1960s Latin American art boom did not define a single stylistic trend or the art of a single nation but rather attempted to frame Latin America as a unified whole for U S audiences Delia Solomons calls attention to disruptive artworks that rebelled against the curatorial frames purporting to hold them and reveals these exhibitions to be complex contact zones in which competing voices collided Ultimately through multiple means including choosing to exclude artworks with readily decipherable political messages and evading references to contemporary inter American frictions the U S curators who organized these shows crafted projections of Pan American partnership and harmony with the United States as leader interpreter and good neighbor during an era of brutal U S interference across the Americas Theoretically sophisticated and highly original this survey of Cold War era Latin American art exhibits sheds light on the midcentury history of major U S art museums and makes an important contribution to the fields of museum studies art history and Latin American modernist art

**Dematerialization** Karen Benezra, 2020-03-03 Dematerialization examines the intertwined experimental practices and critical discourses of art and industrial design in Argentina Mexico and Chile in the 1960s and 1970s Provocative in nature this book investigates the way that artists critics and designers considered the relationship between the crisis of the modernist concept of artistic medium and the radical social transformation brought about by the accelerated capitalist development of the preceding decades Beginning with Oscar Masotta's sui generis definition of the term Karen Benezra proposes dematerialization as a concept that allows us to see how disputes over the materiality of the art and design object functioned in order to address questions concerning the role of appearance myth and ideology in the dynamic logic structuring social relations in contemporary discussions of aesthetics artistic collectivism and industrial design Dematerialization brings new insights to the fields of contemporary art history critical theory and Latin American cultural studies Globalizing the Avant-Garde David Ayers, Joana Cunha Leal, Benedikt Hjartarson, Margarida Brito Alves, 2024-12-16 How has the process of globalization shaped artistic practices on the one hand and art history and theory on the other The contributions in this volume approach this question from a range of perspectives taking into account the role of travel for example or practitioners increasing knowledge of other cultures art s increasing awareness of itself as existing on a global level literary translation the advance of technology and the ever changing grand narratives of art history As well as reflections on European avant gardes and neo avant gardes the collection features discussions of Japan Latin America Africa Asia and the Pacific As a whole the volume engages with broader current discourses about cultural globalization and features input from leading scholars around the world as well as some important novel interventions by early career researchers. The authors not only make a major contribution to the evolution of avant garde studies but also offer valuable original points of view to art history and to the cultural theory of globalization more broadly British Bulletin of Publications on Latin America, the Caribbean, Portugal and Spain, 2003 **Riding with Death** Jana Evans Braziel, 2017-06-22 On the southern end of the Grand Rue a major thoroughfare that runs through the center of Port au

Prince waits the Haitian capital s automobile repair district This veritable junkyard of steel and rubber recycled parts old tires and scrap metal might seem an unlikely foundry for art Yet on the street s opposite end thrives the Grand Rue Galerie a working studio of assembled art and sculptures wrought from the refuse Established by artists Andr Eug ne and Jean H rard Celeur in the late 1990s the Grand Rue s urban environmental aesthetics defined by motifs of machinic urbanism Vodou bricolage the postprimitivist altermodern and performative politics radically challenge ideas about consumption waste and environmental hazards as well as consider innovative solutions to these problems in the midst of poverty insufficient social welfare lack of access to arts education and basic needs In Riding with Death Jana Evans Braziel explores the urban environmental aesthetics of the Grand Rue sculptors and the beautifully constructed sculptures they have designed from salvaged automobile parts rubber tires carved wood and other recycled materials Through first person accounts and fieldwork Braziel constructs an urban ecological framework for understanding these sculptures amid environmental degradation and grinding poverty Above all Braziel presents Haitian artists who live on the most challenged Caribbean island yet who thrive as creators reinventing refuse as art and resisting the abjection of their circumstances **Avant-Garde** Lori Cole, 2018-06-04 Surveying the Avant Garde examines the art and literature of the Americas in the early twentieth century through the lens of the questionnaire a genre as central as the manifesto to the history of the avant garde Questions such as How do you imagine Latin America and What should American art be issued by avant garde magazines like Im n a Latin American periodical based in Paris and Cuba's Revista de Avance demonstrate how editors writers and readers all grappled with the concept of America particularly in relationship to Europe and how the questionnaire became a structuring device for reflecting on their national and aesthetic identities in print Through an analysis of these questionnaires and their responses Lori Cole reveals how ideas like American art as well as modernism and avant garde were debated at the very moment of their development and consolidation Unlike a manifesto whose signatories align with a single polemical text the questionnaire produces a patchwork of responses providing a composite and sometimes fractured portrait of a community Such responses yield a self reflexive history of the era as told by its protagonists which include figures such as Gertrude Stein Alfred Stieglitz Jean Toomer F T Marinetti Diego Rivera and Jorge Luis Borges The book traces a genealogy of the genre from the Renaissance paragone or comparison of the arts through the rise of enqu tes in the late nineteenth century up to the contemporary questionnaire which proliferates in art magazines today By analyzing a selection of surveys issued across the Atlantic Cole indicates how they helped shape artists and writers understanding of themselves and their place in the world Based on extensive archival research this book reorients our understanding of modernism as both hemispheric and transatlantic by narrating how the artists and writers of the period engaged in aesthetic debates that informed and propelled print communities in Europe the United States and Latin America Scholars of modernism and the avant garde will welcome Cole's original and compellingly crafted work American Book Publishing Record, 2004
