Studies in Pessimism is a collection of Arthur Schopenhauer's essays which unites his principal discussions of philosophical pessimism a trait which was his most definitive Over his career Schopenhauer developed a unique atheistic philosophy whose ethical and metaphysical properties formed a quintessential pessimism Identifying a confection of absurdities in life and using human history to evidence and reinforce his beliefs Schopenhauer philosophizes that human existence consists mainly of blind and aimless striving A core tenet of Arthur Schopenhauer's thought was that the human will had no end goal or purpose Although the will can vigorously strive at any level of its manifestation the lack of indeed the impossibility of an ending renders its efforts purposeless and fruitless Furthermore contends Schopenhauer the wills of beings compete with one another this competition creates conflict misery and struggle This book contains nine of Schopenhauer's essays discussing pessimism each of which contains a topic pertinent to his overarching philosophy Since he first published his essays on pessimism many commentators and scholars have identified similarities between Schopenhauer's beliefs and the Buddhist faith Buddhism holds that human striving is insatiable and that the solution is nonexistence By nonexistence the Buddhists and Schopenhauer do not mean suicide for this does not tackle or end the root cause of the suffering but instead a continual moderation of desire By stymieing worldly desires and excluding the chaotic mentality of want and striving from life a person can enjoy a more peaceful and happy existence resigned from the tumultuous striving which underlines everyday human existence **Essays of Arthur Schopenhauer (Classic Reprint)** Arthur Schopenhauer,2018-01-22

Excerpt from Essays of Arthur Schopenhauer Of Schopenhauer as of many another writer it may be said that he has been misunderstood and depreciated just in the degree in which he is thought to be new and that in treating of the conduct of life he is in reality valuable only in so far as he brings old truths to remembrance His name used to arouse and in certain quarters still arouses a vague sense of alarm as though he had come to subvert all the rules of right thinking and all the principles of good conduct rather than to proclaim once again and give a new meaning to truths with which the world has long been familiar Of his philosophy in its more technical aspects as matter upon which enough perhaps has been written no account need be taken here except as it affects the form in which he embodies these truths or supplies the fresh light in which he sees them For whatever claims to originality his metaphysical theory may possess the chief interest to be found in

Schopenhauer argues that the world we experience around us the world of objects in space and time and related in causal ways exists solely as representation dependent on a cognizing subject not as a world that can be considered to exist in itself Our knowledge of objects is thus knowledge of mere phenomena rather than things in themselves Schopenhauer identifies the thing in itself the inner essence of everything as will a blind unconscious aimless striving devoid of knowledge outside of space and time and free of all multiplicity The world as representation is therefore the objectification of the will The World as Will and Idea marked the pinnacle of Schopenhauer s philosophical thought he spent the rest of his life refining clarifying and deepening the ideas presented in this work without any fundamental changes
