining and exploring the ways in which philosophy addresses key questions

Bedard (editor), 2011-02-05 In an increasingly skeptical world there is now more of a need than ever for quality apologetic resources defending the Christian faith The purpose of this journal is to bridge the gap between the academy and the church equipping pastors and interested laypeople to present the Christian faith to an unbelieving world

**Philosophy in Schools** Sara Goering, Nicholas J. Shudak, Thomas E. Wartenberg, 2013 All of us ponder the big and enduring human questions Who am I Am I free What should I do What is good Is there justice Is life meaningful but this

kind of philosophical interrogation is rarely carefully explored or even taken seriously in most primary and secondary school settings. However, introducing philosophy to young people well before they get to college can help to develop and deepen critical and creative thinking, foster social and behavioral skills, and increase philosophical awareness. *Philosophy in Schools: An Introduction* by Philosophers and Teachers is an invaluable resource for students and practitioners who wish to learn about the philosophy for children movement and how to work its principles into their own classroom activities. The volume provides a wealth of practical information, including how to train educators to incorporate philosophy into their daily lessons, best practices, and activity ideas for every grade level, and assessment strategies. With contributions from some of the best practitioners of philosophy for children, *Philosophy in Schools* is a must-have resource for students of philosophy and education alike.

*What Am I Doing with My Life?* Stephen Law, 2019-08-08. Life philosophy based on Google searches. Have I found the one? Am I a psychopath? Should I be allowed to say whatever I want? Millions of people ask Google all sorts of questions, everything from the big and small. Responding to the biggest existential questions asked online and using the wisdom of Plato, Kant, Kierkegaard, and other philosophical greats, philosopher, academic, and all-round polymath Stephen Law undertakes the challenge and explores our modern-day concerns with tongue-in-cheek sagacity. No matter what you've googled in a midnight moment of existential despair, this book will answer all your burning questions. *Philosophy for a Better World* Floris Van Den Berg, 2013-06-04. After reading this book, the world won't look the same. Imagine yourself confined to a wheelchair or living within the severely constricted lifestyle options of a woman in Saudi Arabia or being a homosexual in a homophobic society or a coffee farmer in Ethiopia or a cow on a factory farm or growing up impoverished in a developing country or living 500 years from now when future generations may be negatively impacted by what we do today. This compelling thought experiment invites readers to take a moral journey which in turn leads to an inconvenient evaluation of the way most of us live. The author proposes a new perspective called universal subjectivism, which can be adopted by anyone regardless of religious or philosophical orientation. It takes into consideration the universal capacity for suffering and, through raising awareness, seeks to diminish that suffering and increase happiness. With consistent and crystal-clear moral reasoning, van den Berg shows that the world can be organized to ensure more pleasure, beauty, justice, happiness, health, freedom, animal welfare, and sustainability. He emphasizes that today, the near-term future is our greatest challenge, our affliction.

*Trailblazers in Philosophy* Jeremy Stangroom, 2014-12-15. Philosophy raises some fascinating and mind-boggling questions, thorny existential puzzles that have perplexed and troubled humanity for millennia. This concise book approaches fifty of the most perplexing problems of all time and shows how they have been addressed, if not solved, by some of the greatest minds in history. Readers enjoy lively biographical overviews of some of the most thought-provoking philosophers of the last 2000 years. Each chapter focuses on a featured theory and highlights the most intriguing thinkers working within that particular area and the most brilliant ideas that resulted from their inquiries. *Philosophy* Nigel Warburton, 2004.
