Religious Pluralism in Christian and Islamic Philosophy Adnan Aslan, 2013-01-11 The philosophy of religion and theology are related to the culture in which they have developed These disciplines provide a source of values and vision to the cultures of which they are part while at the same time they are delimited and defined by their cultures This book compares the ideas of two contemporary philosophers John Hick and Seyyed Hossein Nasr on the issues of religion religions the concept of the ultimate reality and the notion of sacred knowledge On a broader level it compares two world views the one formed by Western Christian culture which is religious in intention but secular in essence the other Islamic formed through the assimilation of traditional wisdom which is turned against the norms of secular culture and is thus religious both in intention and essence **The Essential Titus Burckhardt** Titus Burckhardt, 2003-09-06 An introduction to the thought of one of the greatest perennialist authors of the twentieth century

The Muslims of America Amherst Yvonne Yazbeck Haddad Professor of Islamic History University of Massachusetts, 1991-06-13 This collection brings together sixteen previously unpublished essays about the history organization challenges responses outstanding thinkers and future prospects of the Muslim community in the United States and Canada Both Muslims and non Muslims are represented among the contributors who include such leading Islamic scholars as John Esposito Frederick Denny Jane Smith and John Voll Focusing on the manner in which American Muslims adapt their institutions as they become increasingly an indigenous part of America the essays discuss American Muslim self images perceptions of Muslims by non Muslim Americans leading American Muslim intellectuals political activity of Muslims in America Muslims in American prisons Islamic education the status of Muslim women in America and the impact of American foreign policy on Muslims in the United States **Exploring Islamic Social Work** Hansjörg Schmid, Amir

Sheikhzadegan,2022-05-20 This open access book addresses for the first time Islamic social work as an emerging concept at the interface of Islamic thought and social sciences Applying a multidisciplinary approach it explores on the one hand the discourse that provides religious legitimisation to social work activities and on the other hand case studies of practical fields of Islamic social work including educational programmes family counselling and resettlement of prisoners Although in many cases these activities are oriented towards Muslim clients more often than not they go beyond the boundaries of Muslim communities to benefit society as a whole Muslim actors are also starting to professionalise their services and to negotiate the ways in which they can become fully recognised service providers within the welfare state At a more general level the volume also shows that in contrast to the widespread processes of secularisation of social work and its separation from religious communities newtypes of activities are now emerging which bring back to the public arena both an increased sensitivity to the religious identities of the beneficiaries and the religious motivations of the benefactors The edited volume will be of interest to researchers in Islamic Studies Social and Political Sciences Social Work and Religious Studies This is an open access book

Muslim Women, Domestic Violence, and Psychotherapy Nazila Isgandarova,2018-09-03 Muslim Women Domestic Violence and Psychotherapy reconciles newly emerging Islamic practical theology with the findings and theories of contemporary social sciences It is an inquiry about the lived experience of the Islamic tradition and its application in Islamic counseling with Muslim women subject to domestic violence By incorporating a holistic examination of the worldview personhood and understanding of social and religious obligations of Muslim women in counseling this book shows how practitioners can empower clients facing trauma and abuse to explore feasible solutions and decrease worry anxiety and other negative emotions

Muslims as Actors Jacques Waardenburg,2012-02-13 This book deals with Islamic studies and with the question how the scholarly study of religion can contribute to the study of Islam The author advocates studying Islamic phenomena as signs and symbols interpreted and applied in diverse ways in existing traditions He stresses the role of

Muslims as actors in the ongoing debate about the articulation of Islamic ways of life and construction of Islam as a religion. A careful study of this debate should steer clear of political, religious, and ideological interests. Research in this area by Muslims and non-Muslim scholars alike should address the question of what Muslims have made of their Islam in specific circumstances. Current political contexts have created an unhealthy climate for pursuing an open approach to Islam based on reading, observing, listening, and reflecting. Yet precisely nowadays we need to look anew at ways of Muslim thinking and acting that refer to Islam and to avoid certain schemes of interpreting Muslim realities that are no longer adequate for present-day Muslim life situations. Muslim recourse to Islam can be studied as human constructions of value and meaning, and relations between Muslims and others can be seen in terms of human interaction without blame always falling on Islam as such.

Great Muslim Leaders Melanie C. Brooks, Miriam D. Ezzani, 2023-03-01. *Great Muslim Leaders* presents Islamic informed alternatives to Eurocentric Christian understandings of education and educational leadership. It does so by interrupting and displacing the West's centuries-long dismissive stance and monolithic gaze on Islam by showcasing outstanding diverse Muslim leaders across space and time. Each chapter focuses on a single leader and includes a biographical sketch, a discussion of their context and activities as a leader, key lessons readers can learn from their leadership, and recommendations that are relevant for teachers and educational leaders. This collection of Muslim leaders chosen by Muslim scholars brings to education discourse the breadth of Islamic intellectual history, giving the book a global appeal and facilitating a sharing of innovative and classic ideas across cultures, faith traditions, and national boundaries. *Great Muslim Leaders* introduces to readers Muslim intellectuals, spiritual leaders, philosophers, poets, artists, activists, scientists, celebrities, politicians, educators, film makers, historical figures, theorists, and academics whose lives have positively shaped their community, society, and the world. Their lived experiences are underpinned by deep spirituality and faith, revealing the significance and import religious belief has on moral and ethical action. The book concludes with seven lessons that cut across the chapters that encapsulate the immense value Islamic spirituality and faith bring to education and leadership.

