The Round Table, 1900 Romanising Oriental Gods Jaime Alvar Ezquerro, 2008 The traditional grand narrative correlating the decline of Graeco Roman religion with the rise of Christianity has been under pressure for three decades This book argues that the alternative accounts now emerging significantly underestimate the role of three major cults of Cybele and Attis Isis and Serapis and Mithras Although their differences are plain these cults present sufficient common features to justify their being taken typologically as a group All were selective adaptations of much older cults of the Fertile Crescent It was their relative sophistication their combination of the imaginative power of unfamiliar myth with distinctive ritual

performance and ethical seriousness that enabled them both to focus and to articulate a sense of the autonomy of religion from the socio political order a sense they shared with Early Christianity The notion of mystery was central to their ability to navigate the Weberian shift from ritualist to ethical salvation

Barker, 2003 A survey of the tournament in England from its first emergence in the 12th century to the beginning of the 15th when technical changes altered its very nature Juliet Barker surveys the tournament in England from its first emergence in the twelfth century to the beginning of the fifteenth when it was revolutionised by the emergence of technical changes which altered its very nature The original publication of this study deriving from Juliet Barker's PhD thesis supervised by Maurice Keen reestablished the importance of the tournament at the heart of medieval chivalric culture The first serious scholarly publication for over half a century it dramatically reawakened interest in the historical context of tournaments and is especially valuable for its detailed evidence on the early years Tournaments are shown as far more than just sport They had wide political social and military implications in England their potential as a political instrument was quickly realised for the disaffected they became a means of rebellion and feuding but for the king and court they were a powerful propaganda machine Participation in tournaments was also a way to earn a coveted reputation for chivalry the passion for tourneying could bring knights lasting fame Military demands accounted for the increasing sophistication of armour and weapons partly in response to the demands of the tourneyers who needed military training that reflected their role in actual combat This wide ranging study looks at the tournament from all these angles and in so doing produces an exemplary history of the first three hundred years of their development JULIET BARKER is a well known broadcaster and writer whose other books include *The Brontes* and *Wordsworth A Life in Letters*
