Presidential Polls And The News Media Paul J Lavrakas, Michael Traugott, Peter V Miller, 2019-06-26 Most news media are data rich but analysis poor when it comes to election polling Since election polls clearly have the power to influence campaigns and election post mortems it is important that spin not take precedence over significance in the reporting of poll results In this volume experts in the media and in academe challenge the conventional approaches that most news media take in their poll based campaign coverage The book reports new research findings on news coverage of recent presidential elections and provides a myriad of examples of how journalists and news media executives can improve their analysis of poll data thereby better serving our political processes Bifurcated Politics Byron E. Shafer, 1988 Even today when it is often viewed as an institution in decline the national party convention retains a certain raw emotional populist fascination Bifurcated Politics is a portrait of the postwar convention as a changing institution a changing institution that still confirms the single most important decision in American politics With the 1988 elections clearly in mind Byron Shafer examines the status of the national party convention which is created and dispersed within a handful of days but nevertheless becomes a self contained world for participants reporters and observers alike He analyzes such dramatic developments as the disappearance of the contest over the presidential nomination and its replacement by struggles over the publicizing of various campaigns the decline of party officials and the rise of the organized interests and the large and growing disjunction between what is happening at the convention hall and what the public sees between the convention on site and the convention on screen He argues that despite its declining status the postwar convention has attracted and mirrored most of the major developments in postwar politics the nationalization of that politics and the spread of procedural reform a

changing connection between the general public and political institutions even the coming of a new and different sort of American politics Bifurcated Politics tells the story of most of the postwar conventions along with the nominating campaigns that preceded them But it also develops a picture of the changing American politics around those stories It will become the definitive study of the national party convention **The Iowa Precinct Caucuses** Hugh Winebrenner, Dennis J.

Goldford, 2010 Although some people refer to Iowa as flyover country presidential candidates and political reporters in the national press corps have no difficulty locating the state every four years at the beginning of presidential primary season When Iowa Democrats pushed forward their precinct caucuses in 1972 the Iowa caucuses became the first presidential nominating event in the nation Politicos soon realized the impact of Iowa's new status and along with the national media promoted the caucuses with a vengeance The Iowa Precinct Caucuses chronicles how the caucuses began how they changed and starting in 1972 how they became fodder for and manipulated by the mass media Hugh Winebrenner and Dennis J Goldford argue that the media have given a value to the Iowa caucuses completely out of proportion to the reality of their purpose and procedural methods In fact the nationally reported results are contrived by the Iowa parties to portray a distorted picture of the process As presidential primaries have grown in the media spotlight and superseded the parties conventions Iowa has become a political proving ground for the confident the hopeful and the relatively unknown but at what cost to the country The third edition of this classic book has been updated to include the elections of 2000 which saw the first winner of the Iowa caucuses to reach the White House since 1976 of 2004 and the roller coaster fortunes of Howard Dean and John Kerry and of 2008 and the unlikely emergence of Barack Obama as a presidential contender **The Politics of the Presidency** Richard Abernathy Watson, Norman C. Thomas, 1988 **Communication Yearbook 22** Michael

Roloff, 2012-07-23 Communication Yearbook 22 contains in depth literature reviews focused on an important topic in specialized areas as well as syntheses that describe scholarship in other domains Each chapter addresses an aspect of one of the most pressing issues currently facing individuals how to communicate with people from different backgrounds or cultures The first two chapters examine the ways sex differences and cross cultural differences affect communication behavior The following three chapters focus on harmful speech the effects of pornography on criminal sexual offenders and personalization of conflict Further chapters focus on argumentation organizational settings and government media relations as well as styles of customer service communication within families with aging parents and intercultural friendship Reforming the Presidential Nomination Process Steven S. ways in which it is broken and how it might be fixed The contributors to Reforming the Presidential Nomination Process address different facets of the selection process starting with a brief history of how we got to this point They analyze the importance and perceived unfairness of the earliest primaries and discuss what led to record turnouts in 2008 What roles do media coverage and public endorsements play William Mayer explains the superdelegate phenomenon and the controversy surrounding it James Gibson and Melanie Springer evaluate public perceptions of the current process as well as possible reforms Larry Sabato A More Perfect Constitution calls for a new nomination system installed via constitutional amendment while Tom Mann of Brookings opines on calls for reform that arose in 2008 and Daniel Lowenstein examines the process by which reforms may be adopted or blocked Presidential Primaries and the Dynamics of Public Choice Larry M.

