A Phrase Book on Taraon Language Jatan Pulu,1991      **Languages of the Himalayas** George van Driem,2022-09-12  
The survey work *Languages of the Himalayas* provides a bird's eye view of Himalayan languages and language communities. It also constitutes a primary source for much new hitherto unpublished data on several languages. The demographic mosaic of the Himalayas today is viewed in a historical and comparative linguistic perspective. The reader will find an outline of the historical and prehistorical developments that have determined the modern ethnolinguistic composition of the Himalayan region involving various independent linguistic stocks or language families. Maps illustrate the distribution of language communities and trace the routes of ancient migrations. There is an illuminating discussion of grammatical features found in Himalayan languages. The print edition is available as a set of two volumes 9789004103900      *The Sino-Tibetan Languages* Graham Thurgood, Randy J. LaPolla, 2016-12-08. There are more native speakers of Sino-Tibetan languages than of any other language family in the world. Our records of these languages are among the oldest for any human language and the amount of active research on them has multiplied in the last few decades. Now in its second edition and fully updated to include new research, *The Sino-Tibetan Languages* includes overview articles on individual languages with an emphasis on the less commonly described languages as well as descriptions and comments on the subgroups in which they occur. There are overviews of the whole family on genetic classification and language contact, syntax and morphology, and also on word order typology. There are also more detailed overview articles on the phonology, morphosyntax, and writing system of just the Sinitic side of the family. Supplementing these overviews are articles on Shanghaiese, Cantonese, and Mandarin dialects. Tibeto-Burman is reviewed by genetic or geographical sub-group with overview articles on some of the major groups and areas, and there are also detailed descriptions of 41 individual Tibeto-Burman languages written by world experts in the field. Designed for students and researchers of Asian languages, *The Sino-Tibetan Languages* is a detailed overview of the field. This book is invaluable to language students, experts requiring concise but thorough information on related languages, and researchers working in historical, typological, and comparative linguistics.      Resarun, 2000      **A Phrase Book on Taraon Language** Jatan Pulu (philologue), 1991      *Indian Linguistics : Journal of the Linguistic Society of India*, 2010      Tribes of Arunachal Pradesh Dalvinder Singh Grewal, 1997      Accessions List, South Asia Library of Congress.