ENDORSEMENTS In recent years, many books have been written on Islam and Muslims. However, *Great Muslim Leaders: Lessons for Education* is a must read. In this unique, well-written, and engaging study, Melanie Brooks and Miriam Ezzani demonstrate how faith and spirituality have informed the lives and accomplishments of major Muslim leaders in a broad section of professions. John L. Esposito, Georgetown University. Scholars of leadership ignore spiritual and religious exemplars at their peril. By seeking such exemplars from Islam in such an organic manner, this volume models the central lessons it conveys: promoting pluralism, thoughtfully questioning, critically reflecting, and most vitally, helping us recognize and embrace the sacred trust of leadership. Martin Scanlan, Boston College. *Great Muslim Leaders: Lessons for Education* is timely, inspirational, and packed with lessons for educators and learners alike. At a time when Islamic education is moving toward renewal, this book will provide much needed insight, real-life lessons, and direction. This is a must read for anyone seeking to

be enriched by the lives of great Muslim leaders be they learners educators or leaders Mohamad Abdalla AM University of South Australia So many popular leadership books tell the same story of a great white American man who overcame obstacles to build an empire It is refreshing to read this book featuring educational leaders whose Muslim faith is central to their practice and whose work is bigger than themselves The biographies of these diverse leaders from across the world offer lessons in humility and hope as well as practical tips for other leaders who seek to apply their faith whether Muslim or not to a more connected way of being and of leading Joanne M Marshall Iowa State University **Border Crossings** Fred Dallmayr,1999-08-25 Comparative political theory is at best an embryonic and marginalized endeavor As practiced in most Western universities the study of political theory generally involves a rehearsal of the canon of Western political thought from Plato to Marx Only rarely are practitioners of political thought willing and professionally encouraged to transgress the canon and thereby the cultural boundaries of North America and Europe in the direction of genuine comparative investigation Border Crossings presents an effort to remedy this situation fully launching a new era in political theory Thirteen scholars from around the world examine the various political traditions of West South and East Asia and engage in a reflective cross cultural discussion that belies the assumptions of an Asian essence and of an unbridgeable gulf between West and non West The denial of essential differences does not however amount to an endorsement of essential sameness As viewed and as practiced by contributors to this ground breaking volume comparative political theorizing must steer a course between uniformity and radical separation this is the path of border crossings **Journal of the Research Society of Pakistan** Research Society of Pakistan,1983 American Journal of Islamic Social Sciences 11:3 Mona M. The Oxford Encyclopedia of the Modern Islamic World: Abba-Fami ,1995 **Curricular Rights** Alexandre Magno Fernandes Moreira,2025-09-04 What should every individual learn This pivotal question serves as the foundation for our exploration of minimum educational standards intricately linked to human rights law and global policy frameworks By drawing on influential soft law sources including UNESCO and UN mechanisms this book delves into the profound ways in which legal principles shape curriculum development educational assessment and state responsibilities across the globe Breaking away from traditional studies that merely scrutinize national policies or engage in comparative education this work

adopts a legal institutional lens It reveals the significant impact of non binding legal instruments in shaping educational rights Central to our discussion is Article 29 of the UN Convention on the Rights of the Child which we connect with the emerging global educational goals demonstrating how international norms seamlessly translate into national curricula and assessments Through a number of case studies comprehensive legal analyses and policy evaluations the book exposes the often overlooked mechanisms of global education governance It argues that while minimum learning standards are crucial for ensuring equity and quality they also provoke essential political and ideological dilemmas who determines what constitutes essential knowledge and how do these choices impact cultural integrity and national sovereignty Curricular Rights is essential reading for scholars of education law policymakers and international organizations eager to navigate the complex intersection of human rights law and education policy It presents a fresh interdisciplinary perspective on one of the most urgent debates in global education the challenge of harmonizing universal learning standards with local educational priorities

Understanding Islamic Fundamentalism Sayed Khatab,2011 Beginning with an examination of medieval Islamic fundamentalist movements such as Kharjism Ibadism Hanbalism and Wahhabism Sayed Khatab looks at the similarities and differences between them and present organizations such as al Qa ida It may be surprising that many of the radical narratives embraced by modern groups have not emerged recently Identifying these roots can lead to a better understanding of al Qa ida s theological and intellectual narratives and how they effectively indoctrinate youths and attract many of them to violent acts of terrorism The book then focuses on al Qa ida s theology ideology and tactics the geographic contours and implications of al Qa ida s political strategy in relation to the western and eastern countries which are considered enemy states the impending clash of cultures and the ideological war within al Qa ida Innovative in its concept examining political Islamic thought from a historical to a contemporary perspective Islamic Fundamentalism generates new understanding of the many complexities of political Islam and the role of violence and terrorism
