Reading Popular Romance In Early Modern England:

Romance for Sale in Early Modern England Steve Mentz, 2017-09-29 The major claim made by this study is that early modern English prose fiction self consciously invented a new form of literary culture in which professional writers created books to be printed and sold to anonymous readers It further claims that this period s narrative innovations emerged not solely from changes in early modern culture like print and the book market but also from the rediscovery of a forgotten late classical text from North Africa Heliodorus s Aethiopian History In making these claims Steve Mentz provides a comprehensive historicist and formalist account of prose romance the most important genre of Elizabethan fiction He explores how authors and publishers of prose fiction in late sixteenth century England produced books that combined traditional narrative forms with a dynamic new understanding of the relationship between text and audience Though prose fiction would not dominate English literary culture until the eighteenth century Mentz demonstrates that the form began to invent itself as a distinct literary kind in England nearly two centuries earlier Examining the divergent but interlocking careers of Robert Greene Sir Philip Sidney Thomas Lodge and Thomas Nashe Mentz traces how through differing commitments to print culture and their respective engagements with Heliodoran romance these authors helped make the genre of prose fiction culturally and economically viable in England Mentz explores how the advent of print and the book market changed literary discourse influencing new conceptions of what he calls middlebrow narrative and new habits of reading and writing This study draws together three important strains of current scholarly inquiry the history of the book and print culture the study of popular fiction and the re examination of genre and influence It also connects early modern fiction with longer histories of prose fiction and the rise of the modern novel [Reading Material in Early Modern England](#) Heidi

Robert Greene Kirk Melnikoff,2017-03-02 While Robert Greene was the most prolific and perhaps the most notorious professional writer in Elizabethan England he continues to be best known for his 1592 quip comparing Shakespeare to an upstart crow In his short twelve year career Greene wrote dozens of popular pamphlets in a variety of genres and numerous professional plays At his premature death in 1592 he was a bonafide London celebrity simultaneously maligned as Grub Street profligate and celebrated as literary prodigy The present volume constitutes the first collection of Greene s reception both in the early modern period and in our present era offering in its poems prose passages essays and chapters that which is most singular among what has been written about Greene and his work It also includes a complete list of Greene s contemporary reception until 1640 Kirk Melnikoff s wide ranging and revisionist introduction organizes this reception generically while at the same time situating it in the context of recent critical methodologies

Renaissance Romance Dr Nandini Das,2013-05-28
Romance was criticized for its perceived immorality throughout the Renaissance and even enthusiasts were often forced to acknowledge the shortcomings of its dated narrative conventions Yet despite that general condemnation the striking growth in English fiction in the late sixteenth and early seventeenth centuries is marked by writers who persisted in using this much maligned narrative form In *Renaissance Romance* Nandini Das examines why the fears and expectations surrounding the old genre of romance resonated with successive new generations at this particular historical juncture Across a range of texts in

which romance was adopted by the court by popular print and by women Das shows how the process of realignment and transformation through which the new prose fiction took shape was driven by a generational consciousness that was always inherent in romance In the fiction produced by writers such as Sir Philip Sidney Robert Greene and Lady Mary Wroth the transformative interaction of romance with other emergent forms from the court masque to cartography was determined by specific configurations of social groups drawn along the lines of generational difference What emerged as a result of that interaction radically changed the possibilities of fiction in the period
