Doty, 1978      *On The Margins Of Art Worlds* Larry Gross, 2019-06-04 During the late 1980s the near

worship of artistic genius produced auction sales of works by Vincent Van Gogh and Pablo Picasso for tens of millions of dollars over 15 million for a painting by Jasper Johns and record prices for works by many other deceased and even living masters At the same time it was no longer controversial in academic and intellectual circles to maintain that art works are the products of what Howard Becker has termed collective activity carried out within loosely defined art worlds Works of art from this point of view are not the products of individual makers artists who possess a rare and special gift They are rather joint products of all the people who cooperate via an art world's characteristic conventions to bring works like that into existence Artists are some sub group of the world's participants who by common agreement possess a special gift therefore make a unique and indispensable contribution to the work and thereby make it art 1982 35 The concept of the art world with its central focus on the collective social and conventional nature of artistic production distribution and appreciation confronts and potentially undermines the romantic ideology of art and artists still dominant in Western societies

*Encyclopedia of Nineteenth-Century Photography* John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide

**Copyright Law in Photographic Works** Faisal Alamri, 2025-07-25 This book presents an original theory of copyright authorship tailored for photographic works grounded in the concepts of categorical intention channelled selection and causation By addressing the unique dual nature of photography where mechanical processes intersect with creative choices it offers a fresh perspective on a longstanding legal challenge Through a critical examination of select case law with a focus on Anglo American law the book highlights the complexities and inconsistencies in the current copyright protection for photographs due to their dual nature which exhibits both mechanical and creative characteristics It argues for moving beyond the conventional one size fits all approach for copyright concepts in favour of adopting a tailored contextual approach that acknowledges the nature and characteristics of the category of work in question The book also alludes to emerging technologies such as artificial intelligence and machine learning models considering their implications for copyright and creative expression It also discusses how the history of copyright protection of photographic works may illuminate the path towards dealing with

conflicts between copyright and perceived mechanical mediums of creative expression This book will be of interest to researchers in copyright law and intellectual property law especially those engaged with the legal treatment of mechanically produced creative works It offers valuable insights into the evolving relationship between law technology and authorship in the digital age     *The Camera and Darkroom* ,1904     *The Oxford Dictionary of American Art and Artists* Ann Lee Morgan,2007 In this dictionary of American art 945 alphabetically arranged entries cover painters sculptors graphic artists photographers printmakers and contemporary hybrid artists along with important aspects of the cultural infrastructure
