

A photograph of a dirt road winding through a forest. The trees on either side have autumn foliage in shades of yellow, orange, and brown. The road leads towards a bright, hazy light at the end of the path. The overall mood is serene and contemplative.

If you can make the reader
laugh he is apt to get
careless and go on reading.

Reading Of Henry Green:

A Reading of Henry Green Andrew Kingsley Weatherhead,1961 **A Reading of Henry Green** A. Kingsley Weatherhead,2003-01-01 **A Reading of Henry Green** A. Kingsley Weatherhead,1961 *Henry Green at the Limits of Modernism* Marius Hentea,2013-11-01 Although Henry Green has been recognised by James Wood David Lodge and John Updike as one of the most innovative writers of his time his significant achievement remains largely neglected Henry Green at the Limits of Modernism provides a theoretically sophisticated and historically nuanced reading of Green s novels and makes the case for Green s importance in reconsiderations of modernism late modernism and post war realism This work is the most ambitious reassessment of Green s oeuvre to date and thus critical reading for scholars interested in modernism late modernism and the evolution of British post war fiction Arguing against the predominant view of Green s fiction as an autonomous literary construction the work connects Green to a number of social and literary contexts resulting in fresh readings of his novels and also a greater accessibility to an author long considered oblique and elusive With significant investigations of Green s connection to his literary generation his multifaceted and formally innovative handling of social class his negotiations of narrative authority and authorship and the importance of disability studies to understanding Green s fiction this study charts the complex trajectories of Green s fiction against both social and literary contexts The work also moves beyond the narrow confines of British literature to explore Green s connections to broader trends in European literature Reader's Guide to Literature in English Mark Hawkins-Dady,2012-12-06 Reader s Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study Handbook of the English Novel of the Twentieth and Twenty-First Centuries Christoph Reinfandt,2017-06-12 The Handbook systematically charts the trajectory of the English novel from its emergence as the foremost literary genre in the early twentieth century to its early twenty first century status of eccentric eminence in new media environments Systematic chapters address The English Novel as a Distinctly Modern Genre The Novel in the Economy Genres Gender performativity masculinities feminism queer and The Burden of Representation class and ethnicity Extended contextualized close readings of more than twenty key texts from Joseph Conrad s Heart of Darkness 1899 to Tom McCarthy s Satin Island 2015 supplement the systematic approach and encourage future research by providing overviews of reception and theoretical perspectives **The English Novel at Mid-Century** Michael Gorra,2016-07-27 So far as the young were concerned Orwell wrote of Britain in the years after the Great War the official beliefs were dissolving like sandcastles Most critical accounts of that postwar generation have been constrained by having to deal with the myth of the thirties Michael Gorra s innovation in this exciting study of the postwar generation s major novelists lies in seeing the consequences of that dissolution in formal rather than political terms arguing that the novelist s difficulty in

representing human character in what Wyndham Lewis called a shell shocked age is itself a sign of that loss of belief But while most studies of this generation end with the coming of World War 2 Gorra follows these novelists throughout their careers The result is a book that not only shows how the British novel s increasing consciousness of its own limitations stands as a mirror to the country s loss of power but also provides memorable portraits of four major twentieth century writers
