Modernism Melinda J. Cooper, 2022-10-01 Eleanor Dark 1901-85 is one of Australia's most innovative 20th century writers Her extensive oeuvre includes ten novels published from the early 1930s to the late 1950s and represents a significant engagement with global modernity from a unique position within settler culture Yet Dark's contribution to 20th century literature has been undervalued in the fields of both Australian literary studies and world literature Although two biographies have been written about her life there has been no book length critical study of her writing published since 1976 Middlebrow Modernism counters this neglect by providing the first full length critical survey of Eleanor Dark's writing to be published in over four decades Focusing on the fiction that Dark produced during the interwar years and reading this in the context of her larger body of work this book positions Dark's writing as important to the study of Australian literature and global modernism Melinda Cooper argues that Dark's fiction exhibits a distinctive aesthetic of middlebrow modernism which blends attributes of literary modernism with popular fiction It seeks to mediate and reconcile apparent binaries modernism and mass culture liberal humanism and experimental aesthetics settler society and international modernity The term middlebrow modernism also captures the way Dark negotiated cosmopolitan commitments with more place based attachments to nation and local community within the mid 20th century Middlebrow Modernism posits that Dark's fiction and the broader phenomenon of Australian modernism offer essential case studies for larger debates operating within global modernist and world literature studies providing perspectives these fields might otherwise miss Navy Photographer's Mate Training

Wimbush's career as a scholar provide a response to the nearly universal persistent and sedimented modern world hyper signification of Black flesh always needing to be framed humiliated policed and dirtied Because Wimbush is a scholar of religion as culture having to do with social practices and their psychopolitics as regimes of knowledge discourse formation and power relations his ex-centric transdisciplinary interest in scriptures has been viewed in some circles as controversial Yet it is Wimbush's linkage of the modern hyper signification of Black flesh leading to racialization and racism especially anti Black racism to the scriptural as shorthand for discourse and

relations of power that makes this work compelling How to Read Well in Public and Private.
