

Sociology 1101 Readings
Unit 5

- Harari: Germans and Gorillas
 - About 7 million years ago, chimpanzees and gorillas had common ancestors
 - Human tribes tend to coalesce over time into larger groups
 - Modern Germans were created from the merger of Saxons, Prussians, Swabians, and Bavarians
 - Mergers don't always last
 - Humankind was divided into countless isolated tribes but with each passing millennium these fuse into larger and larger groups
 - This creates fewer and fewer distinct civilizations
 - In recent generations, civilizations have been blending into a single global civilization
 - The process of human unification has taken two distinct forms:
 - Establishing links between distinct groups
 - Homogenizing practices across groups
 - War spreads ideas, technologies, and people far more quickly than commerce does
 - People across the globe are increasingly sharing identical beliefs and practices
 - Global politics thus follows the Anna Karenina principle:
 - Successful states are all alike, but every failed state fails in its own way, by missing this or that ingredient of the dominant political package
 - Each country in the world has an anthem that conforms to the same universal model
 - National flags display the same dreary conformity
 - People still have different religious and national identities, but when it comes to the practical stuff almost all of us belong to the same civilization
- Frank: Worldwide Trends in Criminal Regulation of Sex
 - Focuses on cross-national and longitudinal data on the criminal regulation of rape, adultery, sodomy, and child sexual abuse between 1945 and 2005
 - Reforms Across Countries and Domains of Sexual Activity
 - Between 1945 and 2005, criminal laws regulating sexual activity shifted all over the world
 - Ex) New Zealand, the Prostitution Reform Act shifted the burden of criminal sanctions from sex workers onto those who exploit them
 - Case-By-Case Approaches
 - The case-study approach to sex-law reforms enjoys advantages like data availability
