The Landscape Photographer's Guide to Photoshop Guy Tal, 2017-09-12 The first step to creating a successful photograph happens before you even click the shutter the act of visualizing the final result viewing the landscape in front of you and seeing in your mind's eye the final image that you want to create is the true first act of the creative process Once you know the end result you want to achieve connecting the dots from capture through post processing in Adobe Camera Raw and Photoshop becomes an intentional and logical act Instead of randomly and desperately

pushing and pulling sliders in Photoshop with the hope that your image will look better you execute a logical series of steps that closes the gap between the initial capture and your earlier visualization
