

Why is reading at home so important?

Children with access to 25 books at home complete an average of 2 more years of school than children from homes without any books.

Kids 4-5 years old gain 6 months of reading ability by being read to 3 to 5 times per week.

Reading is a critical skill for succeeding in most school subjects.

A child spends 900 hours a year in school and 7800 hours at home.

Research shows that just 20 minutes a day spent reading with a child helps them develop critical reading skills.

Reading Matters Joseph Tabbi, Michael Wutz, 1997 The convergence of twentieth century narrative and technology is one of the most important developments in current literary study Roughly a decade after the founding of the Society for Literature and Science and after the appearance of such influential books as Kathleen Woodward's *Culture of Information* and William Paulson's *Noise of Culture* Joseph Tabbi and Michael Wutz have edited a landmark volume that seeks to summarize this still emerging field Through the essays and the wide ranging overview provided by the editors introduction *Reading Matters* shows how these theoretical concerns can contribute to the practical study of narrative and it helps to make the field far more accessible to students and other serious readers of fiction The twelve original essays published here for the first time are the work of distinguished scholar critics on both sides of the Atlantic They cover the range of contemporary literature from the canonical novels of high modernism and postmodernism through subjects only recently put on the academic agenda such as cyberpunk and hypertext fiction In an age that has proclaimed the death of the novel many times over the editors and contributors argue persuasively for the continued vitality of literary narrative By responding in ingenious ways to the capabilities of other media they assert the novel has enlarged and redefined its territory of representation and its range of techniques and play while maintaining its viability in the new media assemblage

Reading as a Philosophical Practice Robert Piercey, 2020-12-15 *Reading as a Philosophical Practice* asks why reading everyday reading for pleasure matters so profoundly to so many people Its answer is that reading is an implicitly philosophical activity To passionate readers it is a way of working through and taking a stand on certain fundamental questions about who and what we are how we should live and how we relate to other things The book examines the lessons that the activity of reading seems to teach about selfhood morality and ontology and it tries to clarify the sometimes paradoxical claims that serious readers have made about it To do so it proposes an original theoretical framework

based on Virginia Woolf's notion of the common reader and Alasdair MacIntyre's conception of practice. It also asks whether reading can continue to play this role as paper is replaced by electronic screens. *Read for Your Life* Pat Williams, Peggy Matthews Rose, 2007-06 With a deluge of electronic conveniences and cable channels well into the hundreds it's no wonder that many people aren't sitting down with a good old-fashioned book more often. Motivational speaker and lifelong reader Pat Williams is changing all of that in this energetic book. With anecdotes and interviews from some of today's greatest icons in business, sports, and academia including Phoenix Suns star Steve Nash (voted NBA's Most Valuable Player in 2005-06), Yankees star Alex Rodriguez, Grant Hill of the Orlando Magic, and former New York City mayor Rudy Giuliani, *Read for Your Life* will help readers discover how reading can enhance their personal and professional thinking. *Read for Your Life* features 11 ways to transform one's life through books. Publisher: **Keep Them Reading** ReLeah Cossett Lent, Gloria Pipkin, 2015-04-25 *Keep Them Reading* is a concise handbook for teachers, librarians, administrators, and district personnel about how to prevent censorship in a school or district and what to do if it happens. Written by two award-winning authors who have devoted much of their careers to anti-censorship work, this book discusses the overall importance of reading in all academic endeavors and demonstrates how challenges and censorship can derail even the best literacy program. Each chapter contains practical tools, advice, and resources for building understanding about issues of intellectual freedom and for creating a plan to help all parties work through challenges before they turn into damaging censorship incidents. The last chapter contains advice from authors who have dealt with censorship, such as Judy Blume, and experts on the subject, such as Joan Bertin, executive director of the National Coalition Against Censorship. Book Features: Procedures for dealing with censorship challenges before they arise; Protocols to help teachers and librarians meet challenges and resist censorship; Samples of actual letters teachers can use to defend their selection of a text; Detailed suggestions for conducting meetings with parents and district personnel; Helpful lists of books dealing with censorship, relevant court cases, and national organizations offering support and resources. The first academic freedom book of 2013, an excellent one. Read the article on the Huffington Post Education Blog. There are no easy answers, but there are lessons to be learned from the good fight of classroom teachers who have been victims of the censorship wars. *Keep Them Reading* offers sage advice and guidance about what to do when the censor calls. From the Foreword by Pat Scales, past president ALSC (American Library Association): Sooner or later every reading and literature teacher will encounter someone who wants to limit students' experiences with a text. *Keep Them Reading* lays out a very common-sense, pro-active mechanism that is both respectful of parents and community values and students and teachers' rights. Every teacher and administrator should read this handbook and then establish the processes that Lent and Pipkin recommend. Nancy G. Patterson, co-editor, *Language Arts Journal of Michigan* Associate Professor, Literacy Studies, College of Education, Grand Valley State University. The real heroes are the librarians and teachers who at no small risk to themselves refuse to lie down and play dead for censors. Bruce Coville, bestselling author. The topic of

this book censorship can strike fear in any educator's heart. So it is a delightful surprise that what seeps through these pages is love love for the families whose concerns for their children Pipkin and Lent remind us are occasions for respectful engagement and above all a deep love for books and the readers who are comforted challenged transported and transformed by them Maja Wilson author of Rethinking Rubrics in Writing Assessment **The Reading Mind** Daniel T.
