Readings of Contemporary Circus Franziska Trapp,2024-08-27 What are the characteristics of contemporary circus In what way does contemporary circus differ from theater dance and performance Where do hybrid forms exist Where are there observable commonalities Despite the diversity of contemporary circus performances are there generalizable characteristics that unite the performances What potential do these questions have for dramaturgical practice

This book adapts a cultural semiotic approach to analyze contemporary circus performances. It offers the first comprehensive documentation and interpretation of the art form based on the reading theories of cultural literature, theater, and dance studies. The volume thereby provides a dramaturgy of contemporary circus which reveals its generalizable characteristics, fundamental techniques and structures, and the effects they produce. At the same time, theories and methods are modified and further developed regarding the characteristics of the circus. This book is designed for students and scholars in the field of theater and performance studies as well as for artists, dramaturges, and directors working in the field of circus. Reading Plato's Dialogues to Enhance Learning and Inquiry Mason Marshall, 2020-12-29 This scholarly volume proposes protreptic as a radically new way of reading Plato's dialogues leading to enhanced student engagement in learning and inquiry. Through analysis of Platonic dialogues including Crito, Euthyphro, Meno, and Republic, the text highlights Socrates' ways of fostering and encouraging self-examination and conscientious reflection. By focusing his work on Socrates' use of protreptic, Marshall proposes a practical approach to reading Plato, illustrating how his writings can be used to enhance intrinsic motivation amongst students and help them develop the thinking skills required for democratic and civic engagement. This engaging volume will be of interest to doctoral students, researchers, and scholars concerned with Plato's dialogues, the philosophy of education, and ancient philosophy more broadly, as well as postgraduate students interested in moral and values education research. **Sellars and the History of Modern Philosophy** Luca Corti, Antonio M. Nunziante, 2018-06-14 This edited volume systematically addresses the connection between Wilfrid Sellars and the history of modern philosophy, exploring both the content and method of this relationship. It intends both to analyze Sellars' position in relation to singular thinkers of the modern tradition and to inquire into Sellars' understanding of philosophy as a field in reflective and constructive conversation with its past. The chapters in Part I cover Sellars' interpretation and use of Descartes, Leibniz, Hume, Kant, and Hegel. Part II features essays on his relationship with Peirce, Frege, Carnap, Wittgenstein, American pragmatism, behaviorism, and American realism, particularly his father Roy Wood Sellars. The History of Modern Philosophy features original contributions by many of the most renowned Sellars scholars throughout the world. It offers an exhaustive survey of Sellars' views on the historical antecedents and meta-philosophical aspects of his thought. **History of Ethics** Daniel Star, Roger Crisp, 2019-05-06 Is there an objective moral standard that applies to all our actions? To what extent should I sacrifice my own interests for the sake of others? How might philosophers of the past help us think about contemporary ethical problems? As the most recent addition to the Blackwell Readings in Philosophy series, History of Ethics: Essential Readings with Commentary brings together rich and varied excerpts of canonical work and contemporary scholarship to span the history of Western moral philosophy in one volume. Editors Star and Crisp, noted scholars in their fields, expertly introduce the readings to illuminate the main philosophical ideas and arguments in each selection and connect them to broader themes.
