Phoenicians Under The Scientific Directi:

Phoenician Aniconism in Its Mediterranean and Ancient Near Eastern Contexts Brian R. Doak, 2015-11-05 A close look at Phoenician religion The Hebrew Bible contains a prohibition against divine images Exod 20 2 5a Explanations for this command are legion usually focusing on the unique status of Israel's deity within the context of the broader Near Eastern and Mediterranean worlds Doak explores whether or not Israel was truly alone in its severe stance against idols This book focuses on one particular aspect of this iconographic context in Israel's Iron Age world that of the Phoenicians The question of whether Phoenicians employed aniconic as opposed to iconic representational techniques has significance not only for the many poorly understood aspects of Phoenician religion generally but also for the question of whether aniconism can be considered a broader trend among the Semitic populations of the ancient Near East Features More than fifty images and illustrations Examination of textual and archaeological evidence Application of art historical methods [Ancient Israel's Neighbors](#) Brian R. Doak, 2020-07-01 Whether on a national or a personal level everyone has a complex relationship with their closest neighbors Where are the borders How much interaction should there be How are conflicts solved Ancient Israel was one of several small nations clustered in the eastern Mediterranean region between the large empires of Egypt and Mesopotamia in antiquity Frequently mentioned in the Bible these other small nations are seldom the focus of the narrative unless they interact with Israel The ancient Israelites who produced the Hebrew Bible lived within a rich context of multiple neighbors and this context profoundly shaped Israel Indeed it was through the influence of the neighboring people that Israel defined its own identity in terms of geography language politics religion and culture Ancient Israel's Neighbors explores both the biblical portrayal of the neighboring groups directly surrounding Israel the Canaanites Philistines Phoenicians Edomites Moabites Ammonites and Arameans and examines what we can know about these groups through their own literature archaeology and other sources Through its analysis of these surrounding groups this book will demonstrate in a direct and accessible manner the extent to which ancient Israelite identity was forged both within and against the identities of its close neighbors Animated by the latest and best research yet written for students this book will invite readers into journey of scholarly discovery to explore the world of Israel's identity within its most immediate ancient Near Eastern context

Critical Ancient World Studies Mathura Umachandran, Marchella Ward, 2023-12-27 This volume explores and elucidates critical ancient world studies CAWS a new model for the study of the ancient world operating critically setting itself against a long history of a discipline formulated to naturalise a hierarchical white supremacist origin story for an imagined modern West CAWS is a methodology for the study of antiquity that shifts away from the assumptions and approaches of the discipline known as classical studies and or classics Although it seeks to reckon with the discipline's colonial history it is not simply the application of decolonial theory or the search to uncover subaltern narratives in a subject that has special relevance to the privileged and powerful Rather it dismantles the structures of knowledge that have led to

this privileging and questions the categories ideas themes narratives and epistemological structures that have been deemed objective and essential within the inherited discipline of classics The contributions in this book by an international group of researchers offer a variety of situated embodied perspectives on the question of how to imagine a more critical discipline rather than a unified single view The volume is divided into four parts Critical Epistemologies Critical Philologies Critical Time and Critical Space and Critical Approaches and uses these as spaces to propose disciplinary transformation Critical Ancient World Studies The Case for Forgetting Classics is a must read for scholars and practitioners teaching in the field of classical studies and the breadth of examples also makes it an invaluable resource for anyone working on the ancient world or on confronting Eurocentrism within other disciplines The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 license New Perspectives in Seleucid History, Archaeology and Numismatics Roland Oetjen, 2019-12-16 Dedicated to Getzel M Cohen a leading expert in Seleucid history this volume gathers 45 contributions on Seleucid history archaeology numismatics political relations policy toward the Jews Greek cities non Greek populations peripheral and neighboring regions imperial administration economy and public finances and ancient descriptions of the Seleucid Empire The reader will gain an international perspective on current research **The Ancient Near East** Fishburn Books (Firm), 2006 **Etruscan Civilization** Sybille Haynes, 2000 This comprehensive survey of Etruscan civilization from its origin in the Villanovan Iron Age in the ninth century B.C. to its absorption by Rome in the first century B.C. combines well known aspects of the Etruscan world with new discoveries and fresh insights into the role of women in Etruscan society In addition the Etruscans are contrasted to the Greeks whom they often emulated and to the Romans who at once admired and disdained them The result is a compelling and complete picture of a people and a culture This in depth examination of Etruria examines how differing access to mineral wealth trade routes and agricultural land led to distinct regional variations Heavily illustrated with ancient Etruscan art and cultural objects the text is organized both chronologically and thematically interweaving archaeological evidence analysis of social structure descriptions of trade and burial customs and an examination of pottery and works of art **Zhiva antika**, 2006 **Lebanon** C. ATLANTIS . NG National Geographic and the scientific search for Atlantis Georgeos Díaz-Montexano, 2017-02-11

First of all it is my duty to make it clear for the reader that this book is a very condensed summary of a series of books that have been already published more than thirty books written by the author about historical and scientific Atlantology On this occasion the author has tried to summarize as much as possible the extensive footnotes dense critical apparatus and extensive bibliographic references from previous editions which were aimed at a more academic or specialized public The purpose of this brief work is to give a fast and simple overview of the hypothesis investigations contributions and findings related to Atlantis carried out by the author over the last two decades no matter the level of expertise focusing particularly on those issues that have been handled and only briefly explained by the author in the fascinating documentary Atlantis Discovered produced by James Francis Cameron Yaron Niski y Felix Golubev and directed by the Canadian award winning filmmaker Simcha Jacobovici for National Geographic In this regard I hope this book serves as a complement to improve data and details that could not be appreciated when watching the documentary for obvious production reasons No documentary no matter how lengthy is can gather all the details of a research let alone when the author's participation is only partial having to share it with some other experts who proposed different hypotheses related to the location of Atlantis in the Mediterranean and Azores area Two hours are not enough nor would be three or four more hours to sum up albeit briefly several hypotheses At least a series of ten lengthy

chapters would be required to develop more fully the author's investigations about Atlantis. For these reasons, among other ones, but specially due to the high level of complexity both linguistic and interpretative that results from underwater works, everything related