Bartels, 2020-12-08 An illuminating look at how national political parties nominate presidential candidates This innovative study blends sophisticated statistical analyses campaign anecdotes and penetrating political insight to produce a fascinating exploration of one of America's most controversial political institutions the process by which our major parties nominate candidates for the presidency Larry Bartels focuses on the nature and impact of momentum in the contemporary nominating system He describes the complex interconnections among primary election results expectations and subsequent primary results that have made it possible for candidates like Jimmy Carter George Bush and Gary Hart to emerge from relative obscurity into political prominence in nominating campaigns In the course of his analysis he addresses questions central to any understanding or evaluation of the modern nominating process How do fundamental political predispositions influence the behavior of primary voters How quickly does the public learn about new candidates Under what circumstances will primary success itself generate subsequent primary success And what are the psychological processes underlying this dynamic tendency Bartels examines the likely consequences of some proposed alternatives to the nominating process including a regional primary system and a one day national primary Thus the work will be of interest to political activists would be reformers and interested observers of the American political scene as well as to students of public opinion voting behavior the news media campaigns and electoral institutions **Conventional Wisdom and American Elections** Jody C.

Controversial Issues in Presidential Selection

Gary L. Rose, 1994-01-01 The book is designed to stimulate lively debate and critical thinking about the modern process of presidential selection Eleven issues that impact directly on the selection of the president of the United States are examined in a scholarly and argumentative format Essays pro and con on each issue educate students in the dynamics of presidential selection and help them evaluate competing perspectives on today s pressing issues *Political Research Quarterly*, 2001

Over the Wire and on TV Michael J. Robinson, Margaret A. Sheehan, 1983-07-19 First the press became the media and now the media have become the Imperial Media or have they In this timely and comprehensive analysis Michael Robinson and Margaret Sheehan examine how the news media behaved or misbehaved in covering the 1980 presidential campaign Using the media s own traditional standards as a guide Robinson and Sheehan measure the level of objectivity fairness seriousness and criticism displayed by CBS News and United Press International between January and December of 1980 Drawing on statistical analyses of almost 6 000 news stories and dozens of interviews with writers and reporters the authors reach convincing and sometimes surprising conclusions They demonstrate for example that both CBS and UPI strictly avoided subjective assessments of the candidates and their positions on the issues Both gave the major parties remarkably

equal access But the media seem to give more negative coverage to front runners treating serious challengers less harshly Perhaps the most surprising finding is that networks were not more superficial than print CBS attended to the issues at least as often as UPI Robinson and Sheehan find television coverage more subjective more volatile and substantially more negative than traditional print But CBS behaved neither imperially nor irresponsibly in Campaign 80 The networks did however emulate the more highly charged journalism of the eastern elite print press By blending the quantitative techniques of social science and the tools of Washington based journalism Robinson and Sheehan have produced a book that will be essential reading for students and practitioners of politics public opinion research journalism and communications Lively and readable it should also appeal to anyone interested in the role of the news media in contemporary politics Nominating the President Jack Citrin, David Karol, 2009-09-16 The 2008 presidential nominations were unprecedented in many ways Marking another step in the democratization of the selection process and a surprising loss of control by party elites the contests in both parties were unusually competitive and the outcomes belied the predictions of experts This book offers a fresh look at the role of parties the constraints of campaign finance the status of front runners and the significance of rules race and gender in the post reform era In this volume leading scholars assess the state of the process with original research about money scheduling superdelegates and the role of race and gender in voting Original analyses show how changes in campaign finance and the scheduling of primaries and caucuses helped determined the outcomes in both parties Race once thought of as a handicap proved an asset for the Obama campaign 2008 marked another milestone in the democratization of the nominations process with expanded participation by rank and file voters in donating money voting and using the Internet This timely book provides a glimpse into the future of party nominations and elections *The Making of the Presidential Candidates 2020* Jonathan Bernstein, Casey B. K. Dominguez, 2019-10-22 A political junkie's guide to the 2020 presidential race Based on original analysis from leading experts on presidential elections Making of the Presidential Candidates 2020 describes all of the systematic aspects of the nomination campaign today party rules fundraising media attention voter coalitions prospects for female candidates and more The contributors carefully consider the nature of modern political parties and the ways that expanded parties affect the dynamics of the campaign The analysis is current up to the 2016 election including a thorough examination of the most fascinating candidate of recent times Donald Trump The only authoritative book on the all important nominating process Making of the Presidential Candidates 2020 will be valuable for college courses at all levels as well as practitioners and political junkies who want to understand the fundamental forces that shape nomination campaigns in the modern era Political Communication Richard M. Perloff, 2013-10-18 In this political communication text Richard M Perloff examines the various ways in which messages are constructed and communicated from public officials and politicians through the mass media to the ultimate receivers the people With a focus on the history of political communication he provides an overview of the most significant issues in the study of politics and the media In

addition to synthesizing facts and theories and highlighting the scholarly contributions made to the understanding of political communication effects Political Communication addresses such factors as the rhetorical accomplishments of American presidents the ongoing tangles between the press and the presidency and the historical roots of politics as it is practiced and studied today It also addresses major issues about the press and politics that continually resurface such as question of press bias and the use and manipulation of media by politicians to accomplish national goals As a comprehensive and engaging introduction to contemporary political communication this volume provides all readers with a historical perspective on American politics and press and offers a unique appreciation of the strengths and virtues of political communication in America
