Photography Is:

What Photography Is James Elkins, 2011-04-26 In What Photography Is James Elkins examines the strange and alluring power of photography in the same provocative and evocative manner as he explored oil painting in his best selling What Painting Is. In the course of an extended imaginary dialogue with Roland Barthes's Camera Lucida Elkins argues that photography is also about meaninglessness its apparently endless capacity to show us things that we do not want or need to see and also about pain because extremely powerful images can sear permanently into our consciousness. Extensively illustrated with a surprising range of images the book demonstrates that what makes photography uniquely powerful is its ability to express the difficulty physical psychological emotional and aesthetic of the act of seeing. Langford's Basic Photography Michael Langford, Andrew Bruce, Anna Fox, Richard Sawdon Smith, 2024-12-06 This seminal photography text now in its 11th edition has been revamped reorganized and modernized to include the most up to date and need to know information for photographers. The Culture of Photography in Public Space Anne Marsh, Melissa Miles, Daniel Palmer, 2015-05-01 From privacy concerns regarding Google Street View to surveillance photography's association with terrorism and sexual predators photography as an art has become complex terrain upon which anxieties about public space have been played out. Yet the photographic threat is not limited to the image alone. A range of social technological and political issues converge in these rising anxieties and affect the practice circulation and consumption of contemporary public photography today. The Culture of Photography in Public Space collects essays and photographs that offer a new response to these restrictions the events and the anxieties that give rise to them. **Photography**, 1896 **An Introduction to Visual Culture** Nicholas Mirzoeff, 1999 The author traces the history and theory of visual culture asking how and why visual media have become so central to contemporary everyday life.
