*Java in the 14th Century: A Study in Cultural History* Theodore G.Th.

Pigeaud, 2013-06-29 Professor Krom's Nagara Kertagama edition of 1919 contained several lists and indexes to show the way through the maze of unfamiliar names of persons and places mentioned in the text. In accordance with the broadened scope of the present book the old lists have been brought up to date and some new ones have been added. It is hoped that they will prove to be of some use to readers who though not being expert in rebus Javanic still would take cognizance of history and development of culture in one of the most interesting islands of the Indian Archipelago. The alphabetical index of subjects treated in volumes II and IV of the present book is specially recommended to their attention. The Javanese glossary is to and general index which in addition the present book not found in previous editions covers in the first place all Nagara Kertagama words and names whatsoever and further many words and names of other texts. In combination with the English alphabetical index of subjects the Javanese glossary is to be used as a general index of contents of volumes I V and up to a certain point as a substitute for the encyclopaedia of things Javanese that is lacking.
