Philosophy Of Hope:

The Moral Psychology of Hope Claudia Blöser, Titus Stahl, 2019-11-13 That we can hope is one of the capacities that define us as human beings To hope means not just to have beliefs about what will happen but to imagine the future as potentially fulfilling some of our most important wishes It is therefore not surprising that hope has received attention by philosophers psychologists and by religious thinkers throughout the ages The contributions in this volume written by leading scholars in the philosophy of hope gives a systematic overview over the philosophical history of hope about contemporary debates and about the role of hope in our collective life

A Philosophy of Hope Bernard N. Schumacher, 2003 Schumacher looks at hope as a virtue one opposed by vices such as despair and presumption particularly as they are treated in existentialism and Marxism He also explores Pieper's treatment of hope in relation to the ideas of death and immortality and in the philosophy of history Using the idea of hope to examine such themes as dignity ethics the good and the just Schumacher provides a valuable wide ranging introduction to a shaper of contemporary Christian thought against a richly drawn intellectual background

Hope Mary Zournazi, 2023-05-09 How is hope to be found amid the ethical and political dilemmas of modern life Writer and philosopher Mary Zournazi brought her questions to some of the most thoughtful intellectuals at work today She discusses joyful revolt with Julia Kristeva the idea of the rest of the world with Gayatri Spivak the art of living with Michel Serres the carnival of the senses with Michael Taussig the relation of hope to passion and to politics with Chantal Mouffe and Ernesto Laclau A dozen stimulating minds weigh in with their visions of a better social and political order The result is a collaboration of writing of thinking and of politics that demonstrates more clearly than any single authored project could how ideas encountering one another can produce the vision needed for social change

The Philosophy of Hope David Starr Jordan, 1907

A Philosophy of Human Hope J.J. Godfrey, 1987-03-31 Few reference works in philosophy have articles on hope Few also are systematic or large scale philosophical studies of hope Hope is admitted to be important in people's lives but as a topic for study hope has largely been left to psychologists and theologians For the most part

philosophers treat hope en passant My aim is to outline a general theory of hope to explore its structure forms goals reasonableness and implications and to trace the implications of such a theory for atheism or theism What has been written is quite disparate Some see hope in an individualistic often existential way and some in a social and political way Hope is proposed by some as essentially atheistic and by others as incomprehensible outside of one or another kind of theism Is it possible to think consistently and at the same time comprehensively about the phenomenon of human hoping Or is it several phenomena How could there be such diverse understandings of so central a human experience On what rational basis could people differ over whether hope is linked to God What I offer here is a systematic analysis but one worked out in dialogue with Ernst Bloch Immanuel Kant and Gabriel Marcel Ernst Bloch of course was a Marxist and officially an atheist Gabriel Marcel a Christian theist and Immanuel Kant was a theist but not in a conventional way

A Philosophy of Hope Lars Svendsen, 2024-10-14 From a leading popular philosopher an uplifting meditation on the nature and power of optimism In this book Lars Svendsen embarks on a profound exploration of the nature of hope asking what exactly hope is and how it differs from related phenomena such as wishful thinking He argues that hope is rooted in the ability to shape one's future crucial for a society built on freedom instead of fear Svendsen highlights hope's vital role in giving life meaning and its intimate connection to identity He shows that while hope cannot magically transform the world it can empower individuals to focus on achievable goals rather than pressing challenges Ultimately A Philosophy of Hope demonstrates the capacity of hope to propel both individuals and the world in a positive direction

A Philosophy of Hope Bernard Schumacher, 2022 Josef Pieper was one of this century's most influential thinkers A leading Catholic philosopher he won a wide audience through such books as The Four Cardinal Virtues and About Love This book is one of few extended studies of Pieper's thought in particular of the concept of hope Pieper was one of the first modern philosophers to explore the idea of hope and Schumacher discusses his development alongside contributions by Sartre Jaspers Marcel Heidegger Bloch and other thinkers He examines Pieper's treatment of hope as an aspect of individual potential and as an historical force exploring such themes as dignity ethics the good and the just

