Racism Vol 17 From Slavery To Advanced Capitalism:

Slavery and the Forensic Theatricality of Human Rights in the Spanish Empire Karen-Margrethe

Simonsen,2023-06-24 This book is a study of the forensic theatricality of human rights claims in literary texts about slavery in the sixteenth and the nineteenth century in the Spanish Empire The book centers on the question how do literary texts use theatrical multisensorial strategies to denunciate the violence against enslaved people and make a claim for their rights The Spanish context is particularly interesting because of its early tradition of human rights thinking in the Salamanca School especially Bartolom de Las Casas developed in relation to slavery and colonialism Taking its point of departure in forensic aesthetics the book analyzes five forms of non narrative theatricality allegorical carnivalesque tragicomic melodramatic and tragic

Killing African Americans Noel A. Cazenave,2018-05-16 Killing African Americans examines the pervasive disproportionate and persistent police and vigilante killings of African Americans in the United States as a racial control mechanism that sustains the racial control system of systemic racism Noel A Cazenave s well researched and conceptualized historical sociological study is one of the first books to focus exclusively on those killings and to treat them as political violence Few issues have received as much conventional and social media attention in the United States over the past few years or have for decades now sparked so many protests and so often strained race relations to a near breaking point Because of both its timely and its enduring relevance Killing African Americans can reach a large audience composed not only of students and scholars but also of Movement for Black Lives activists politicians public policy analysts concerned police officers and other criminal justice professionals and anyone else eager to better understand this American

nightmare and its solutions from a progressive and informed African American perspective **State-Sanctioned Violence** Melvin Delgado, 2020-03-16 State sanctioned violence built upon the foundation established by Intersectionality introduces a purposeful socio political agenda that is carried out by various levels of government to subjugate a group due to its beliefs physical characteristics and or social circumstances This book provides a conceptual foundation on state sanctioned violence critiques how this perspective holds relevance for social work research education and practice examines specific examples of how and where state sanctioned violence is manifested and projects potential developments into the near future The Politics of Weight Amelia Greta Morris, 2019-05-15 This book speaks to the politics of weight through an interrogation of dieting power and the body In feminist theory there is no greater site of contestation than that of the body and Morris explores how these debates often become centred upon a dichotomy between oppression and liberation Whilst there is a vast diversity of scholarship that challenges this binary including post colonial post structuralist and Marxist feminist work the dichotomy nevertheless endures The Politics of Weight argues that the feminine body is not simply a site of oppression or liberation by drawing upon the intersections that exist between Foucault s Discipline and Punish and post structuralist feminist work on the body This provides a unique lens for exploring weight Through in depth analysis of interviews with women who seemingly sit on either side of the oppression and liberation debate members of dieting clubs and fat activists the book highlights the complexities that surround women s relationship to weight and the body Likewise it draws upon the wealth of black feminist scholarship to explore the discourses surrounding Oprah Winfrey s dieting journey seeking to demonstrate how discipline and race interact and how this plays out in dieting and weight The Politics of Weight will be of interest to students and scholars across a range of disciplines including gender studies sociology geography and political science America's Johannesburg Bobby M. Wilson, 2019-12 In some ways no American city symbolizes the black struggle for civil rights more than Birmingham Alabama During the 1950s and 1960s Birmingham gained national and international attention as a center of activity and unrest during the civil rights movement Racially motivated bombings of the houses of black families who moved into new neighborhoods or who were politically active during this era were so prevalent that Birmingham earned the nickname Bombingham In this critical analysis of why Birmingham became such a national flashpoint Bobby M Wilson argues that Alabama s path to industrialism differed significantly from that of states in the North and Midwest True to its antebellum roots no other industrial city in the United States depended as much on the exploitation of black labor so early in its urban development as Birmingham A persuasive exploration of the links between Alabama s slaveholding order and the subsequent industrialization of the state America s Johannesburg demonstrates that arguments based on classical economics fail to take into account the ways in which racial issues influenced the rise of industrial capitalism De Gruyter Handbook of Poverty, Disadvantage and Entrepreneurship Michael H. Morris, Susana C. Santos, 2024-12-16 Is entrepreneurship a pathway out of poverty Does creating a business represent a means for improving

one's life circumstances Surprisingly little is known about ventures started by those in circumstances of poverty This pioneering handbook integrates diverse perspectives from around the world regarding the poverty and entrepreneurship interface While the tendency among many scholars economic developers and policymakers is to downplay these ventures arguing they are largely inefficient marginal enterprises that create little innovation and few jobs the chapters in this handbook demonstrate their significant contributions and encourage societies to invest in their development The authors explore a range of factors affecting the ability of the poor to create enterprises that contribute to their well being including the role played by personal capabilities education family support and faith availability of microfinance technology supportive community ecosystems and a munificent institutional environment By shedding light on issues that can help nations realize the potential of these ventures this volume demonstrates how entrepreneurship can serve as a source of empowerment while providing direction regarding ways to surmount the obstacles that stand in the way

Race and Place in Birmingham Bobby M. Wilson, 2000 This pioneering book explores the implications of postmodernism for the black community through an analysis of the civil rights and neighborhood movements in Birmingham Alabama Grounded not only in class struggle the Civil Rights Movement was tied to the politics of racial identity the neighborhood movement to the politics of place identity Bobby M Wilson critically examines these two movements which together transformed race and place in Birmingham He shows that although the civil rights struggle and neighborhood empowerment served a valuable purpose they cannot now overcome post Fordist forces of domination and exclusion Successful political movements the author argues must venture beyond the politics of identity and difference based on race and neighborhood

Under the Affluence Tim Wise, 2015-09-21 Tim Wise is one of the great public moralists in America today In his bracing new book Under the Affluence he brilliantly engages the roots and ramifications of radical inequality in our nation carefully detailing the heartless war against the poor and the swooning addiction to the rich that exposes the moral sickness at the heart of our culture Wise s stirring analysis of our predicament is more than a disinterested social scientific treatise this book is a valiant call to arms against the vicious practices that undermine the best of the American ideals we claim to cherish Under the Affluence is vintage Tim Wise smart sophisticated conscientious and righteously indignant at the betrayal of millions of citizens upon whose backs the American Dream rests This searing testimony for the most vulnerable in our nation is also a courageous cry for justice that we must all heed Michael Eric Dyson author of The Black Presidency Barack Obama and the Politics of Race in America Tim Wise is one of America s most prolific public intellectuals His critically acclaimed books high profile media interviews and year round speaking schedule have established him as an invaluable voice in any discussion on issues of race and multicultural democracy In Under the Affluence Wise discusses a related issue economic inequality and the demonization of those in need He reminds us that there was a time when the hardship of fellow Americans

stirred feelings of sympathy solidarity for struggling families and support for policies and programs meant to alleviate poverty Today however mainstream discourse blames people with low income for their own situation and the notion of an intractable culture of poverty has pushed our country in an especially ugly direction Tim Wise argues that far from any culture of poverty it is the culture of predatory affluence that deserves the blame for America s simmering economic and social crises He documents the increasing contempt for the nation s poor and reveals the forces at work to create and perpetuate it With clarity passion and eloquence he demonstrates how America s myth of personal entitlement based on merit is inextricably linked to pernicious racial bigotry and he points the way to greater compassion fairness and economic justice Tim Wise is the author of many books including Dear White America and Colorblind
