**Charles Jason Peter Lee**

## **Photographic Impressionists Of Spain A History Of The Aesthetics And Technique Of Pictorial Photography:**

The Photographic Impressionists of Spain S. Carl King, 1989 This is a study of the aesthetics and techniques of Spanish pictorial photography Special emphasis is placed on work of the photographic impressionists the critical stages in the evolution of photography s artistic status and Spanish pictorialism from 1900 through the post war period **Documenting Spain: Artists, Exhibition Culture, and the Modern Nation, 1929-1939** , The news media have given us potent demonstrations of the ambiguity of ostensibly truthful representations of public events Jordana Mendelson uses this ambiguity as a framework for the study of Spanish visual culture from 1929 to 1939 a decade marked on the one hand by dictatorship civil war and Franco s rise to power and on the other by a surge in the production of documentaries of various types from films and photographs to international exhibitions Mendelson begins with an examination of El Pueblo Espa ol a model Spanish village featured at the 1929 International Exposition in Barcelona She then discusses Bu uel s and Dal s documentary films relating them not only to French Surrealism but also to issues of rural tradition in the formation of regional and national identities Her highly original book concludes with a discussion of the 1937 Spanish Pavilion where Picasso s famed painting of the Fascist bombing of a Basque town Guernica was exhibited along with monumental photomurals by Josep Renau Based upon years of archival research Mendelson s book opens a new perspective on the cultural politics of a turbulent era in modern Spain It explores the little known yet rich intersection between avant garde artists and government institutions It shows as well the surprising extent to which Spanish modernity was fashioned through dialogue between the seemingly opposed fields of urban and rural fine art and mass culture **Encyclopedia of Nineteenth-Century Photography** John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide **Barcelona and Modernity** William H. Robinson, Jordi Falgàs, Carmen Belen Lord, Josefina Alix, Cleveland Museum of Art, Metropolitan Museum of Art (New York, N.Y.), 2006-01-01 Catalogus van een tentoonstelling van werk van Catalaanse kunstenaars
