Lee, Elizabeth Young, 2007 Lee and Young have admirably elucidated this foundational volume in the history of American photography by developing references that emerge from prior readings of these images as well as thoughtfully producing new ways of seeing the landscapes Gardner presents The book makes available to a wide audience one of the most important photographic records of any war and certainly the most interesting visual record of the American Civil War This is superior scholarship Shirley Samuels author of

Facing America Iconography and the Civil War Anthony Lee and Elizabeth Young's deceptively slim volume is a complex enlightening and elegant study of a significant Civil War era document that also greatly enhances our understanding of nineteenth century visual culture The analysis and format of this collaborative effort will serve as a model for cultural scholarship for years to come Joshua Brown author of Beyond the Lines Pictorial Reporting Everyday Life and the Crisis of Gilded Age America In this beautifully written analysis of one of the most important works of nineteenth century American photography Lee and Young restore Gardner's Sketch Book to its rightful place as a key document of American history At once a report of a newsworthy event and a meditation on its historical meaning Gardner's album is less unmediated reportage than a carefully constructed argument In clear lucid prose Lee and Young help us understand just how Gardner made this work that helped fix the Civil War in American memory Martha A Sandweiss author of Print the Legend Photography and the American West **A Press Divided** David B. Sachsman, 2017-09-08 A Press Divided provides new insights regarding the sharp political divisions that existed among the newspapers of the Civil War era These newspapers were divided between North and South and also divided within the North and South These divisions reflected and exacerbated the conflicts in political thought that caused the Civil War and the political and ideological battles within the Union and the Confederacy about how to pursue the war In the North dissenting voices alarmed the Lincoln administration to such a degree that draconian measures were taken to suppress dissenting newspapers and editors while in the South the Confederate government held to its fundamental belief in freedom of speech and was more tolerant of political attacks in the press This volume consists of eighteen chapters on subjects including newspaper coverage of the rise of Lincoln press reports on George Armstrong Custer Confederate women war correspondents Civil War photojournalists newspaper coverage of the Emancipation Proclamation and the suppression of the dissident press This book tells the story of a divided press before and during the Civil War discussing the roles played by newspapers in splitting the nation newspaper coverage of the war and the responses by the Union and Confederate administrations to press criticism **The Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.), 1975 Journalism and Realism Thomas B.