How We Hope Adrienne Martin, 2016-05-31 What exactly is hope and how does it influence our decisions In *How We Hope* Adrienne Martin presents a novel account of hope the motivational resources it presupposes and its function in our practical lives She contends that hoping for an outcome means treating certain feelings plans and imaginings as justified and that hope thereby involves sophisticated reflective and conceptual capacities Martin develops this original perspective on hope what she calls the incorporation analysis in contrast to the two dominant philosophical conceptions of hope the orthodox definition where hoping for an outcome is simply desiring it while thinking it possible and agent centered views where hoping for an outcome is setting oneself to pursue it In exploring how hope influences our decisions she establishes that it is not always a positive motivational force and can render us complacent She also examines the relationship between hope and faith both religious and secular and identifies a previously unnoted form of hope normative or interpersonal hope When we place normative hope in people we relate to them as responsible agents and aspire for them to overcome challenges arising from situation or character Demonstrating that hope merits rigorous philosophical investigation both in its own right and in virtue of what it reveals about the nature of human emotion and motivation *How We Hope* offers an original sustained look at a largely neglected topic in philosophy

The Principle of Hope Ernst Bloch, 1986

Paul Ricoeur on Hope Rebecca Kathleen Huskey, 2009 In order to examine fully the nature of human beings Paul Ricoeur crossed disciplinary boundaries in his work moving from phenomenology to social and political thought hermeneutics and ethics Running throughout Ricoeur's work particularly *Fallible Man* *Time and Narrative* *Oneself as Another* and his shorter pieces on hermeneutics ethics and religion is a theme of the human capacity for hope According to Ricoeur hope is a capacity of expectation oriented toward some future action which aims at a good for self and others The conditions for the possibility of hope are the unity and difference that exist within the self in transcendental practical and effective realms and the self's ability to narrate which is made possible by the self's existence within and understanding of time Our capacity for hope is understood via the symbols of good and evil found in myths and sacred writings Furthermore hope is not limited to those who are religious atheists may be just as hopeful as the devout Exploring the nature of hope in Ricoeur's work allows for a greater understanding of hope and a greater ability to cultivate hope in oneself and others

A Philosophy of Human Hope Joseph John Godfrey, Alfonso Verdú, 1987

Gabriel Marcel's Ethics of Hope Jill Graper Hernandez, 2011-10-13 The idea of hope has received significant attention in the political sphere recently But is hope just wishful thinking or can it be something more than a political catch phrase This book argues that hope can be understood existentially or on the basis of what it means to be human Under this conception of hope given to us by Gabriel Marcel hope is not optimism but the creation of ways for us to flourish War poverty and an absolute reliance on technology are real life evils that can suffocate hope Marcel's thought provides a way to overcome these negative experiences An ethics of hope can

function as an alternative to isolation dread and anguish offered by most existentialists This book presents Marcel's existentialism as a convincing relevant moral theory founded on the creation of hope interwoven with the individual's response to the death of God Jill Hernandez argues that today's reader of Marcel can resonate with his belief that the experience of pain can be transcended through a philosophy of hope and an escape from materialism

The Economy of Hope Hirokazu Miyazaki, Richard Swedberg, 2017-01-13 In *The Economy of Hope* hope becomes not only a method of knowledge but also an essential framework for the sociocultural analysis of economic phenomena

The Philosophy of Hope Alexander Douglas (Lecturer in philosophy), 2023-07 Can philosophy be a source of hope Today it is common to believe that the answer is no that providing hope if it is possible at all belongs either to the predictive sciences or to religion In this exciting and simulating book however Alexander Douglas argues that the philosophy of Spinoza can offer something akin to religious hope Douglas shows how Spinoza is able without appealing to belief in any traditional afterlife or supernatural grace to develop a profound and original theory of how humans can escape from the conditions of death and sin Douglas argues that this theory of escape which Spinoza calls beatitude is the centrepiece of his entire philosophy though scholars have often downplayed or ignored it One reason for this scholarly neglect might be the difficulty of understanding Spinoza's theory which departs from the standard doctrines and methods of Western philosophy Douglas's interpretation therefore seeks inspiration beyond the Western tradition drawing especially on the classical Daoist text Zhuangzi and its commentaries Here Douglas argues surprising resonances with Spinoza's core ideas can be found leading to a new way of understanding his strange yet compelling theory of beatitude

Hope and History Josef Pieper, 1994 The famous and popular Thomistic philosopher addresses the topic of hope from the perspective of human history and asks the questions Is man's hope such that it can find any fulfillment in the field of human history And Is man's human history such that it can give us any grounds not to despair Pieper looks at the movement of history the idea of progress man's hope for a better future and he counters the temptation to despair with a Christian philosophy of hope based on faith in divine providence and the compatibility of faith and reason
