Photorealism At The Millenium:

Photorealism At the Millennium Louis K. Meisel, Linda Chase, 2002-10-01 In the early 1970s Meisel began documenting the works of the original thirteen Photorealists. Many of these are still making significant contributions as evidenced for example by Richard Estes's complex street scenes and waterscapes, Tom Blackwell's dazzling reflective storefronts and John Salt's wistful rusting automobiles all represented here. Although always approached from a Photorealist point of view, the images depicted by these artists are staggeringly varied. Ralph Goings's diners, Richard McLean's horses, Linda Bacon's toys, Randy Dudley's industrial vistas, Ron Kleemann's Thanksgiving Day parade balloons, David Parrish's pop icons. Wherever possible, the complete works made by the artist in the 1990s are illustrated and the rest are listed. Such a comprehensive approach makes this volume invaluable to scholars, collectors, and art historians. *The Aesthetics of Violence in Contemporary Media* Gwyn Symonds, 2011-11-03 The topic of violence in the media seems as inundated as can be. Countless studies and research projects have been conducted mostly to show its negative effects on society. What Gwyneth Symonds proposes though, takes this significant topic one step further: studying the aesthetics of media violence. By defining key terms like the graphic nature and authenticity of violent representations and discussing how those definitions are linked to actual violence outside the film and television screen, Symonds broadens the arena of study. Engagingly written, *The Aesthetics of Violence in Contemporary Media* fills an important gap. Symonds uses existing studies for the empirical audience reception data together with discussions of the different representations of violence to look at violence in the media as an art form in of itself. By looking at *The Simpsons*, *Bowling for Columbine*, and Norma Khouri's *Forbidden Love*, just to name a few, Symonds cross-analyzes violence in multiple media to see their affective role in audience reception, an important aspect when discussing media. The book strikes a balance between the reader's need to see how theory matches what actually happens in the texts in question and the demands of a theoretical overview. [Photorealism in the Digital Age](#) Louis K. Meisel, Elizabeth Katherine May Harris, 2018-12-15 This luxurious volume, the fourth in a series by Louis K. Meisel, is a comprehensive documentation of 21st-century Photorealism, one of the most popular art movements since the late 1960s. Photorealists work painstakingly from photographs to create startlingly realistic paintings, and where they once used film for gathering information, they now rely on digital technology, which has vastly expanded the amount of detail that can be captured. In these visual marvels, they bring insights to vernacular subjects: cars, cityscapes, portraits, and make the commonplace uncommon. Illustrating the book with more than 850 works created since 2000, Meisel covers every major Photorealist still active, including Ralph Goings, Richard Estes, Tom Blackwell, Richard McLean, and John Salt, as well as remarkable newcomers. For the first time, he also includes Verist sculptors such as John De Andrea and Duane Hanson. **The Grove Encyclopedia of American Art** Joan M.
