Readings In Technical Writing:

Technical Writing Diana C. Reep, 2003 *Technical Writing Principles Strategies and Readings* offers a flexible combination of instructional chapters and readings that reflect the variety of emphases in today's technical writing classroom. The fifteen instructional chapters offer a general introduction to technical communication while 24 articles from professional journals and Web sites which constitute about one fourth of the text offer insight and advice on specific communication topics including writing for the Web. Strategy Boxes in each chapter also introduce students to important subjects related to technical communication such as voice mail and videoconferencing. Each concise and self-contained instructional unit includes extended models and exercises which can be used in class or for collaborative or homework assignments. Students who study technical writing as part of their career preparation in science, business, engineering, social services, and technical fields will find this text particularly useful.

Readings for Technical Communication Jennifer MacLennan, 2008. This outstanding anthology of insightful essays written by both theorists and practitioners focuses on the content and structure of technical writing while also discussing the political, interpersonal, and ethical demands of writing in a professional workplace. Unlike most other texts in the field, *Readings in Technical Communication* goes beyond offering a traditional prescriptive approach to technical writing and provides students with a comprehensive and thoughtful examination of the field. Along with a wide variety of classic essays, RTC includes a wealth of new material that reflects the most up-to-date approaches and methods in technical communication.
